**Puns and Pundits** Scott B. Noegel, 2000 Essays on the use of word play in the literature of ancient Egypt Mesopotamia Ugarit and Israel and Medieval Hebrew and Arabic literature includes such topics as alliterative allusions rebus writing ominous homophony portentous puns and paronomasia Hebrew Wordplay and Septuagint Translation Technique in the Fourth Book of the Psalter Elizabeth H. P. Backfish, 2019-07-25 This volume examines numerous Hebrew wordplays not identified and discussed in previous research and the technique of the Septuagint translators by offering another criterion of evaluation essentially their concern about the style of translating Hebrew into Greek Elizabeth Backfish's study analyzes seventy four wordplays employed by the Hebrew poets of Psalms 90 106 and how the Septuagint renders Hebrew wordplay in Greek Backfish estimates that the Septuagint translators were able to render 31% of the Hebrew semantic and phonetic wordplays twenty four total most of which required some sort of transformation or change to the text in order to function in Greek After providing a thorough summary of research methods on wordplay definitions and research methodology Backfish summarizes all examples of wordplay within the Fourth Psalter and concludes with examples of the wordplay's replication similar rendition or textual variation in the Septuagint Emphasising the creativity and ingenuity of the Septuagint translators work in passages that commentators often too quickly identify as the results of scribal error or a variant Vorlage from the Masoretic text Backfish shows how the aptitude and flexibility displayed in the translation technique also contributes to conversations in modern translation studies *Dictionary of the Old Testament: Wisdom, Poetry and Writings* TREMPER LONGMAN III, PETER ENNS, 2020-05-21 The Old Testament books of wisdom and poetry carry themselves differently from those of the Pentateuch the histories or the prophets The divine voice does not peal from Sinai there are no narratives carried along by prophetic interpretation nor are oracles declaimed by a prophet Here Scripture often speaks in the words of human response to God and God's world The hymns laments and thanksgivings of Israel the dirge of Lamentations the questionings of Qohelet the love poetry of the Song of Songs the bold drama of Job and the proverbial wisdom of Israel all offer their textures to this great body of biblical literature Then too there are the finely crafted stories of Ruth and Esther that narrate the silent providence of God in the course of Israelite and Jewish lives This third Old Testament volume in IVP's celebrated Black Dictionary series offers nearly 150 articles covering all the important aspects of Job Proverbs Ecclesiastes Psalms Song of Songs Lamentations Ruth and Esther Over 90 contributors many of them experts in this literature have contributed to the Dictionary of the Old Testament Wisdom Poetry and Writings This volume maintains the quality of scholarship that students scholars and pastors have come to expect from this series Coverage of each biblical book includes an introduction to the book itself as well as separate articles on their ancient Near Eastern background and their history of interpretation Additional articles amply explore the literary dimensions of Hebrew poetry and prose including acrostic ellipsis inclusio intertextuality parallelism and rhyme And there are well rounded treatments of Israelite wisdom and wisdom

literature including wisdom poems sources and theology In addition a wide range of interpretive approaches is canvassed in articles on hermeneutics feminist interpretation form criticism historical criticism rhetorical criticism and social scientific approaches The Dictionary of the Old Testament Wisdom Poetry and Writings is sure to command shelf space within arm s reach of any student teacher or preacher working in this portion of biblical literature *Dictionary of the Old Testament: Wisdom, Poetry & Writings* Tremper Longman III, Peter Enns, 2010-05-11 Tremper Longman III and Peter E Enns edit this collection of 148 articles by over 90 contributors on Job Psalms Proverbs Ecclesiastes Song of Songs Lamentations Ruth and Esther *Approaches to Literary Readings of Ancient Jewish Writings* Klaas Smelik, Karolien Vermeulen, 2013-09-26 In this volume twelve contributions discuss the relevance accuracy potential and possible alternatives to a literary reading of ancient Jewish writings especially the Hebrew Bible Drawing on different academic fields biblical studies rabbinic studies and literary studies and on various methodologies literary criticism rhetorical criticism cognitive linguistics historical criticism and reception history the essays form a state of the art overview of the current use of the literary approach toward ancient Jewish texts The volume convincingly shows that the latest approaches to a literary reading can still enhance our understanding of these texts *Writings of Early Scholars in the Ancient Near East, Egypt, Rome, and Greece* Annette Imhausen, Tanja Pommerening, 2010 Medicine astronomy dealing with numbers even the cultures of the pre modern world offer a rich spectrum of scientific texts But how are they best translated Is it sufficient to translate the sources into modern scientific language and thereby above all to identify their deficits Or would it be better to adopt the perspective of the sources themselves strange as they are only for them not to be properly understood by modern readers Renowned representatives of various disciplines and traditions present a controversial and constructive discussion of these problems

**Gilgameš and the World of Assyria** Joseph Azize, Noel Weeks, 2007 In July 2004 a number of scholars gathered for a conference on Gilgamesh and the World of Assyria at The University of Sydney This volume of conference papers features contributions by Andrew George the key note speaker and established scholars such as J D Forest V A Hurowitz G A Rendsburg N Weeks and I M Young together with those of other local scholars The chief theme is the Gilgamesh epic but interesting suggestions are made concerning the importance of that epic for biblical studies and Assyriology in general

**Allusive Soundplay in the Hebrew Bible** Jonathan G. Kline, 2016-10-14 The first study to focus exclusively on the use in the Hebrew Bible of soundplay to allude to and interpret earlier literary traditions This book focuses on the way the biblical writers used allusive soundplay to construct theological discourse that is in service of their efforts to describe the nature of God and God s relationship to humanity By showing that a variety of biblical books contain examples of allusive soundplay employed for this purpose Kline demonstrates that this literary device played an important role in the growth of the biblical text as a whole and in the development of ancient Israelite and early Jewish theological traditions Features Demonstrates that allusive soundplay was a productive compositional technique in ancient Israel Identifies examples of

innerbiblical allusion that have not been identified before A robust methodology for identifying soundplay in innerbiblical allusions

**Luke's Characters in their Jewish World** Jenny Read-Heimerdinger, 2024-08-22 Jenny Read Heimerdinger explores the characters of Luke Acts in order to situate them in the Jewish world to which they belong Through a close reading of the Greek text she argues that Luke emerges as a person thoroughly steeped in a Jewish view of Scripture familiar with a range of associated oral traditions and that taking account of the Jewish features allows new insights into the way that the author situates events and characters firmly within the history of Israel before the Church was a separate institution or religion Read Heimerdinger proposes that such a view of his work implies an addressee capable of understanding what he received and that one eminently qualified candidate is Theophilus the high priest in Jerusalem 37 41 and brother in law of Caiaphas The Jewish perspective of Luke's two volumes is more visible in forms of the text not used for modern translations notably that of Codex Bezae and the early versions which are rejected by the editors of the Greek New Testament on which translations are based Read Heimerdinger draws on the analysis of the variants of the Greek text analysed in her previous *Luke in his Own Words* 2022 in a manner more accessible to readers unfamiliar with Greek The variant readings make use of a sophisticated knowledge of Jewish exegetical techniques that would generally be discarded by later generations of Christians but which are increasingly being recognized by NT scholars in line with Jewish historical studies of Second Temple and Rabbinic Judaism Seeing the characters of Luke Acts through Theophilus eyes brings exciting insights and a fresh understanding of the author's message

**Voice, Text, Hypertext** Raimonda Modiano, Leroy F. Searle, Peter L. Shillingsburg, 2016-06-01 Voice Text Hypertext illustrates brilliantly why interest in textual studies has grown so dramatically in recent years For the distinguished authors of these essays a text is more than a document or material object It is a cultural event a matrix of decisions an intricate cultural practice that may focus on religious traditions modern underground literary movements poetic invention or the irreducible complexity of cultural politics Drawing from classical Roman and Indian to modern European traditions the volume makes clear that to study a text is to study a culture It also demonstrates the essential importance of heightened textual awareness for contemporary cultural studies and critical theory and indeed for any discipline that studies human culture
