Ethics and Economics of Assisted Reproduction Maura A. Ryan, 2003-06-11 For those who undergo it infertility treatment is costly time consuming invasive and emotionally and physically arduous yet technology remains the focus of most public discussion of the topic Drawing on concepts from medical ethics feminist theory and Roman Catholic social teaching Maura A Ryan analyzes the economic ethical theological and political dimensions of assisted reproduction Taking seriously the experience of infertility as a crisis of the self the spirit and the body Ryan argues for the place of reproductive technologies within a temperate affordable sustainable and just health care system She contends that only by ceasing to treat assisted reproduction as a consumer product can meaningful questions about medical appropriateness and social responsibility be raised She places infertility treatments within broader commitments to the common good thereby understanding reproductive rights as an inherently social rather than individual issue Arguing for some limits on access to reproductive technology Ryan considers ways to assess the importance of assisted reproduction against other social and medical prerogatives and where to draw the line in promoting fertility Finally Ryan articulates the need for a compassionate spirituality within faith communities that will nurture those who are infertile

A Christian Response to the New Genetics David H. Smith, Cynthia B. Cohen, 2003 Life is a gift that includes powers to be used and celebrated but that doesn t necessarily justify the use of every new power that comes along This volume appeals to both secular and religious readers in the centre of the great debate over our new genetic powers These essays affirm many traditional Christian perspectives and

virtues while also introducing new insights transfer genetic manipulation patenting health insurance and the moral status of embryos They conclude that it is naive to either to reject outright or wholeheartedly embrace the new genetic powers In fact sometimes the best we can expect is to learn how to cope with moral uncertainty *Bioethical and Evolutionary Approaches to Medicine and the Law* W. The Organ Shortage Crisis in America Andrew Michael Flescher, 2018-03-01 Nearly 120 000 people are in need of healthy organs in the United States Every ten minutes a new name is added to the list while on average twenty people die each day waiting for an organ to become available Worse our traditional reliance on cadaveric organ donation is becoming increasingly insufficient and in recent years there has been a decline in the number of living donors as well as in the percentage of living donors relative to overall kidney donors Some transplant surgeons and policy advocates have responded to this shortage by arguing for the legalization of the sale of organs among living donors Andrew Flescher objects to this approach by going beyond concerns traditionally cited about social justice commodification and patient safety and moving squarely onto the terrain of discussing what motivates major and costly acts of human selflessness What is the most efficacious means of attracting prospective living kidney donors Flescher drawing on literature in the fields of moral psychology and economics as well as on scores of interviews with living donors suggests that inculcating a sense of altruism and civic duty is a more effective means of increasing donor participation than the resort to financial incentives He encourages individuals to spend time with patients on dialysis in order to become acquainted with their plight and as an alternative to lump sum payments consider innovative solutions that positively impact living donor participation that do not undermine the spirit of the National Organ Transplant Act of 1984 This book not only re-examines the important debate over whether to allow the sale of organs it is also the first volume in the field to take a close look at alternative solutions to the organ shortage crisis **Readings in Health Care Ethics - Second Edition** Elisabeth (Boetzkes) Gedge, Wilfrid J.

National Bioethics Advisory Commission, 1997 **Cloning Human Beings** United States. National Bioethics Advisory Commission, 1997 **Humanities**, 1991 *Ipse* The Society for the Philosophical Study of Education, 2012-02-08 The essays in this first volume of The Journal for the Philosophical Study of Education follow an unusual flow between the personal and social touching on the experience of teaching and the perspectives of recognized philosophers of education and leading to broader considerations of policy discourse in education and educational administration Thus we go from personal explorations of value and meaning Fontaine to studies of the effects of social policy and sociopolitical concerns on education Howell Loftin to explorations of teaching A Johnston O'Neill to the significance of the works of particular philosophers and or thinkers G Johnston Kim to international educational discourse and administrative practice Friedrich and Lee Bradbury Halbur and Halbur **More Lasting Unions** Stephen Garrard Post, 2000 A powerful reassertion of the social and spiritual significance of marriage and the family Many recent social theorists maintain that marriage and the nuclear family are not particularly important to the fabric of our culture In this powerful refutation grounded in both Christian teaching and social science data Stephen G Post asserts that the bonds of marriage and family are fundamental to our social and spiritual well being Unique in the field for its wide treatment of relevant issues More Lasting Unions also takes up these important topics the special needs of children and of aging parents adoption as an alternative way of family building the perils of family self indulgence and consumerism balancing family commitments and concern for neighbors *Biomedicine and Beatitude* Nicanor Pier Giorgio Austriaco, 2021-06-25 This timely and up to date new edition of Biomedicine and Beatitude features an entirely new chapter on the ethics of bodily modification It is also updated throughout to reflect the pontificate of Pope Francis recent concerns including ethical issues raised by the COVID 19 pandemic and feedback from the many instructors who used the first edition in the classroom

Love and Law in Europe Hanne Petersen, 2018-11-08 First published in 1998 this volume aims to draw attention to an ongoing shift in the perception of law which is now increasingly understood as a cultural and historical phenomenon As other such phenomena like music literature or art it is acknowledged that it is created in a specific environment on which it is dependent for its functioning and interpretation The historical aspects of love in a European and Nordic context are underlined as well as the modern understanding of love and law as incompatible and contrasting concepts Developments within the European Union and especially the relation of the EU to so called third country nationals and immigrants demonstrate that the problematic concerning law and love is not only one of legal philosophy but also of legal and everyday reality The claim that love has been specifically European is discarded as Eurocentrist and the need for more particular emotions and a more pragmatic approach to romantic feelings for a reasonable love is discussed from legal feminist and philosophical perspectives

The Sexual Person Todd A. Salzman, Michael G. Lawler, 2008-05-21 Two principles capture the essence of the official Catholic position on the morality of sexuality first that any human genital act must occur within the framework of heterosexual marriage second each and every marriage act must remain open to the transmission of life In this comprehensive overview of Catholicism and sexuality theologians Todd A Salzman and Michael G Lawler examine and challenge these principles Remaining firmly within the Catholic tradition they contend that the church is being inconsistent in its teaching by adopting a dynamic historically conscious anthropology and worldview on social ethics and the interpretation of scripture while adopting a static classicist anthropology and worldview on sexual ethics While some documents from Vatican II like *Gaudium et spes* the marital act promotes self giving by which spouses enrich each other gave hope for a renewed understanding of sexuality the church has not carried out the full implications of this approach In short say Salzman and Lawler emphasize relationships not acts and recognize Christianity's historically and culturally conditioned understanding of human sexuality The Sexual Person draws historically methodologically and anthropologically from the best of Catholic tradition and provides a context for current theological debates between traditionalists and revisionists regarding marriage cohabitation homosexuality reproductive technologies and what it means to be human This daring and potentially revolutionary book will be sure to provoke constructive dialogue among theologians and between theologians and the Magisterium

Legal and Ethical Issues in Human Reproduction Bonnie Steinbock, 2002 This collection of essays by thirteen leading international scholars in bioethics law philosophy and public health addresses many of the most difficult and intriguing issues surrounding today's advances in reproductive medicine
