Purchasing Of Health Care Primary Care Organizations An Evaluation And Guide To Future Policy:

The New Primary Care Dowling, Bernard, Glendinning, Caroline, 2003-10-01 The modernization of the NHS is at the heart of the UK government's policies for public sector services This modernization programme represents the most radical and ambitious restructuring of the NHS since its inception in 1948 The new Primary Care Groups and Trusts PCG Ts are the main organizational mechanism for delivering the modernization agenda and are therefore key to the success or otherwise of these reforms

EBOOK: The New Primary Care Bernard Dowling, Caroline Glendinning, 2003-10-16 The modernization of the NHS is at the heart of the UK government's policies for public sector services This modernization programme represents the most radical and ambitious restructuring of the NHS since its inception in 1948 The new Primary Care Groups and Trusts PCG Ts are the main organizational mechanism for delivering the modernization agenda and are therefore key to the success or otherwise of these reforms To date there has been no comprehensive evaluation of how PCG Ts have been performing in implementing the modernization programme this book fills that important gap in knowledge It provides a strong text of first evidence about the performance of PCG Ts to date this forms the basis for discussions about future success and a benchmark for future research The New Primary Care will be an essential resource for all advanced students of health care as well as academics researchers and policy makers

Towards Managed Primary Care Judith Smith, Nick Goodwin, 2017-03-02 The last decade has witnessed a transformation in the organization and management of primary care In *Towards Managed Primary Care* the authors examine the background and development of Primary Care Groups and Primary Care Trusts PCG Ts in the English NHS The book focuses on the practical experience of developing and managing PCG Ts and on the lessons that can be drawn from this for future policy relating to the management and evaluation of such organizations in the UK and elsewhere The work Provides an overview of the background to the development of PCG Ts in England set within the context of international developments of similar primary care organizations Examines the organization and management of PCG Ts Analyses the impact of PCG Ts on the provision of health services and on the wider health system Explores the challenges inherent in carrying out research into primary care organizations Focuses on the future development and evaluation of primary care organizations With chapter conclusions setting out evidence based lessons for developing and researching primary care organizations this book will be an invaluable guide for all those interested or involved in health policy health services research and primary care organization and management

Healthcare Management Kieran Walshe, Judith Smith, 2011-09-01 A comprehensive research based introduction to healthcare management covering healthcare systems services organisations and management

Values-Based Commissioning of Health and Social Care Christopher Heginbotham, 2012-06-28 The book illustrated with case examples identifies and makes explicit the often diverse values of those involved in healthcare commissioning whether as commissioners providers or users of services It provides a skills base and other support processes for working with differences in values held by those engaged in making decisions

Pricing

Health Services: Transaction Cost Approach Monika Raulinajtys-Grzybek, 2015-05 According to the assumptions of classical economics the price should be set at the intersection of the supply and demand curve under the assumption of full information and rationality of market participants However in health care pricing is often regulated and price is set by the regulatory body Due to the fact that the regulations in terms of pricing include activities that lead to price setting of a good health service costs associated with these activities should be treated as transaction costs The study is the result of the research on the transaction costs of the pricing of health services The primary objective of the study is to identify the transaction costs occurring during the pricing of health services and characterize the factors that affect the level of transaction costs An additional objective of this study is to link the conclusions about the level of transaction costs to the conclusions regarding the accuracy of the cost based pricing in health care The empirical part of the work was carried out based on the analysis of primary and secondary sources Its aim was to present how pricing is organized in seventeen countries selected

The Oxford Handbook of Public Management Ewan Ferlie, Laurence E. Lynn Jr., Christopher Pollitt, 2005-10-27 The public sector continues to play a strategic role across the world The last thirty years have seen major shifts in approaches to public sector management in many countries There is also a fierce debate across academic disciplines about contemporary public administration management some advocate the use of more managerialist approaches while others see managerialism as undermining democratic institutions New roles have arisen such as programme evaluation management consulting and reliance on NGOs and partnerships which require new assessments There is an intensified need for an analysis of contemporary public sector organisations which are changing rapidly before our eyes It is thus time for an authoritative treatment of the major trends in public management embracing both their intended and unintended consequences This Handbook brings together leading international scholars to comment on key current issues The individual chapters include broad overviews in depth explorations of particular thematic areas and analyses of different theoretical perspectives such as political science management sociology and economics The authors have space to develop their distinctive arguments The editors provide an overall concluding chapter The Handbook combines scholarly rigour engaging writing and high policy relevance It will be invaluable to advanced students researchers and reflective public sector practitioners

Shaping health policy Mark Exworthy, Stephen Peckham, Martin Powell, Alison Hann, 2011-10-28 This collection examines the role that case studies play in understanding and explaining British health policy Overall the chapters cover the key health policy literatures in terms of the policy process analytical frameworks and some of the seminal moments of the NHS They have been written by leading health policy researchers in sociology social policy management and organisation studies The collection explores and promotes the case study as an under used method and thereby encourages a more reflective approach to policy learning by practitioners and academics The book will appeal to under graduates post graduates and academics in social policy public management and health services research

The Public Private Mix for

Health Alan Maynard, 2018-12-14 Recent changes to the health service including new structures and ways of working at both local and national levels are having major influences on the working lives of every health visitor and community nurse and on their professional opportunities Understanding these changes is essential and this practical and authoritative handbook addresses them all The authors all have first hand experience of the radical changes underway The clear straightforward format is designed to allow quick access to relevant and up to date information The book is vital reading for every community practitioner

Commissioning Healthcare in England Pauline Allen, Kath Checkland, Valerie Moran, Stephen Peckham, 2020-03-25 This timely book is the most comprehensive account yet of recent commissioning practice in the English NHS and its impact on health services and the healthcare system Drawing on eight years of research expert researchers in the field analyse crucial aspects of commissioning including competition and cooperation the development of Clinical Commissioning Groups and contractual mechanisms They also consider the influence of recent commissioning reforms on public health infrastructure For academics and policy makers in health services research and policy this is a valuable collection of evidence that deepens understanding of how commissioning works

13-03-2024, **Sustainable Development Goals and the Catholic Church** Katarzyna Cichos, Jarosław A. Sobkowiak, Ryszard F. Sadowski, Beata Zbarachewicz, Radosław Zenderowski, Stanisław Dziekoński, 2020-11-29 This book identifies both the consistencies and disparities between Catholic Social Teaching and the United Nations UN Sustainable Development Goals SDGs With Pope Francis Laudato si encyclical Catholicism seems to be engaging more than ever with environmental and developmental concerns However there remains the question of how these theological statements will be put into practice The ongoing involvement of the Catholic Church in social matters makes it a significant potential partner in issues around development Therefore with the use of the comparative method this book brings together authors from multiple disciplines to assess how the political and legal aspects of each of the UN's 17 SDGs are addressed by Catholic Social Teaching Chapters answer the question of how the Catholic Church evaluates the concept of sustainable development as defined by the Agenda 2030 Goals as well as assessing how and if it can contribute to shaping the contemporary concept of global development Examining the potential level of cooperation between the international community and the Catholic Church in the implementation of the Agenda 2030 Goals this volume will be of keen interest to scholars of Catholic Studies Religious Studies and the Sociology of Religion as well as Environmental Studies and Development Studies
