imaginarios Cristián Rodrigo Iturralde, 2024-10-01 Este es un libro esencial para todo latinoamericano y para toda persona interesada en comprender los procesos actuales Es una obra que ayuda a despertar del ideológico buenismo basado en la ignorancia y en la construcción de relatos ficticios con premisas falsas permitiendo la creación de estructuras al servicio de una ideología No se trata de los indígenas se trata de la lucha por el poder Se trata de marxismo ideología y falsas verdades Si no quieren ser manipulados lean este libro Magdalena Merbilh a *Enemies Within* María Sierra, 2015-11-25 Can citizenship rights be denied to significant groups in a society that regards itself as civilized and self governing Is it possible to exclude such people in the name of freedom and reason Is it plausible to explain classifications that differentiate between first and second class citizens as natural This is the paradox inherent in modern politics born of the revolutions that ended the Ancien Régime in the western world Throughout the nineteenth century and at the beginning of the twentieth liberalism inspired a representative form of government that appealed to citizenship yet marginalized many social groups including natives women immigrants workers slaves and nomads In the Hispanic dimension of the Atlantic world that this book deals with modern politics was based on exclusions explained as natural and necessary In both Europe and America a distinction was made between the responsible citizen and those others in society potential enemies within who had to be controlled and supervised This book explains the success of this political operation by analysing the historical construction of figures of alterity that were fundamental to the definition of national civic identities Its basic premise is that imaginaries that were constructed in the nineteenth century can be found even today in western political conceptions The cultural complexity of enduring political images is revealed by exploring the inner workings of virtuous figures in relation to their opposites readers will find the mosaic of representations of civic alterity both recognisable and surprising The contributors to this volume provide historical perspectives on the debate on political legitimacy in open societies Reinventing democracies involves understanding the historicity of inherited formulae of governance and considering them therefore as amenable to improvement The readiness to do this is not a threat to democracy but rather a commitment to looking for it **Principios generales de derecho privado** Luis Mariano Genovesi, 2021-03-01 La reforma del Código Civil y Comercial produjo un gran impacto en muchos sentidos uno de ellos sin dudas es la enseñanza del Derecho Este volumen trabaja sobre una propuesta que implica la difusión de los principios y aspectos valorativos que caracterizan al nuevo paradigma de regulación de ese Código que se erige bajo una perspectiva de la constitucionalización del Derecho Privado Por medio del método de la enseñanza por casos esta obra recorre diferentes objetos y temas del derecho y los explica y expone mediante síntesis de fallos Al final de cada problema se proponen una serie de preguntas que invitan a la reflexión sobre lo leído *Balances y perspectivas* Luciana Beatriz Scotti, 2016-06-01 Los procesos de integración regional comparten en la actualidad un rol protagónico con los Estados nacionales en el escenario de las relaciones internacionales Estos esquemas condicionan el comportamiento de los Estados y de otros actores de la escena internacional De allí la importancia de su estudio en particular del bloque que

integramos el Mercosur Nuestro proceso presenta peculiares características que desde las diversas dimensiones del fenómeno de la integración regional merecen ser analizadas En especial es necesario detenerse en el análisis de los aspectos jurídico institucionales del Mercosur cuyas deficiencias son de diversa índole y grado Además de veinte años desde su creación el Mercosur no ha cumplido las ambiciosas metas propuestas desde sus orígenes más allá de los relanzamientos que tuvo al correr de su vida en consonancia con los vaivenes en las presidencias de los Estados parte y en especial del lugar que le han reconocido en las respectivas agendas de política exterior
