Adventure Brian Taves, 2014-11-26 This critical biography chronicles both the actual travels and the philosophical meanderings of Talbot Mundy one of the pioneers of the fantasy and adventure genre Less celebrated than his contemporaries Rudyard Kipling and Joseph Conrad Mundy was no less gifted when it came to the literary portrayal of faraway lands He was one of the first Western writers to show an appreciation of Eastern culture and his writing became an outlet for his radical ideas on religion and philosophy At the age of sixteen Mundy left his native England to begin his life of adventure a journey that took him from India to the Middle East to Tibet and finally to America which became his adopted home The American spirit of adventure matched Mundy's own and it was here that he found a true audience for his work This book explores Mundy's oeuvre much of it set in exotic locales through which he himself had traveled and considers both his novels and his lesser known writing as well as his film and radio work Books such as *Rung Ho King of the Khyber Rifles* *Caves of Terror* *Purple Pirate* and *Tros of Samothrace* are discussed and placed within the framework of Mundy's life and philosophy The final chapter evaluates the enduring value of his writings Appendices include a comprehensive list of Mundy's works and a chronological listing by their original publication dates
