representations produced by Puerto Ricans and considering how others American anthropologists photographers and museum curators for example have represented the nation His sources of information include ethnographic fieldwork archival research interviews surveys censuses newspaper articles personal documents and literary texts **Born Black in the U.S.A.** John Jordan,2014-06-09 African Americans had seen their fortunes ride a sea of change ever since the first Africans set foot on the shores of Jamestown Virginia in 1619 The onset of plantation based economies in the South meant that they were to be held at all cost to the land and the less they know of their rights and fight for them the better for the plantation and slaveowners That however was bound to be addressed by people from their own ranks as well as white men who are aware of the evil and inhumanity of the conditions they were consigned to In Born Black in the USA we trace such developments perhaps culminating in the presidency of Barack Obama Yet there is that nagging questions at the end Has discrimination really ended in the USA **Race, Migration and Identity** Martin Bulmer,John Solomos,2017-10-02 The chapters in this collection cover diverse aspects of the changing meanings and boundaries of race migration and identity in the contemporary United States The situation in the USA has been the subject of intense policy and political debate over the past decades and the papers in this volume provide an important insight from a wide range of analytical perspectives They provide an insight into the changing dynamics of race and migration in the contemporary environment combining conceptual analysis with original empirical research The concerns of this volume address global questions of relevance as well as those specific to the USA This book was originally published as a special issue of Ethnic and Racial Studies **The Louisiana Purchase and American Expansion, 1803-1898** Sanford Levinson,Bartholomew Sparrow,2005-11-28 The 1803 purchase of the Louisiana Territory was a watershed event for the fledgling United States Adding some 829 000 square miles of territory the Louisiana Purchase set a striking precedent of Presidential power and brought to the surface profound legal and constitutional questions As the nation continued to expand westward and into the Pacific and Caribbean critical social political and constitutional questions arose that greatly tested American resolve and reshaped the nation s founding premises In this exciting collection Sanford Levinson and Bartholomew Sparrow bring together noted scholars in American history constitutional law and political science to examine role that the Louisiana Purchase played in shaping both the expansionist policies of the nineteenth century and critical interpretations of the Constitution The Louisiana Purchase and American Expansion 1803 1898 provides a fascinating overview of how the U S Constitution and the American political system is inextricably tied to the Louisiana Purchase and the territorial expansion of the United States **Handbook of Hispanic Cultures in the United States: Sociology** Nicolàs Kanellos,Claudia Esteva-Fabregat,Felix M. Padilla,1994-01-01 Recovering the U S Hispanic Literary Project is a national project to locate identify preserve and make accessible the literary contributions of U S Hispanics from colonial times through 1960 in what today comprises the fifty states of the United States **War Against All Puerto Ricans** Nelson A Denis,2015-04-07 The powerful untold story of the 1950 revolution in Puerto

Rico and the long history of U S intervention on the island that the New York Times says could not be more timely In 1950 after over fifty years of military occupation and colonial rule the Nationalist Party of Puerto Rico staged an unsuccessful armed insurrection against the United States Violence swept through the island assassins were sent to kill President Harry Truman gunfights roared in eight towns police stations and post offices were burned down In order to suppress this uprising the US Army deployed thousands of troops and bombarded two towns marking the first time in history that the US government bombed its own citizens Nelson A Denis tells this powerful story through the controversial life of Pedro Albizu Campos who served as the president of the Nationalist Party A lawyer chemical engineer and the first Puerto Rican to graduate from Harvard Law School Albizu Campos was imprisoned for twenty five years and died under mysterious circumstances By tracing his life and death Denis shows how the journey of Albizu Campos is part of a larger story of Puerto Rico and US colonialism Through oral histories personal interviews eyewitness accounts congressional testimony and recently declassified FBI files War Against All Puerto Ricans tells the story of a forgotten revolution and its context in Puerto Rico s history from the US invasion in 1898 to the modern day struggle for self determination Denis provides an unflinching account of the gunfights prison riots political intrigue FBI and CIA covert activity and mass hysteria that accompanied this tumultuous period in Puerto Rican history
