**Finding Purple America** Jon Smith, 2013-05-01 The new southern studies has had an uneasy relationship with both American studies and the old southern studies In *Finding Purple America* Jon Smith one of the founders of the new movement locates the source of that unease in the fundamentally antimodern fantasies of both older fields The old southern studies tends to view modernity as a threat to a mystic southern essence a dangerous outside force taking the form of everything from a bulldozer revolution to a national project of forgetting Since the rise of the New Americanists American studies has also imagined itself to be in a permanent crisis mode seeking to affiliate the field and the national essence with youth countercultures that sixties leftists once imagined to be the future Such fantasies Smith argues have resulted in an old southern studies that cannot understand places like Birmingham or Atlanta or cities at all and an American studies that cannot understand red states Most Americans live in neither a comforting premodern Mayberry nor an exciting postmodern Los Angeles but rather in what postcolonialists call alternative modernities and hybrid cultures whose relationships to past and future to stability and change are complex and ambivalent Looking at how the South has played in global metropolitan pop culture since the nineties and at how southern popular and high culture alike have in fact repeatedly embraced urban modernity Smith masterfully weaves together postcolonial theory cultural studies Lacanian psychoanalysis and surprisingly marketing theory to open up the inconveniently in between purple spaces and places that Americanist and southernist fantasies about who we are have so long sought to foreclose

***Red, Blue, and Purple America*** Ruy A. Teixeira, 2009-11-01 As America rushes headlong into a dramatic campaign season it is clear that these consequential contests and the ones that follow will be hugely influenced by recent changes in the nation's makeup *Red Blue and Purple America* provides a clear and nuanced understanding of the geographic and demographic changes that are transforming the United States and how that transformation is reshaping politics for the 2008 elections and

beyond The invaluable result is a detailed picture of current trends as well as a clear eyed assessment of how they will shape American politics and policy during the next two decades An elite group of demographers geographers and political scientists analyze rapidly changing patterns of immigration settlement demography family structure and religion Each analysis describes one major trend and assesses its likely impact on politics for the 2008 elections but for the long term as well The authors then lay out the most likely implications for public policy In doing so they show how these trends have shaped the Red and Blue divisions we are familiar with today and how the developments might break apart those blocs in new and surprising ways

*Evangelicals and Democracy in America* Steven G. Brint, Jean Reith Schroedel, Steven Brint, 2011-09 By the end of the nineteenth century the vast majority of U S churches were evangelical in outlook and practice America's turn toward modernism and embrace of science in the early twentieth century threatened evangelicalism's cultural prominence But as confidence in modern secularism wavered in the 1960s and 1970s evangelicalism had another great awakening The two volumes of *Evangelicals and Democracy in America* trace the development and current role of evangelicalism in American social and political life Volume I focuses on who evangelicals are today how they relate to other groups and what role they play in U S social institutions Part I of Religion and Society examines evangelicals identity and activism Contributor Robert Wuthnow explores the identity built around the centrality of Jesus church and community service and the born again experience Philip Gorski explores the features of American evangelicalism and society that explain the recurring mobilization of conservative Protestants in American history Part II looks at how evangelicals relate to other key groups in American society Individual chapters delve into evangelicals relationship to other conservative religious groups women and gays African Americans and mainline Protestants These chapters show sources of both solidarity and dissension within the traditionalist alliance and the hidden strengths of mainline Protestants moral discourse Part III examines religious conservatives influence on American social institutions outside of politics W Bradford Wilcox David Sikkink Gabriel Rossman and Rogers Smith investigate evangelicals influence on families schools popular culture and the courts respectively What emerges is a picture of American society as a consumer marketplace with a secular legal structure and an arena of pluralistic competition interpreting what constitutes the public good These chapters show that religious conservatives have been shaped by these realities more than they have been able to shape them *Evangelicals and Democracy in America* Volume I is one of the most comprehensive examinations ever of this important current in American life and serves as a corrective to erroneous popular representations These meticulously balanced studies not only clarify the religious and social origins of evangelical mobilization but also detail both the scope and limits of evangelicals influence in our society This volume is the perfect complement to its companion in this landmark series *Evangelicals and Democracy in America* Volume II Religion and Politics

*Coming of Age in Contemporary American Fiction* Kenneth Millard, 2007-04-18 This book explores the ways in which a range of recent American novelists have handled the genre of the coming of age novel or the Bildungsroman Novels of this genre characteristically dramatise the vicissitudes of growing up and the trials and tribulations of young adulthood often presented through depictions of immediate family relationships and other social structures This book considers a variety of different American cultures in terms of race class and gender and a range of contemporary coming of age novels so that aesthetic judgements about the fiction might be made in the context of the social history that fiction represents A series of questions are asked Does the coming of age moment in these novels coincide with an interpretation of the fall of America What kind of national commentary does it therefore facilitate Is the Bildungsroman a quintessentially American genre What can it usefully tell us about contemporary American culture Although the focus is on the conte

**White Diaspora** Catherine Jurca, 2011-11-28 This is the first book to analyze our suburban literary tradition Tracing the suburb's emergence as a crucial setting and subject of the twentieth century American novel Catherine Jurca identifies a decidedly masculine obsession with the suburban home and a preoccupation with its alternative the experience of spiritual and emotional dislocation that she terms homelessness In the process she challenges representations of white suburbia as prostrated by its own privileges In novels as disparate as *Tarzan* written by Tarzana California real estate developer Edgar Rice Burroughs Richard Wright's *Native Son* and recent fiction by John Updike and Richard Ford Jurca finds an emphasis on the suburb under siege a place where the fortunate tend to see themselves as powerless From *Babbitt* to *Rabbit* the suburban novel casts property owners living in communities of their choosing as dispossessed people Material advantages become artifacts of oppression and affluence is fraudulently identified as impoverishment The fantasy of

victimization reimagines white flight as a white diaspora Extending innovative trends in the study of nineteenth century American culture Jurca's analysis suggests that self pity has played a constitutive role in white middle class identity in the twentieth century It breaks new ground in literary history and cultural studies while telling the story of one of our most revered and reviled locations the little suburban house at number one million and ten Volstead Avenue that Edith Wharton warned would ruin American life and letters Hortus Cantabrigiensis, Or, An Accented Catalogue of Indigenous and Exotic Plants Cultivated in the Cambridge Botanic Garden Cambridge Botanic Garden, James Donn, 1831 **America's Secret Service Ace** Nick Carr, 2007-09-01 Nick Carr provides a comprehensive look at this extraordinary forty eight chapter pulp serial complete with character guides plot points and front cover reproductions **The Encyclopedia of Contemporary American Fiction, 2 Volumes** Patrick O'Donnell, Stephen J. queerness and the South Heidi Siegrist explores the boundaries of negotiating place and sexuality by using the concept of Southernness a purposefully fluid idea of the South that extends beyond simple geography eschewing familiar ideas of the Southern canon When the connection between queerness and Southernness becomes apparent Siegrist shows a Southern branded queer deviance can not only change the way we think about literature but can also change Southern queer people s lived experiences Siegrist gathers a bevy of undertheorized writers from Kenan and Truong to Dorothy Allison and even George R R Martin showing that there are many queer Souths Siegrist offers these multiverses as a way to appreciate a place that is often unfriendly even deadly to queer people But as Siegrist argues none of these Souths from the terrestrial to the imaginary would be what they are without the influence and power of queer literature      *Transactions of the Indiana Horticultural Society for the Year ...* Indiana Horticultural Society.
