Puritan In Voodoo Land:

A Puritan in Voodoo Land Edna Taft, 2013-10 This is a new release of the original 1938 edition **Taking Haiti** Mary A. Renda, 2004-07-21 The U S invasion of Haiti in July 1915 marked the start of a military occupation that lasted for nineteen years and fed an American fascination with Haiti that flourished even longer Exploring the cultural dimensions of U S contact with Haiti during the occupation and its aftermath Mary Renda shows that what Americans thought and wrote about Haiti during those years contributed in crucial and unexpected ways to an emerging culture of U S imperialism At the heart of this emerging culture Renda argues was American paternalism which saw Haitians as wards of the United States She explores the ways in which diverse Americans including activists intellectuals artists missionaries marines and politicians responded to paternalist constructs shaping new versions of American culture along the way Her analysis draws on a rich record of U S discourses on Haiti including the writings of policymakers the diaries letters songs and memoirs of marines stationed in Haiti and literary works by such writers as Eugene O Neill James Weldon Johnson Langston Hughes and Zora Neale Hurston Pathbreaking and provocative **Taking Haiti** illuminates the complex interplay between culture and acts of violence in the making of the American empire Migration and Vodou Karen E. Richman, 2018-10-02 This book and accompanying compact disc provide a rare excursion in the innovative ways a community of Haitian migrants to South Florida has maintained religious traditions and familial connections It demonstrates how religion ritual and aesthetic practices affect lives on both sides of the Caribbean and it debunks myths of exotic and primitive vodou often spelled voodoo which have long been used against Haitians As Karen Richman shows Haitians at home and in migrant settlements make ingenious use of audio and video tapes to extend the boundaries of their ritual spaces and to reinforce their moral and spiritual anchors to one another The book and CD were produced in collaboration to give the reader intimate access to this new expressive media Sacred songs are recorded on tapes and circulated among the communities Migrants are able to hear not only the performance sounds drumming singing and chatter but also a description as narrators tell of offerings sacrifices prayers and the exchange of possessions Spirits who inhabit the bodies of ritual actors are aware of the recording devices and personally address the absent migrants sometimes warning them of their financial obligations to family members in Haiti The migrants dependence on their home village is dramatically reinforced while their economic independence is restricted Using standard ethnographic methods Richman s work illuminates the connections among social organization power production ritual and aesthetics With its transnational perspective it shows how labor migration has become one of Haiti s chief economic exports A volume in the series **New World Diasporas** edited by Kevin A Yelvington **The South That Wasn't There** Michael Kreyling, 2010-11 Once history and the South dwelt in close proximity Representations of the South in writing and on film assumed everybody knew what had happened in place and time to create the South Today our vision of the South varies and there is less there there than ever before In **The South That Wasn't There** Michael Kreyling explores a series of literary

situations in which memory and history seem to work in odd and problematic ways Lively and frequently confrontational *The South That Wasn't There* offers a thought provoking reexamination of our literary conceptions about the South Blackness in Opera Naomi Andre, Karen M. Bryan, Eric Saylor, 2012-03-01 *Blackness in Opera* critically examines the intersections of race and music in the multifaceted genre of opera A diverse cross section of scholars places well known operas *Porgy and Bess* *Aida* *Treemonisha* alongside lesser known works such as Frederick Delius's *Koanga* William Grant Still's *Blue Steel* and Clarence Cameron White's *Ouanga* to reveal a new historical context for reimagining race and blackness in opera The volume brings a wide ranging theoretically informed interdisciplinary approach to questions about how blackness has been represented in these operas issues surrounding characterization of blacks interpretation of racialized roles by blacks and whites controversies over race in the theatre and the use of blackface and extensions of blackness along the spectrum from grand opera to musical theatre and film In addition to essays by scholars the book also features reflections by renowned American tenor George Shirley Contributors are Naomi Andr Melinda Boyd Gwynne Kuhner Brown Karen M Bryan Melissa J de Graaf Christopher R Gauthier Jennifer McFarlane Harris Gayle Murchison Guthrie P Ramsey Jr Eric Saylor Sarah Schmalenberger Ann Sears George Shirley and Jonathan O Wipplinger *The Political Economy of Disaster* Mats Lundahl, 2013-02-11 Haiti one of the least developed and most vulnerable nations in the Western Hemisphere made the international headlines in January 2010 when an earthquake destroyed the capital Port au Prince More than a year later little reconstruction has taken place in spite of a strong international funding commitment Mats Lundahl has written several seminal works on Haiti and this volume brings together the best of his past work on Haiti's economic and political history along with a comprehensive introduction and two new chapters which bring the story right up to the present day Together the volume provides both historical background and explanation as to why Haiti was so badly affected by the earthquake and to why reconstruction efforts have been ineffective this far Lundahl argues that the two main causes can found in the interaction between the growth of the population and the destruction of the arable soil on the one hand and in the creation of a predatory state during the nineteenth century which still exists to this day This book provides a comprehensive analysis which charts these themes from the time of the arrival of Columbus in the island in 1492 to the present day The book also deals with contemporary market and policy failures as well as the crucial recent elections and considers the path ahead for this impoverished nation This book will be of huge relevance and interest not only to students and researchers in economic history but also for all those working on development economics development studies and American and Caribbean Studies more generally *Sanctuary* Nicole A. Waligora-Davis, 2011-03-01 In 2005 hurricane Katrina and its aftermath starkly revealed the continued racial polarization of America Disproportionately impacted by the ravages of the storm displaced black victims were often characterized by the media as refugees The characterization was wrong headed and yet deeply revealing *Sanctuary* African Americans and Empire traces the long history of this and related terms like alien and foreign a

rhetorical shorthand that has shortchanged black America for over 250 years In tracing the language and politics that have informed debates about African American citizenship Sanctuary in effect illustrates the historical paradox of African American subjecthood while frequently the target of legislation slave law the Black Codes and Jim Crow blacks seldom benefited from the actions of the state Blackness helped to define social cultural and legal aspects of American citizenship in a manner that excluded black people themselves They have been treated rather as foreigners in their home country African American civil rights efforts worked to change this Activists and intellectuals demanded equality but they were often fighting for something even more fundamental the recognition that blacks were in fact human beings As citizenship forced acknowledgement of the humanity of African Americans it thus became a gateway to both civil and human rights Waligora Davis shows how artists like Langston Hughes underscored the power of language to define political realities how critics like W E B Du Bois imagined democratic political strategies and how they and other public figures have used their writing as a forum to challenge the bankruptcy of a social economy in which the value of human life is predicated on race and civil identity

The Transatlantic Zombie Sarah J. Lauro, 2015-07-15 Our most modern monster and perhaps our most American the zombie that is so prevalent in popular culture today has its roots in African soul capture mythologies The Transatlantic Zombie provides a more complete history of the zombie than has ever been told explaining how the myth's migration to the New World was facilitated by the transatlantic slave trade and reveals the real world import of storytelling reminding us of the power of myths and mythmaking and the high stakes of appropriation and homage Beginning with an account of a probable ancestor of the zombie found in the Kongolese and Angolan regions of seventeenth century Africa and ending with a description of the way in contemporary culture new media are used to facilitate zombie themed events Sarah Juliet Lauro plots the zombie's cultural significance through Caribbean literature Haitian folklore and American literature film and the visual arts The zombie entered US consciousness through the American occupation of Haiti the site of an eighteenth century slave rebellion that became a war for independence thus making the figuration of living death inseparable from its resonances with both slavery and rebellion Lauro bridges African mythology and US mainstream culture by articulating the ethical complications of the zombie as a cultural conquest that was rebranded for the American cinema As *The Transatlantic Zombie* shows the zombie is not merely a bogeyman representing the ills of modern society but a battleground over which a cultural war has been fought between the imperial urge to absorb exotic threatening elements and the originary Afro diasporic culture's preservation through a strategy of mythic combat

We Pursue Our Magic Marina Magloire, 2023-08-29 Drawing on the collected archives of distinguished twentieth century Black woman writers such as Lucille Clifton Audre Lorde Toni Cade Bambara Lorraine Hansberry and others Marina Magloire traces a new history of Black feminist thought in relation to Afro diasporic religion Beginning in the 1930s with the pathbreaking ethnographic work of Katherine Dunham and Zora Neale Hurston in Haiti and ending with the present day popularity of Afro diasporic spiritual

practices among Black women she offers an alternative genealogy of Black feminism characterized by its desire to reconnect with ancestrally centered religions like Vodou Magloire reveals the tension discomfort and doubt at the heart of each woman's efforts to connect with ancestral spiritual practices These revered writers are often regarded as unchanging monuments to Black womanhood but Magloire argues that their feminism is rooted less in self empowerment than in a fluid pursuit of community despite the inevitable conflicts wrought by racial capitalism The subjects of this book all model a nuanced Black feminist praxis grounded in the difficult work of community building between Black women across barriers of class culture and time

Calypso Magnolia John Wharton Lowe, 2016-02-08 In this far reaching literary history John Wharton Lowe remakes the map of American culture by revealing the deep persistent connections between the ideas and works produced by writers of the American South and the Caribbean Lowe demonstrates that a tendency to separate literary canons by national and regional boundaries has led critics to ignore deep ties across highly permeable borders Focusing on writers and literatures from the Deep South and Gulf states in relation to places including Mexico Haiti and Cuba Lowe reconfigures the geography of southern literature as encompassing the circumCaribbean a dynamic framework within which to reconsider literary history genre and aesthetics Considering thematic concerns such as race migration forced exile and colonial and postcolonial identity Lowe contends that southern literature and culture have always transcended the physical and political boundaries of the American South Lowe uses cross cultural readings of nineteenth and twentieth century writers including William Faulkner Martin Delany Zora Neale Hurston George Lamming Cristina Garc a douard Glissant and Madison Smartt Bell among many others to make his argument These literary figures Lowe argues help us uncover new ways of thinking about the shared culture of the South and Caribbean while demonstrating that southern literature has roots even farther south than we realize

Isles of Noise Alejandra M. Bronfman, 2016-09-02 In this media history of the Caribbean Alejandra Bronfman traces how technology culture and politics developed in a region that was wired earlier and more widely than many other parts of the Americas Haiti Cuba and Jamaica acquired radio and broadcasting in the early stages of the global expansion of telecommunications technologies Imperial histories helped forge these material connections through which the United States Great Britain and the islands created a virtual laboratory for experiments in audiopolitics and listening practices As radio became an established medium worldwide it burgeoned in the Caribbean because the region was a hub for intense foreign and domestic commercial and military activities Attending to everyday life infrastructure and sounded histories during the waxing of an American empire and the waning of British influence in the Caribbean Bronfman does not allow the notion of empire to stand solely for domination By the time of the Cold War broadcasting had become a ubiquitous phenomenon that rendered sound and voice central to political mobilization in the Caribbean nations throwing off what remained of their imperial tethers
