Puluwat Dictionary Samuel Hoyt Elbert, 1972 No Indigenous Australian content Woleaian-English Dictionary Ho-min Sohn, Anthony F. Tawerilmang, 2019-03-31 This was the first dictionary compiled for the language spoken on Woleai Atoll in the Caroline Islands The dictionary contains some 6 200 Woleaian entries and an English Woleaian finder list of about 4 000 entries The Woleaian entries are based on an alphabetic system of orthography developed by the authors Each entry also contains where appropriate the following parts loan source alternant forms part of speech or word class grammatical notes definitions phrase examples sentence examples synonyms antonyms and cross references Trukese-English Dictionary Ward Hunt Goodenough, Hiroshi Sugita, 1980 Three closely related languages are spoken in Truk State Federated States of Micronesia Trukese Mortlockese and Puluwatese Trukese has by far the largest number of speakers in the Truk state Building on the dictionary by Samuel H Elbert published in 1947 this dictionary represents the Trukese language as it is spoken in the lagoon islands of Truk It also includes an introduction which covers the languages of Truk the alphabet the format of an entry morphology syntax and bibliography Maps and tables **Comparative Austronesian Dictionary** Darrell T. Tryon, 2011-06-01 No detailed description available for Comparative Austronesian Dictionary Carolinian-English Dictionary Frederick H. Jackson, Jeffrey C. Marck, 2019-03-31 Carolinian is a member of the Trukic subgroup of the Micronesian group of Oceanic languages This is the first English dictionary of the three Carolinian dialects spoken by descendants of voyagers who migrated from atolls in the Central Caroline Islands to Saipan in the Northern Mariana Islands This dictionary provides English definitions for almost 7 000 Carolinian entries and an English Carolinian finder list A special effort was made to include culturally important words particularly those related to sailing fishing cooking house building traditional religion and family structure With this work the compilers also establish an acceptable standard writing system with which to record the Carolinian language **The Linguistics of Eating and Drinking** John Newman, 2009-03-11 This volume reviews a range of fascinating linguistic facts about ingestive predicates in the world's languages The highly multifaceted nature of eat and drink events gives rise to interesting clausal properties of these predicates such as the atypicality of transitive constructions involving eat and drink in some languages The two verbs are also sources for a large number of figurative uses across languages with meanings such as destroy and savour as well as participating in a great variety of idioms which can be quite opaque semantically Grammaticalized extensions of these predicates also occur such as the quantificational use of Hausa shaa drink meaning roughly do X frequently regularly Specialists discuss details of the use of these verbs in a variety of languages and language families Australian languages Papuan languages Athapaskan languages Japanese Korean Hausa Amharic Hindi Urdu and Marathi **Science of Pacific Island Peoples: Land use and agriculture** R. J. Morrison, Paul A. Geraghty, Linda Crowl, 1994 The Oceanic Languages John Lynch, Malcolm Ross, Terry Crowley, 2002 The volume contains five background chapters The Oceanic Languages Sociolinguistic Background Typological

Overview Proto Oceanic and Internal Subgrouping Part of 2 vol set Author Ross from ANU **Documenting Endangered Languages** Geoffrey Haig, Nicole Nau, Stefan Schnell, Claudia Wegener, 2011-11-30 The rapid decline in the world's linguistic diversity has prompted the emergence of documentary linguistics. While documentary linguistics aims primarily at creating a durable, accessible and comprehensive record of languages, it has also been a driving force in developing language annotation and analysis software, archiving architecture, improved fieldwork methodologies and new standards in data accountability and accessibility. More recently, researchers have begun to recognize the immense potential available in the archived data as a source for linguistic analysis so that the field has become of increasing importance for typologists but also for neighbouring disciplines. The present volume contains contributions by practitioners of language documentation, most of whom have been involved in the Volkswagen Foundation's DoBeS programme *Dokumentation Bedrohter Sprachen*. The topics covered in the volume reflect a field that has matured over the last decade and includes both retrospective accounts as well as those that address new challenges: linguistic annotation practice, fieldwork and interaction with speech communities, developments and challenges in archiving digital data, multimedia lexicon applications, corpora from endangered languages as a source for primary data, typology as well as specific areas of linguistic analysis that are raised in documentary linguistics.

Composition Linguistique Des Nations Du Monde Heinz Kloss, Grant D. McConnell, 1981 *The Japanese Language in the Pacific Region* Daniel Long, Keisuke Imamura, 2024-08-16 Long and Imamura examine language contact phenomena in the Asia Pacific region in the context of early 20th century colonial history, focusing on the effects the Japanese language continues to have over island societies in the Pacific. Beginning in the early 20th century when these islands were taken over by the Japanese Empire and continuing into the 21st century, the book examines 5150 Japanese origin loanwords used in 14 different languages. It delves into semantic, phonological and grammatical changes in these loanwords that form a fundamental part of the lexicons of the Pacific Island languages even now in the 21st century. The authors examine the usage of Japanese kana for writing some of the local languages and the pidginoid phenomena of Angaur Island. Readers will gain a unique understanding of the Japanese language's usage in the region from colonial times through the post-war period and well into the current century. Researchers, students and practitioners in the fields of sociolinguistics, language policy and Japanese studies will find this book particularly useful for the empirical evidence it provides regarding language contact situations and the various Japanese language influences in the Asia Pacific region. The authors also offer accompanying resources that help to further illustrate the examples found in the book. *The Lexicon of Proto-Oceanic* Malcolm Ross, Andrew Pawley, Meredith Osmond, 2007-03-01 This is the second in a series of five volumes on the lexicon of Proto-Oceanic, the ancestor of the Oceanic branch of the Austronesian language family. Each volume deals with a particular domain of culture and/or environment and consists of a collection of essays, each of which presents and comments on lexical reconstructions of a particular semantic field within that domain. Volume 2 examines how Proto-Oceanic speakers described

their geophysical environment An introductory chapter discusses linguistic and archaeological evidence that locates the Proto Oceanic language community in the Bismarck Archipelago in the late 2nd millennium BC The next three chapters investigate terms used to denote inland coastal reef and open sea environments and meteorological phenomena A further chapter examines the lexicon for features of the heavens and navigational techniques associated with the stars How Proto Oceanic speakers talked about their environment is also described in three further chapters which treat property terms for describing inanimate objects locational and directional terms and terms related to the expression of time Vernacular Language Symposium on New & Developing Orthographies in Micronesia, 1989, Guam Mary L. Spencer,1990 *Music, Lapita, and the Problem of Polynesian Origins* Mervyn McLean,2014-01-01 For more than twenty years the standard view among anthropologists has been that Polynesians evolved from a group of settlers known as Lapita people whose characteristically dentate stamped pottery has been found on numerous mostly Melanesian sites and who entered Fiji more than 3000 years ago from a starting point in the Bismarck Archipelago An alternative view that champions Micronesia as a primary area of origin for Polynesians has been in limbo as a result of the prevailing theory but is reappraised in the present book and found once again to be in contention The book takes an historical view of theories of origin and provides some account of methodologies used by scholarly disciplines which have been brought to bear on the subject including evidence from music and dance which forms the core of the book **Micronesica** ,1989 **Archaeology and Language III** Roger Blench,Matthew Spriggs,2012-10-12 Archaeology and Language III interprets results from archaeological data in terms of language distribution and change providing the tools for a radical rewriting of the conventional discourse of prehistory Individual chapters present case studies of artefacts and fragmentary textual materials concerned with the reconstruction of houses maritime technology pottery and grave goods **Kusaiean-English Dictionary** Kee-Dong Lee,2019-03-31 Kusaie is a small island in the middle of the Pacific Ocean lying roughly midway between Pohnpei and the Marshalls Its language is distinct from those of the other island groups of Micronesia though it has many cognates with Marshallese Designed to be a companion volume to the author s Kusaiean reference grammar this dictionary will be of use to anyone wanting to learn the Kusaiean language or to linguists involved in comparative and historical studies of Austronesian linguistics **A Dictionary of Scientific Quotations** Alan L. Mackay,1991-01-01 Science affects us all in the words of Albert Einstein The whole of science is nothing more than a refinement of everyday thinking It is therefore fascinating to discover the thoughts of scientists philosophers humanists poets theologians politicians and other miscellaneous mortals on this most important of subjects A Dictionary of Scientific Quotations is a personal selection of scientific quotations by Professor Alan L Mackay that includes graffiti lines of song proverbs and poetry Whether you believe that All problems are finally scientific problems George Bernard Shaw or that Imagination is more important than knowledge Einstein it is without doubt that It is a good thing for an uneducated man to read books of quotations Churchill You will be charmed and delighted by this collection and
