**Growing Start-Up and Scale-Up Activities into a Successful Business** Marc Lamont,2021-02-18 Today more than ever entrepreneurs create new start ups based on original ideas or technical and scientific developments that often have their origins in an academic environment Very often these entrepreneurs are also young people with little to no business experience coming with their technical or scientific breakthrough ideas out of an academic environment This fact makes it challenging for these start ups to succeed When one is used to an academic environment one finds it challenging to adapt to a business environment And having little to no real business experience only makes the process of adapting more difficult While passion and drive are certainly present in start ups they can be counterproductive if not used in the right way Even the large multinational companies were once small start ups and scale ups That they are big and important today can only be explained by the fact that as start ups and scale ups they did the right things For many years the author has been very close to such situations and has been in charge of leading the growth of new business initiatives His experience shows that business failure is more often the result of lacking the business skills to bring new products to market than a matter of the quality of the new products and developments Growing Start Up and Scale Up Activities into a Successful Business is useful for every entrepreneur founder CEO of a start up or a scale up and by extension every person who has as part of his or her role the task of growing a new business into a successful business This book is even for venture capitalists who want to help the companies in which they have invested Unlike the many books that give advice on how to grow a start up or scale up into a successful business which are very often written by people coming from an academic background or by people who have not themselves experienced the challenges of having to do this on a daily basis Growing Start Up and Scale Up Activities into a Successful Business is based on forty three years of experience with the author actively working on a daily basis to face the challenge of growing new businesses into success What also makes Growing Start Up and Scale Up Activities into a Successful Business unique is that the principles put forward are illustrated by more than forty five anonymized real life cases If you would like consulting advice with a hands on approach from an author who has always had both feet planted firmly in everyday management at the international level for growing new

business initiatives into successful enterprises then Growing Start Up and Scale Up Activities into a Successful Business is the right choice for you

**Impact the Air That You Breathe** J Stuart Collins, 2023-04-28 Everything that lives on this planet of ours has one thing in common It s not wealth or lack of it It s not belief s ability or happiness It s the air that we breathe It s owned by every single one of us and no one has a bigger share than anyone else That is what makes it special and the most precious item in the world Without it we don t exist Breathing air is the first thing we do at the beginning of our life and when we stop breathing it we stop So in between these two important milestones in our lives what do we do with this gift Do you get value from the air that you breathe In the past you may have had glimpses or experiences of who you want to be But for whatever reason it could not be maintained and you slipped back into old habits and responsibilities When you impact the air that you breathe you are going to make a huge impact on your world You are going to move your world to a different dimension of success and well being I believe that your best results are just waiting there to be discovered if you are willing to do the work If you keep taking action and follow the steps it s only a matter of time until you impact the air that you breathe It s up to you your results will happen as quickly as you want them to happen Results don t lie you will always be where you are because of your results
