Witching Culture Sabina Magliocco,2010-11-24 Taking the reader into the heart of one of the fastest growing religious movements in North America Sabina Magliocco reveals how the disciplines of anthropology and folklore were fundamental to the early development of Neo Paganism and the revival of witchcraft Magliocco examines the roots that this religious movement has in a Western spiritual tradition of mysticism disavowed by the Enlightenment She explores too how modern Pagans and Witches are imaginatively reclaiming discarded practices and beliefs to create religions more in keeping with their personal experience of the world as sacred and filled with meaning Neo Pagan religions focus on experience rather than belief and many contemporary practitioners have had mystical experiences They seek a context that normalizes them and creates in them new spiritual dimensions that involve change in ordinary consciousness Magliocco analyzes magical practices and

rituals of Neo Paganism as art forms that reanimate the cosmos and stimulate the imagination of its practitioners She discusses rituals that are put together using materials from a variety of cultural and historical sources and examines the cultural politics surrounding the movement how the Neo Pagan movement creates identity by contrasting itself against the dominant culture and how it can be understood in the context of early twenty first century identity politics *Witching Culture* is the first ethnography of this religious movement to focus specifically on the role of anthropology and folklore in its formation on experiences that are central to its practice and on what it reveals about identity and belief in twenty first century North America

Berger, 2011-03-19 Magic always part of the occult underground in North America has experienced a resurgence since the 1960s Although most contemporary magical religions have come from abroad they have found fertile ground in which to develop in North America Who are today s believers in Witchcraft and how do they worship Alternative spiritual paths have increased the ranks of followers dramatically particularly among well educated middle class individuals *Witchcraft and Magic* conveys the richness of magical religious experiences found in today s culture covering the continent of North America and the Caribbean These original essays survey current and historical issues pertinent to religions that incorporate magical or occult beliefs and practices and they examine contemporary responses to these religions The relationship between Witchcraft and Neopaganism is explored as is their intersection with established groups practicing goddess worship Recent years have seen the growth in New Age magic and Afro Caribbean religions and these developments are also addressed in this volume All the religions covered offer

adherents an alternative worldview and rituals that are aimed at helping individuals redefine themselves and make their interactions with the environment more empowered Many modern occult religions share an absence of dogma or central authority to determine orthodoxy and have become a contemporary experience embracing modern concerns like feminism environmentalism civil rights and gay rights Afro Caribbean religions such as Santería Palo and Curanderismo which do have a more developed dogma and authority structure offer their followers a religion steeped in African and Hispanic traditions Responses to the growth of magical religions have varied from acceptance to an unfounded concern about the growth of a satanic underground And as magical religions have flourished increased interest has resulted in a growing commercialization with its threat of trivialization

The Nature of Magic Susan Greenwood, 2020-06-03 This book examines how and why practitioners of nature religion Western witches druids shamans seek to relate spiritually with nature through magical consciousness Magic and consciousness are concepts that are often fraught with prejudice and ambiguity respectively Greenwood develops a new theory of magical consciousness by arguing that magic ultimately has more to do with the workings of the human mind in terms of an expanded awareness than with socio cultural explanations She combines her own subjective insights gained from magical practice with practitioners in depth accounts and sustained academic theory on the process of magic She also tracks magical consciousness in philosophy myth folklore story telling and the hi tech discourse of postmodernity and asks important questions concerning nature religion's environmental credentials such as whether it is inherently ecological as many of its practitioners claim
