Reginald, Mary Wickizer Burgess, Mary A. Burgess, 1996-01-01 An Annotated Bibliography of the First 300 Publications of the Borgo Press 1975 1998 **Darwinian Feminism and Early Science Fiction** Patrick B Sharp, 2018-03-28 Darwinian Feminism in Early Science Fiction provides the first detailed scholarly examination of women s SF in the early magazine period before the Second World War Tracing the tradition of women s SF back to the 1600s the author demonstrates how women such as Margaret Cavendish and Mary Shelley drew critical attention to the colonial mindset of scientific masculinity which was attached to scientific institutions that excluded women In the late

nineteenth century Charles Darwin's theory of sexual selection provided an impetus for a number of first wave feminists to imagine Amazonian worlds where women control their own bodies relationships and destinies Patrick B Sharp traces how these feminist visions of scientific femininity Amazonian power and evolutionary progress proved influential on many women publishing in the SF magazines of the late 1920s and early 1930s and presents a compelling picture of the emergence to prominence of feminist SF in the early twentieth century before vanishing until the 1960s [Science-fiction](#) Everett Franklin Bleiler, Richard Bleiler, 1998 *Complementing Science Fiction The Early Years* which surveys science fiction published in book form from its beginnings through 1930 the present volume covers all the science fiction printed in the genre magazines *Amazing Astounding* and *Wonder* along with offshoots and minor magazines from 1926 through 1936 This is the first time this historically important literary phenomenon which stands behind the enormous modern development of science fiction has been studied thoroughly and accurately The heart of the book is a series of descriptions of all 1 835 stories published during this period plus bibliographic information Supplementing this are many useful features detailed histories of each of the magazines an issue by issue roster of contents a technical analysis of the art work brief authors biographies poetry and letter indexes a theme and motif index of approximately 30 000 entries and general indexes *Science Fiction The Gernsback Years* is not only indispensable for reference librarians collectors readers and scholars interested in science fiction it is also of importance to the study of popular culture during the Great Depression in the United States Most of its data which are largely based on rare and almost unobtainable sources are not available elsewhere **Science Fiction and Fantasy Research Index**, 1985 **Sisters of Tomorrow** Lisa Yaszek, Patrick B. Sharp, 2016-06-07 Anthology of stories essays poems and illustrations by the women of early science fiction For nearly half a century feminist scholars writers and fans have successfully challenged the notion that science fiction is all about boys and their toys pointing to authors such as Mary Shelley Clare Winger Harris and Judith Merril as proof that women have always been part of the genre Continuing this tradition *Sisters of Tomorrow The First Women of Science Fiction* offers readers a comprehensive selection of works by genre luminaries including author C L Moore artist Margaret Brundage and others who were well known in their day including poet Julia Boynton Green science journalist L Taylor Hansen and editor Mary Gnaedinger Providing insightful commentary and context this anthology documents how women in the early twentieth century contributed to the pulp magazine community and showcases the content they produced including short stories editorial work illustrations poetry and science journalism Yaszek and Sharp's critical annotation and author biographies link women's work in the early science fiction community to larger patterns of feminine literary and cultural production in turn of the twentieth century America In a concluding essay the award winning author Kathleen Ann Goonan considers such work in relation to the history of women in science and engineering and to the contemporary science fiction community itself [Astounding Wonder](#) John Cheng, 2012-03-19 When physicist Robert Goddard whose career was inspired by H G Wells's *War of the Worlds* published A

The First Geeks Orty Ortwein, 2024-05-20 The writer Ray Bradbury science fiction expert Forry Ackerman and special effects genius Ray Harryhausen are world famous for their careers involving tales of the imagination Before anyone had

heard of them they were friends as teens and college aged boys enjoying all that 1930s L A had to offer getting celebrity autographs watching blockbuster movies and haunting dozens of bookstores As members of the Los Angeles chapter of the Science Fiction League the three belonged to a tight knit group that was involved in the earliest science fiction conventions and the birth of cosplay This book follows the lives and careers of these three literary and film legends and tracks the origins of science fiction fandom Each chapter builds a chronology of how their paths intertwined and ultimately connected to the beginnings of renowned fan conventions like Comic Con Devoted science fiction fans and new readers alike will learn how a young friendship launched three illustrious careers and changed the face of science fiction forever **The Gernsback Days**
Mike Ashley,Michael Ashley,Robert A. W. Lowndes,2004-01-01 In recent years there has been a resurgence of interest in Hugo Gernsback and the start of a serious study of the contribution he made to the development of science fiction It seemed to me that the time was due to reinvestigate the Gernsback era and dig into the facts surrounding the origins of Amazing Stories I wanted to find out exactly why Hugo Gernsback had launched the magazine what he was trying to achieve and to consider what effects he had good and bad Too many writers and editors from the Gernsback days have been unjustly neglected or unfairly criticized Now I hope Robert A W Lowndes and I have provided the grounds for a fair consideration of their efforts and a true reconstruction of the development of science fiction It s the closest to time travel you ll ever get I hope you enjoy the trip Mike Ashley Preface
