

A heart-shaped piece of light-colored wood, possibly driftwood, is the central focus. It is placed on a dark brown wooden surface with horizontal planks. A small white daisy flower is attached to the right side of the heart. A small white rectangular tag is pinned to the center of the heart, featuring a black quote. The lighting is soft, creating a warm and romantic atmosphere.

Recognition and Ambivalence Heikki Ikäheimo, Kristina Lepold, Titus Stahl, 2021-07-06 Recognition is one of the most debated concepts in contemporary social and political thought Its proponents such as Axel Honneth hold that to be recognized by others is a basic human need that is central to forming an identity and the denial of recognition deprives individuals and communities of something essential for their flourishing Yet critics including Judith Butler have questioned whether recognition is implicated in structures of domination arguing that the desire to be recognized can motivate individuals to accept their assigned place in the social order by conforming to oppressive norms or obeying repressive institutions Is there a way to break this impasse Recognition and Ambivalence brings together leading scholars in social and political philosophy to develop new perspectives on recognition and its role in social life It begins with a debate between Honneth and Butler the first sustained engagement between these two major thinkers on this subject Contributions from both proponents and critics of theories of recognition further reflect upon and clarify the problems and challenges involved in theorizing the concept and its normative desirability Together they explore different routes toward a critical theory of recognition departing from wholly positive or negative views to ask whether it is an essentially ambivalent phenomenon Featuring original systematic work in the philosophy of recognition this book also provides a useful orientation to the key debates on this important topic

My Love Is Alive Rev Dempsey Harshaw, 2012-08-31 My Love Is Alive is a love story of Consciousness to Itself It portrays the Idea of Consciousness for the sole purpose of illuminating Consciousness to its Self Imagine your shadow on the ground in front of you Who you really are Infinite Consciousness is the One watching the shadow My Love Is Alive is the process of accepting embracing and living this reality in and as your life The result is an outpouring of love for yourself and your experience The ideas circle in a repetitive dance of discovery as the concepts sink deeper and deeper into the readers understanding There is a powerful and undeniable message of life that has never been so fully unveiled Using Biblical references the author repeatedly demonstrates the true nature of our essence The text is thought provoking at the least and utterly transformative in its fullest meaning My Love Is Alive is a doorway only you can walk through You will transition from the experience of believing that you are one of many individuals that make up the whole to embracing the experience that you truly are The One Allow yourself to go through this process of My Love Is Alive with expectancy

Kojve's intellectual origins and his role in the emigration of Russian philosophy into the West in the early twentieth century Trevor Wilson illustrates how Kojve at once adversarial to the insular communities of migr philosophy and yet dependent on their networks and ideas for professional success navigated the specters of the Russian tradition in pursuit of an autonomous self definition as a philosopher and intellectual Alexandre Kojve and the Specters of Russian Philosophy analyzes the philosopher's complicated relationship to the interwar diaspora and the complex role played by the Russian tradition in his intellectual formation Wilson examines Kojve's early writings in the migr press on Russian religious philosophy Soviet politics and Eurasianism and argues for their enduring relevance for understanding Kojve in his mature period Crucially he contextualizes Kojve's famed seminars on Hegel and examines how Kojve's thought became embedded in the politics of the Cold War Based on newly transcribed and translated archival material he highlights a previously unacknowledged transnational exchange of ideas between Eastern and Western European intellectuals and shows how it played a pivotal role in twentieth century intellectual history and its legacy in the twenty first **Axel Honneth** Christopher Zurn, 2015-04-22

The Meaning of Conservatism Roger Scruton, 1984-11-08 **Philosophy and Working-through the Past** Jeffrey M. Jackson, 2013-12-16 At certain moments in his political essays Kant conceives of socio historical emancipation as a process of working ourselves out of pathological legacies suggesting that emancipation would involve a process of working through our

affective attachments to entrenched regressive social arrangements Jackson shows how Freud's analyses of melancholia mania and the work of mourning can contribute to an understanding of key dimensions of such pathological social fixations as well as the possibility of working through the past This book argues that bringing Freud's provocative analyses of loss to bear on particular philosophical treatments of history leads to a more coherent psychoanalytically informed understanding of history Although Freud does not himself integrate these themes into a theory of socio political emancipation his thinking nonetheless can be read as contributing to such a theory To develop this idea the book draws on thinkers such as Karl Marx Theodor Adorno Edmund Husserl Martin Heidegger Axel Honneth and Judith Butler The book engages students and scholars of contemporary continental philosophy by arguing for connections between psychoanalysis philosophy and critical theory

Why Love Hurts Eva Illouz, 2013-05-20 Few of us have been spared the agonies of intimate relationships They come in many shapes loving a man or a woman who will not commit to us being heartbroken when we are abandoned by a lover engaging in Sisyphean internet searches coming back lonely from bars parties or blind dates feeling bored in a relationship that is so much less than we had envisaged these are only some of the ways in which the search for love is a difficult and often painful experience Despite the widespread and almost collective character of these experiences our culture insists they are the result of faulty or insufficiently mature psyches For many the Freudian idea that the family designs the pattern of an individual's erotic career has been the main explanation for why and how we fail to find or sustain love Psychoanalysis and popular psychology have succeeded spectacularly in convincing us that individuals bear responsibility for the misery of their romantic and erotic lives The purpose of this book is to change our way of thinking about what is wrong in modern relationships The problem is not dysfunctional childhoods or insufficiently self-aware psyches but rather the institutional forces shaping how we love The argument of this book is that the modern romantic experience is shaped by a fundamental transformation in the ecology and architecture of romantic choice The samples from which men and women choose a partner the modes of evaluating prospective partners the very importance of choice and autonomy and what people imagine to be the spectrum of their choices all these aspects of choice have transformed the very core of the will how we want a partner the sense of worth bestowed by relationships and the organization of desire This book does to love what Marx did to commodities it shows that it is shaped by social relations and institutions and that it circulates in a marketplace of unequal actors

Personal Construct Psychology at 60 Peter Cummins, Harry Procter, David Winter, 2017-08-21 The 60th anniversary of the publication of George Kelly's *The Psychology of Personal Constructs* was marked in 2015 by the 21st International Congress on Personal Construct Psychology His two volume work set out personal construct theory as a radical new approach to psychology Although Kelly was a clinical psychologist personal construct psychology has had an extraordinarily broad range of influence and application extending beyond the clinical setting to include areas as diverse as education organizational and management development social psychology the arts law and politics It presaged constructivist developments in many spheres of knowledge and its innovative research methods have been used in a vast number of studies focussed on the exploration of personal and interpersonal meaning The 21st International Congress was held in the UK at the University of Hertfordshire forty years after the first such congress This volume presents contributions by many of the Congress's delegates whose chapters reflect the diversity of contemporary applications of personal construct psychology and

the continuing relevance and vitality of Kelly's ideas and methods Critical theory and social pathology Neal
Harris, 2022-11-29 In the neoliberal world of the twenty first century the progressive academy urgently needs a vehicle for
normative social research Critical theory once answered this call but today its programme is in crisis The pathologies of
recognition approach popular among contemporary critical theorists aids neoliberalism rather than challenging it in part
because it is unable to grasp the structural nature of power To offer an alternative this book returns to the work of Erich
Fromm and Herbert Marcuse using it as the basis for a revived social theoretical foundation As the first generation of
critical theorists knew thought itself can be reified our imaginations debased and our desires artificially induced We need to
think beyond recognition and embrace a more potent and aggressive form of social critique true to the founding spirit of the
Frankfurt School
