Puranas And Acculturation:

Purāṇas and Acculturation Vijay Nath,2001 *The Puranic World* Vijay Nath,2009-01-01 The present book is a collection of essays written at different points of time and published in reputed journals and books What blends them together is the use of the primary source material in the form of a vast compendium of Puranic literature backed by epigraphic archaeological and anthropological data which has been utilized to arrive at conclusions pertaining to changes in Indian society and religion during the later half of first millennium AD when the major Puranas were being compiled The period represents a watershed in Indian history for it marked a transition from a commercially viable economic order to a closed feudal economy The social and religious dimensions of the brahmanical system were particularly impacted by such a transition resulting in some innovative forms of restructuring It has been the purpose behind most of the present articles to reassess and utilize the available Puranic evidence for getting fresh insights into the rationale and precise nature of these changes The key areas of thrust in these articles are changes in material culture awareness and mode of dealing with environmental issues gender based differentiation recent ritual formations such as Mahadana and Tirthas as well as the utilization of myth as a mode of expressing historical reality **The Hindus** Wendy Doniger,2010-09-30 An engrossing and definitive narrative account of history and myth that offers a new way of understanding one of the world s oldest major religions The Hindus elucidates the relationship between recorded history and imaginary worlds Hinduism does not lend itself easily to a strictly chronological account many of its central texts cannot be reliably dated even within a century its central tenets karma dharma to name just two arise at particular moments in Indian history and differ in each era between genders and caste to caste and what is shared among Hindus is overwhelmingly outnumbered by the things that are unique to one group or another Yet the greatness of Hinduism its vitality its earthiness its vividness lies precisely in many of those idiosyncratic qualities that continue to inspire debate today Wendy Doniger is one of the foremost scholars of Hinduism in the world With her inimitable insight and expertise Doniger illuminates those moments within the tradition that resist forces that would standardize or establish a canon Without reversing or misrepresenting the historical hierarchies she reveals how Sanskrit and vernacular sources are rich in knowledge of and compassion toward women and lower castes how they debate tensions surrounding religion violence and tolerance and how animals are the key to important shifts in attitudes toward different social classes The Hindus brings a fascinating multiplicity of actors and stories to the stage to show how brilliant and creative thinkers many of them far removed from Brahmin authors of Sanskrit texts have kept Hinduism alive in ways that other scholars have not fully explored In this unique and authoritative account debates about Hindu traditions become platforms from which to consider the ironies and overlooked epiphanies of history **A Pragmatic Approach to Religion And Sustainability** Deepanjali Mishra,Jeffery D Long,2024-09-20 This volume outlines various religious practices followed across the global south and highlights their correlation to sustainability It features more than 30 chapters from scholars

across diverse disciplines including philosophy economics ethics theology sociology ritual studies and education The interdisciplinary volume mines religious rituals and practices for answers that could aid and alleviate unsustainable lifestyles Delving deep into the cultural practices of tribal religions in India the book highlights humanistic elements to establish sustainable ways of thinking feeling acting and being Including perspectives from Buddhism Judaism Hinduism Christianity and tribal religious traditions this book is a must for scholars interested in sustainability and religion in the global south

The Difficulty of Being Good Gurcharan Das,2010-10-04 Why should we be good How should we be good And how might we more deeply understand the moral and ethical failings splashed across today s headlines that have not only destroyed individual lives but caused widespread calamity as well bringing communities nations and indeed the global economy to the brink of collapse In *The Difficulty of Being Good* Gurcharan Das seeks answers to these questions in an unlikely source the 2 000 year old Sanskrit epic Mahabharata A sprawling witty ironic and delightful poem the Mahabharata is obsessed with the elusive notion of dharma in essence doing the right thing When a hero does something wrong in a Greek epic he wastes little time on self reflection when a hero falters in the Mahabharata the action stops and everyone weighs in with a different and often contradictory take on dharma Each major character in the epic embodies a significant moral failing or virtue and their struggles mirror with uncanny precision our own familiar emotions of anxiety courage despair remorse envy compassion vengefulness and duty Das explores the Mahabharata from many perspectives and compares the successes and failures of the poem s characters to those of contemporary individuals many of them highly visible players in the world of economics business and politics In every case he finds striking parallels that carry lessons for everyone faced with ethical and moral dilemmas in today s complex world Written with the flair and seemingly effortless erudition that have made Gurcharan Das a bestselling author around the world and enlivened by Das s forthright discussion of his own personal search for a more meaningful life *The Difficulty of Being Good* shines the light of an ancient poem on the most challenging moral ambiguities of modern life

The Making of Romantic Love William M. Reddy,2024-05-31 In the twelfth century the Catholic Church attempted a thoroughgoing reform of marriage and sexual behavior aimed at eradicating sexual desire from Christian lives Seeking a refuge from the very serious condemnations of the Church and relying on a courtly culture that was already preoccupied with honor and secrecy European poets romance writers and lovers devised a vision of love as something quite different from desire Romantic love was thus born as a movement of covert resistance In *The Making of Romantic Love Longing and Sexuality in Europe South Asia and Japan* William M Reddy illuminates the birth of a cultural movement that managed to regulate selfish desire and render it innocent or innocent enough Reddy strikes out from this historical moment on an international exploration of love contrasting the medieval development of romantic love in Europe with contemporaneous eastern traditions in Bengal and Orissa and in Heian Japan from 900 1200 CE where one finds no trace of an opposition between love and desire In this comparative framework Reddy tells an appealing tale about the rise

and fall of various practices of longing underscoring the uniqueness of the European concept of sexual desire **Studying Early India** Brajadulal Chattopadhyaya, 2006 A focal study of the methodological changes that confront historians of pre colonial India *The Archaeology of Seafaring in Ancient South Asia* Himanshu Prabha Ray, 2003-08-14 Prior to European expansion communities of the Indian subcontinent had a strong maritime orientation In this new archaeological study Himanshu Prabha Ray explores seafaring activity religious travel and political economy in this ancient period By using archaeological data from the Red Sea to the Indonesian archipelago she reveals how the early history of peninsular South Asia is interconnected with that of its Asian and Mediterranean partners in the Indian Ocean Region The book departs from traditional studies focusing on the communities maritime history rather than agrarian expansion and the emergence of the state Rather than being a prime mover in social economic and religious change the state is viewed as just one participant in a complex interplay of social actors including merchants guilds boat builders sailors pilgrims religious clergy and craft producers A study that will be welcomed by students of Archaeology and Ancient History particularly those interested in South Asian Studies *The Archaeology of Sacred Spaces* Susan Verma Mishra, Himanshu Prabha Ray, 2016-08-05 This volume focuses on the religious shrine in western India as an institution of cultural integration in the period spanning 200 BCE to 800 CE It presents an analysis of religious architecture at multiple levels both temporal and spatial and distinguishes it as a ritual instrument that integrates individuals and communities into a cultural fabric The work shows how these structures emphasise on communication with a host of audiences such as the lay worshipper the ritual specialist the royalty and the elite as well as the artisan and the sculptor It also examines religious imagery inscriptions traditional lore and Sanskrit literature The book will be of special interest to researchers and scholars of ancient Indian history Hinduism religious studies architecture and South Asian studies *The Penguin History of Early India* Romila Thapar, 2003 A Largely Rewritten Version Of A Classic History Of Early India Concerned Not Only With The Past But Also With The Interaction Of The Past And The Present Romila Thapar S Penguin History Of Early India Brings To Life Many Centuries Of The Indian Past Dynastic History Provides A Chronological Frame But The Essential Thrust Of The Book Is The Explanation Of The Changes In Society And Economy The Mutation Of Religious Beliefs And Practices The Exploration Of Areas Of Knowledge In Which India Excelled Its Creative Literature Are All Woven Into A Historical Context In This Version The Opening Chapters Explain How The Interpretations Of Early Indian History Have Changed Further Although The Diversity Of Sources And Their Readings Are Well Known Nevertheless This Narrative Provides Fresh Readings And Raises New Questions Romila Thapar Gives A Vivid And Nuanced Picture Of The Rich Mosaic Of Varied Landscapes Languages Kingdoms And Beliefs And The Interaction Between These That Went Into The Making Of A Remarkable Civilization *Historical Dictionary of Ancient India* Kumkum Roy, 2009 India s history and culture is ancient and dynamic spanning back to the beginning of human civilization Beginning with a mysterious culture along the Indus River and in farming communities in the southern lands of

India the history of India is punctuated by constant integration with migrating peoples and with the diverse cultures that surround the country Placed in the center of Asia history in India is a crossroads of cultures from China to Europe as well as the most significant Asian connection with the cultures of Africa The Historical Dictionary of Ancient India provides information ranging from the earliest Paleolithic cultures in the Indian subcontinent to 1000 CE The ancient history of this country is related in this book through a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on rulers bureaucrats ancient societies religion gods and philosophical ideas **From the Origins to AD 1300** Romila Thapar,2004-02 This new book represents a complete rewriting by the author of her A History of India vol 1 Includes bibliographical references p 542 544 and index **Proceedings** Indian History Congress,2007 Tantric Buddhism Frédéric Moronval,2024-12-24 The state of Odisha in eastern India is home to a unique concentration of images of deities and symbols dating from the earlier days of Tantric Buddhism up to the later developments of Vajrayana Could Odisha be Oddiyana the mythical kingdom from which Vajrayana is said to originate This essay on one aspect of the history of Tantric Buddhism in South Asia tries to answer this question within the larger frame of the development of Buddhism in India Going against some received ideas it also exposes the role played by Buddhism in the birth of Hinduism It concludes with an examination of the Buddhist heritage in contemporary Indian religious movements This volume contains excerpts from The Accomplishment of Wisdom by King Indrabodhi as well as the integrality of the Accomplishment of Non Duality by Princess Lakshminkara both translated exclusively from the original Sanskrit texts for the first time *Coastal Shrines and Transnational Maritime Networks across India and Southeast Asia* Himanshu Prabha Ray,2020-07-26 This book breaks new ground by examining trans oceanic connectivity through the perspective of coastal shrines and maritime cultural landscapes across the Bay of Bengal and the South China Sea It covers a period of expanding networks and cross cultural encounters from the 3rd century BCE to the 13th century CE The book examines the distinctiveness of these shrines and highlights their interconnections and their role in social integration in South and Southeast Asia By drawing on data from shipwreck sites the author elaborates on the material and religious intersections and transmissions between cultures across the seas Many of these coastal shrines survived into the colonial period when they came to be admired for their aesthetic value as monuments As nation states of the region became independent these shrines were often inscribed on UNESCO s World Heritage List on account of their Outstanding Universal Values The book argues that in the 21st century there is a need to promote the cultural connectivity of the past as transnational heritage on UNESCO s global platform to preserve and protect our shared heritage The volume will be essential reading for academics and researchers of archaeology anthropology museum and heritage studies history of South and Southeast Asia religious studies cultural studies and Asian studies **Religion and Commodification** Vineeta Sinha,2011-04-13 Sustaining a Hindu universe at an everyday life level requires an extraordinary range of religious specialists and ritual paraphernalia At the level of practice devotional Hinduism is an embodied religion

and grounded in a materiality that makes the presence of specific physical objects which when used in worship also carry immense ritual and symbolic load an indispensable part of its religious practices. Traditionally both services and objects required for worship were provided and produced by occupational communities. The almost sacred connection between caste groups and occupation/profession has been clearly severed in many diasporic locations but importantly in India itself. As such skills and expertise required for producing an array of physical objects in order to support Hindu worship have been taken over by clusters of individuals with no traditional historical connection with caste-related knowledge. Both the transference and disconnect just noted have been crucial for the ultimate commodification of objects used in the act of Hindu worship and the emergence of an analogous commercial industry as a result. These developments condense highly complex processes that need careful conceptual explication, a task that is exciting and carries enormous potential for theoretical reflections in key fields of study. Using the lens of visibility and materiality, Sinha offers insights into the everyday material religious lives of Hindus as they strive to sustain theistic devotional Hinduism in diasporic locations, particularly Singapore, Malaysia, and Tamil Nadu, where religious objects have become commodified.

The Making of Early Kashmir Shonaleeka Kaul, 2018-01-08

What is history? How does a land become a homeland? How are cultural identities formed? The Making of Early Kashmir explores these questions in relation to the birth of Kashmir and the discursive and material practices that shaped it up to the 12th century CE. Reinterpreting the first work of Kashmiri history, Kalhana's Rajatarangini, this book argues that the text was history, not despite being traditional Sanskrit poetry, but because of it. It elaborated a poetics of place, implicating Kashmir's sacred geography, a stringent critique of local politics, and a regional selfhood that transcended the limits of vernacularism. Combined with long and e testimonies

from art material culture script and linguistics this book jettisons the image of an isolated and insular Kashmir It proposes a cultural formation that straddled the Western Himalayas and the Indic plains with Kashmir as the pivot This is the story of the connected histories of the region and the rest of India *Transactions of the Indian History Congress* Indian History Congress,2000
