Metanoia Adam Ellwanger, 2020-02-25 Western culture is in a moment when wholly new kinds of personal transformations are possible but authentic transformation requires both personal testimony and public recognition In this book Adam Ellwanger takes a distinctly rhetorical approach to analyzing how the personal and the public relate to an individual's transformation and develops a new vocabulary that enables a critical assessment of the concept of authenticity The concept of metanoia is central to this project Charting the history of metanoia from its original use in the classical tradition to its adoption by early Christians as a term for religious conversion Ellwanger shows that metanoia involves a change within a person that results in a truer version of him or herself a change in character or ethos He then applies this theory to our contemporary moment finding that metanoia provides unique insight into modern forms of self transformation Drawing on ancient and medieval sources including Thucydides Plato Paul the Apostle and Augustine as well as contemporary discourses of self transformation such as the public testimonies of Caitlyn Jenner and Rachel Dolezal Ellwanger elucidates the role of language in signifying and authenticating identity Timely and original Ellwanger's study formulates a transhistorical theory of personal transformation that will be of interest to scholars working in social theory philosophy rhetoric and the history of Christianity *Pauline Dogmatics* Douglas A. Campbell, 2020-01-07 The eschatological heart of Paul's gospel in his world and its implications for today Drawing upon thirty years of intense study and reflection on Paul Douglas Campbell offers a distinctive overview of the apostle's thinking that builds on Albert Schweitzer's classic emphasis on the importance for Paul of the resurrection But Campbell learning here from Karl Barth traces through the implications of Christ for Paul's thinking about every other theological topic from revelation and the resurrection through the nature of the church and mission As he does so the conversation broadens to include Stanley Hauerwas in relation to Christian formation and thinkers like Willie Jennings to engage post colonial concerns But the result of this extensive

conversation is a work that in addition to providing a description of Paul's theology also equips readers with what amounts to a Pauline manual for church planting. Good Pauline theology is good practical theology, ecclesiology and missiology which is to say Paul's theology belongs to the church and properly understood causes the church to flourish. In these conversations Campbell pushes through interdisciplinary boundaries to explicate different aspects of Pauline community with notions like network theory and restorative justice. The book concludes by moving to applications of Paul in the modern period to painful questions concerning gender, sexual activity and Jewish inclusion, offering Pauline navigations that are orthodox, inclusive and highly constructive. Beginning with the God revealed in Jesus and in a sense with ourselves, Campbell progresses through Pauline ethics and eschatology, concluding that the challenge for the church is not only to learn about Paul but to follow Jesus as he did.
