Elsie Clews Parsons Desley Deacon, 2008-04-15 Elsie Clews Parsons was a pioneering feminist an eminent anthropologist and an ardent social critic In *Elsie Clews Parsons* Desley Deacon reconstructs Parsons s efforts to overcome gender biases in both academia and society *Pueblo Mothers and Children* Elsie Worthington Clews Parsons, 1991 Noted pioneer anthropologist Elsie Clews Parsons published four articles on Laguna Zuni Hopi and Tewa mothers and children in the British anthropological journal *Man* Editor Babcock a professor at the University of Arizona has supplemented these unfamiliar pieces with seven Parsons articles from American journals on Zuni fertility conception and pregnancy beliefs women s life cycle men women Hopi and Tewa wedding practices the Nativity Myth at Laguna and Zuni 1918 Babcock known for her work on women anthropologists in the Southwest and on Cochiti potter Helen Cordero and the Pueblo Storyteller tradition provides a valuable introduction on Elsie Clews Parsons and the Pueblo Construction of Gender **Women Writing**

Culture Ruth Behar, Deborah A. Gordon, 1995 Extrait de la couverture Here for the first time is a book that brings women s writings out of exile to rethink anthropology s purpose at the end of the century As a historical resource the collection undertakes fresh readings of the work of well known women anthropologists and also reclaims the writings of women of color for anthropology As a critical account it bravely interrogates the politics of authorship As a creative endeavor it embraces new Feminist voices of ethnography that challenge prevailing definitions of theory and experimental writing *The Frontiers of Women's Writing* Brigitte Georgi-Findlay, 2022-05-10 Although the myth of the American frontier is largely the product of writings by men a substantial body of writings by women exists that casts the era of western expansion in a different light In this study of American women s writings about the West between 1830 and 1930 a European scholar provides a reconstruction and new vision of frontier narrative from a perspective that has frequently been overlooked or taken for granted in discussions of the frontier Brigitte Georgi Findlay presents a range of writings that reflects the diversity of the western experience Beginning with the narratives of Caroline Kirkland and other women of the early frontier she reviews the diaries of the overland trails letters and journals of the wives of army officers during the Indian wars professional writings focusing largely on travel by women such as Caroline Leighton from the regional publishing cultures that emerged in the Far West during the last quarter of the century and late nineteenth and early twentieth century accounts of missionaries and teachers on Indian reservations Most of the writers were white literate women who asserted their own kind of cultural authority over the lands and people they encountered Their accounts are not only set in relation to a masculine frontier myth but also investigated for clues about their own involvement with territorial expansion By exploring the various ways in which women writers actively contributed to and at times rejected the development of a national narrative of territorial expansion based on empire building and colonization the author shows how their accounts are implicated in expansionist processes at the same time that they formulate positions of innocence and detachment Georgi Findlay has

drawn on American studies scholarship feminist criticism and studies of colonial discourse to examine the strategies of women's representation in writing about the West in ways that most theorists have not. She critiques generally accepted stereotypes and assumptions both about women's writing and its difference of view in particular and about frontier discourse and the rhetoric of westward expansion in general as she offers a significant contribution to literary studies of the West that will challenge scholars across a wide range of disciplines. *Pueblo Indian Religion* Elsie Worthington Clews

Parsons, 1939-01-01 The rich religious beliefs and ceremonials of the Pueblo Indians of Arizona and New Mexico were first synthesized and compared by ethnologist Elsie Clews Parsons. Prodigious research and a quarter century of fieldwork went into her 1939 encyclopedic two volume work *Pueblo Indian Religion*. The author gives an integrated picture of the complex religious and social life in the pueblos including Zuni, Acoma, Laguna, Taos, Isleta, Sandia, Jemez, Cochiti, Santa Clara, San Felipe, Santa Domingo, San Juan, and the Hopi villages. In volume I she discusses shelter, social structure, land tenure, customs, and popular beliefs. Parsons also describes spirits, cosmic notions, and a wide range of rituals. The cohesion of spiritual and material aspects of Pueblo culture is also apparent in volume II which presents an extensive body of solstice, installation, initiation, war, weather, curing, kachina, and planting and harvesting ceremonies, as well as games, animal dances, and offerings to the dead. A review of Pueblo ceremonies from town to town considers variations and borrowings. Today a half century after its original publication *Pueblo Indian Religion* remains central to studies of Pueblo religious life. Tewa Tales Elsie Clews

Parsons, 1994-03 The Tewa are a Pueblo Indian group from New Mexico, some of whom migrated around 1700 in the aftermath of the second Pueblo Revolt to their present location on First Mesa of the Hopi Reservation in northern Arizona. This collection of more than one hundred tales from both New Mexico and Arizona, Tewa, first published in 1926, bears witness to their rich cultural history. In addition to emergence and animal stories, these tales also provide an account of many social customs such as wedding ceremonials and relay racing that show marked differences between the two tribal groups. A comparison of tales from the two divisions of the tribe reveals something of what has happened to both emigrant and home-staying Tewa over two centuries of separation. Yet while only half of the Arizona tales are distinctly parallel to the New Mexican, additional similarities may be found in such narrative features as the helpfulness of Spider, old woman, and her possession of medicine, creating life magically under a blanket, or Coyote beguiling girls into marriage. Elsie Clews Parsons was a pioneering anthropologist in the Southwest whose works included the encyclopedic *Pueblo Indian Religion*. The Tewa tales she gathered for this volume are thus notable not only as fascinating stories that will delight curious readers but also as authentic reflections of a people less known to scholars. *Women of Color* Elizabeth Brown-Guillory, 2010-06-28 Interest in the mother-daughter relationship has never been greater, yet there are few books specifically devoted to the relationships between daughters and mothers of color. To fill that gap, this collection of original essays explores the mother-daughter relationship as it appears in the works of African, African American, Asian American, Mexican American, Native American,

Indian and Australian Aboriginal women writers Prominent among the writers considered here are Toni Morrison Alice Walker Maxine Hong Kingston Cherrie Moraga Leslie Marmon Silko and Amy Tan Elizabeth Brown Guillory and the other essayists examine the myths and reality surrounding the mother daughter relationship in these writers works They show how women writers of color often portray the mother daughter dyad as a love hate relationship in which the mother painstakingly tries to convey knowledge of how to survive in a racist sexist and classist world while the daughter rejects her mother s experiences as invalid in changing social times This book represents a further opening of the literary canon to twentieth century women of color Like the writings it surveys it celebrates the joys of breaking silence and moving toward reconciliation and growth

Stone, 2018-01-16 This volume features bioarchaeological research that interrogates the human skeleton in concert with material culture ethnographic data and archival research This approach provides examples of how these intersections of inquiry can be used to consider the larger social and political contexts in which people lived and the manner in which they died Bioarchaeologists are in a unique position to develop rich interpretations of the lived experiences of skeletonized individuals Using their skills in multiple contexts bioarchaeologists are also situated to consider the ethical nature and

inherent humanity of the research collections that have been used because they represent deceased for whom there are records identifying them These collections have been the basis for generating basic information regarding the human skeletal transcript Ironically though these collections themselves have not been studied with the same degree of understanding and interpretation that is applied to archaeological collections
