Levin, 2015-11-17 At a time of profound crises around the world when social justice peace democracy and the environment seem under increasing threat the promise of a world for all seems a viable aspiration for education Ample evidence from many schools today and dating back throughout the last century prove that the purpose of educating young people to develop character compassion purpose and commitment is integral with the mastery of intellectual skills and life competencies Schooling without a doubt can play a monumental part in the development of the personal values people take with them to the world Unfortunately as the saying goes if you don't know where you're going you'll probably get somewhere else Educational policy directions over the last twenty years have veered far away from the important work of educating for humanity This book makes a powerful appeal to revisit educational purpose in light of what is most fundamental and important to human beings everywhere The authors address timely issues such as high stakes testing school choice and privatization of education in looking beyond these measures to new approaches to educational excellence *Democratic Education* Amy Gutmann, 1999-04-18 A groundbreaking classic that lays out and defends a democratic theory of education Who should have the authority to shape the education of citizens in a democracy This is the central question posed by Amy Gutmann in the first book length study of the democratic theory of education The author tackles a wide range of issues from the democratic case against book banning to the role of teachers unions in education as well as the vexed questions of public support for private schools and affirmative action in college admissions

Collier, 2017-07-20 This book first published in 1959 was written to primarily address teachers and students of education as well as those with a general interest in the changing practices of schools Under the terms of the 1944 Education Act which charged Local Authorities with contributing towards the spiritual moral mental and physical development of the community The author examines these ideas whilst examining the state of education in the United Kingdom after the 1944 Education Act **The Social Purposes of Education** Kenneth Gerald Collier, 1965 *The Central Purpose of American Education* Educational Policies Commission, 1961 *Changing Australian Education* Alan Reid, 2020-07-28 Australian education policy for the past 40 years has been heading in the wrong direction and is entirely unsuitable for preparing young people for the 21st century Exaggeration Sadly not For a teacher there is nothing more exhilarating than encouraging young people to realise the power of learning But in our schools today teachers spend so much time preparing their students for high stakes tests gathering data and filling in forms that many of them feel like the life has been squeezed out of their role Schooling has been turned into a market and school leaders are forced to spend precious time and resources competing with other schools Their professional experience is disregarded as policy makers turn to the corporate world and self appointed commentators to determine curriculum and school funding The

outcome Our schooling system is becoming more segregated children from poorer backgrounds are falling behind public schools are starved of funds and good teachers are leaving One of the most highly regarded educational leaders in Australia Alan Reid argues it s time to reconsider the purposes of education the capacities we need for the future and the strategies that will get us there He outlines a new narrative for Australian schooling that is futures focused and prizes flexibility adaptability collaboration and agility with students teachers and school communities at centre stage A provocative and persuasive argument for the necessity of a new narrative for Australian schooling so as to meet better the demonstrable demands of the twenty first century Emeritus Professor Bob Lingard The University of Queensland At the heart of the book is a penetrating critique of neoliberalism and the damaging effects it is having on education and society It should be essential reading for policy makers educators parents and anyone interested in the current state of Australian education Professor Barry Down Murdoch University *Pamphlets and Leaflets of the Liberal Publication Dept* Liberal Publication Department (Great Britain),1907 **The School World**,1901 *Reports of Cases Argued and Adjudged in the Court of Appeals of Maryland* Maryland.
