Recollections Of An Egyptologist:

Recollections of an Egyptologist Dows Dunham,1972 Wonderful Things: A History of Egyptology, Volume 3 Jason Thompson,2018-10-16 The discovery of ancient Egypt and the development of Egyptology are momentous events in intellectual and cultural history The history of Egyptology is the story of the people famous and obscure who constructed the picture of ancient Egypt that we have today recovered the Egyptian past while inventing it anew and made a lost civilization comprehensible to generations of enchanted readers and viewers thousands of years later This the third of a three volume history of Egyptology follows the progress of the discipline from the trauma of the First World War through the vicissitudes of the twentieth century and into Egyptology s new horizons at the beginning of the twenty first century Wonderful Things affirms that the history of ancient Egypt has proved continually fascinating but it also demonstrates that the history of Egyptology is no less so Only by understanding how Egyptology has developed can we truly understand the Egyptian past

mummification Historical Dictionary of Ancient and Medieval Nubia Richard A. Lobban, 2003-12-09 The Historical Dictionary of Ancient and Medieval Nubia covers the period from the Paleolithic all the periods of ancient Nubia Predynastic Kerma Dynasty XXV Napatan Meroitic Post Meroitic and to the end of medieval Christianity in Nubia Sudan This resource focuses on Nubian history through a Nubian perspective rather than on the more common Egypto centrism perspective and the coverage is based on the latest and best archaeological and epigraphic evidence Newly created maps of the general area and its specific regions and place names and a photospread showing important related features of the region are included A detailed chronology provides a timeline of historical events and an introductory narrative shapes the overall history and leads to the main body of the work in the form of a cross referenced dictionary The descriptive entries cover the main features of the region in the various periods that are key not only to Nubian events but also to the important interactions they had with Egypt to the north Nine appendices and an extensive bibliography conclude this work Lobban has been teaching Nubian studies in undergraduate classrooms for thirty years and this book is a product of his hands on experiences as well as extensive anthropological fieldwork and travel in Sudanese and Egyptian Nubia Historical Dictionary of Medieval Christian Nubia Richard A. Lobban Jr., 2020-10-20 Medieval Christian Nubia is often a neglected period of medieval African history Because meaning is determined largely by context this work traces the Greco Roman Meroitic and Jewish precursors The regional historical and theological schisms within Christianity are also a highlight The dynamics of the three Nubian kingdoms of Nobatia Mukurra and Alwa are the centerpiece of this book that covers mural arts architecture and the names of the leading kings and bishops Another strength of the book is the analysis of the 700 year baqt peace treaty between Christian Nubia and Islamic Egypt this is considered to be the longest lasting treaty in diplomatic history The complex transition from Christianity to Islam in the 14th century is analyzed in great personal political and military detail Historical Dictionary of Medieval Christian Nubia contains a chronology an introduction and an extensive bibliography The dictionary section has over 200 cross referenced entries on politics economy foreign relations religion and culture of the medieval Nubians This book is an excellent resource for students researchers and anyone wanting to know more about Medieval Christian Nubia **Recollections of a Busy Life** Sir William Bower Forwood, 1910 *Greek and Roman Sculpture in America* Cornelius Clarkson Vermeule, 1981 *Historical Dictionary of Ancient Nubia* Richard A. Lobban Jr., 2021-04-10 This new book descends from a former combined reference book on Ancient and Medieval Nubia but now expands and focuses primarily on Prehistoric and Ancient times It contextualizes the foundational roots of human evolution in the Paleolithic and Mesolithic stone ages and on to the Neolithic revolution built on farming and livestock Meanwhile Kerma was the most ancient African states and their relationship with dynastic Egypt Precisely ancient Kerma a was a serious political economic and military rival to Old and Middle Kingdoms of Egypt But in the New Kingdom the balance of regional forces was dramatically changed with Egyptians defeating Kerma and occupying and colonizing Kush Nubia for 500 years In the 11th

century BCE the political unity of Egypt withered away and after recovering from foreign exploitation Nubians began to reconstitute a small state at Kurru with renewed pyramid building and then finding no Egyptian resistance these Nubians kings advanced on Egyptian Nubia and then on to Upper Egypt Finally Nubians were able to take over all of Egypt as the pharaohs of century long Dynasty XXV This so called Ethiopian dynasty had the famed pharaohs of Piankhy Shabaka Shabataka Taharka and Tanutamun ruling for various terms three of who are mentioned in the Biblical Old Testament Even when Nubians were expelled from Egypt by foreign Assyrian invaders they retreated to Napata to carry on their ancient state for three more independent centuries as Egyptian remained conquered by various foreigners for 2 500 years Most notable of these foreign conquerors of Egypt were the Greeks Ptolemies and the Roman who arrived and polytheists and left as Christians During this Greco Roman period in Egypt Nubians strategically withdrew still further south to the Kingdom of Mero from the 4th century BCE to the 4th century CE Meroe is also covered in great detail as it was famed for many regnant queens a unique and undeciphered writing system iron production and important monumental works including more pyramids than found in Egypt Yes smaller and later but many more pyramids that are still standing in several World Heritage sites in Nubia After Mero began a long decline it was finally vulnerable to attack from Christian Axum on the 4th century CE Two murky centuries of regional rule known as the X Group were to follow but by the 6th century Nubians recreated three Christian states that are covered in detail in the following Historical Dictionary of Medieval Christian Nubia and the Historical Dictionary of Sudan for Islamic and modern times

Magician of the Modern Eugene R. Gaddis, 2011-11-09 The story of Chick Austin is the story in Virgil Thomson's words of a whole cultural movement in one man Becoming director of Hartford's Wadsworth Atheneum at the age of twenty six Austin immediately set about to introduce modern art to America and to transform this conservative insurance capital into a cultural mecca that would become the talk of the art world during the yeasty years between the two world wars The first in the United States to mount a major Picasso retrospective Austin was soon acquiring works by Dal Mondrian Mir Balthus Max Ernst and Alexander Calder In the museum's new theater which he designed he staged the premiere of the revolutionary Gertrude Stein and Virgil Thomson opera Four Saints in Three Acts with an all black cast At Lincoln Kirstein's instigation he brought Balanchine to America And he embraced all the new art forms making film photography architecture and

contemporary music part of the life of his museum For his own family he built a Palladian villa now a recently restored national historic landmark filling it with the baroque and the Bauhaus and inviting all the locals in to see how it felt to be modern Austin's instinct for quality proved infallible Whether acquiring a matchless Caravaggio or a startling Dal he balanced the old masters with the modern Mounting provocative shows that linked the past to the present he created dramatic installations and he threw himself into everything hanging fabrics creating backdrops stitching up costumes He loved to teach to paint to act to give lavish costume balls and to dazzle audiences of all ages with his performances as a magician the Great Osram Brilliant at using his magician's sleight of hand he could manipulate his conservative trustees to get what he wanted but only up to a point One more purchase of an incomprehensible abstract canvas one outrageous party too many one more shocking theatrical role eventually led to a crisis Never one to be idle for long Austin left Hartford and took on a new challenge to make an artistic triumph of the pink and white palace in Sarasota Florida known as the John and Mable Ringling Museum of Art which housed the circus king's moldering but magnificent collection Here is the colorful life of Chick Austin and as we relish his audacious career the risks he took the successes he enjoyed along with the inevitable setbacks we understand what a far reaching influence he had on the way Americans look at and think about art Not only a brilliant portrait of an extraordinary man this wonderfully American story gives us a fascinating behind the scenes glimpse into the art world as it was then and in many ways still is today *Walking Among Pharaohs* Peter Der Manuelian, 2023

Pyramids with hidden burial chambers Colossal royal statues and minuscule gold jewelry Decorated tomb chapels temples settlements fortresses ceramics furniture stone vessels and hieroglyphic inscriptions everywhere This is the legacy of forty three years of breathtakingly successful excavations at twenty three different archaeological sites in Egypt and Sudan ancient Nubia George Reisner 1867 1942 discovered all this and more during a remarkable career that revolutionized archaeological method in both the Old World and the New Leading the Harvard University Boston Museum of Fine Arts Expedition Reisner put American and particularly Boston Egyptology on the world stage His uniquely American success story unfolded despite British control of Egyptian politics French control of Egyptian antiquities and an Egyptian yearning for independence all while his Egyptian teams achieved the fieldwork results and mastered the arts of recording and documentation Reisner's lifespan covers the birth of modern archaeology aspects of colonialism racism and nationalism the history of Harvard and of the Museum of Fine Arts Boston MFA and the issues of repatriation and cultural patrimony long before they became the hot topics they are today This new biography gathers unpublished documents from all over the world to present the untold story of one of the founding fathers of excavation methodology and restore his place in the history of world archaeology while not overlooking some of his cultural interpretations that we can easily reject today **Contesting Antiquity in Egypt** Donald Malcolm Reid, 2019-09-03 The history of the struggles for control over Egypt's antiquities and their repercussions during a period of intense national ferment The sensational discovery in 1922 of Tutankhamun's tomb

close on the heels of Britain's declaration of Egyptian independence accelerated the growth in Egypt of both Egyptology as a formal discipline and of pharaonism popular interest in ancient Egypt as an inspiration in the struggle for full independence. Emphasizing the three decades from 1922 until Nasser's revolution in 1952 this compelling follow up to *Whose Pharaohs* looks at the ways in which Egypt developed its own archaeologies Islamic Coptic and Greco Roman as well as the more dominant ancient Egyptian. Each of these four archaeologies had given birth to and grown up around a major antiquities museum in Egypt. Later Cairo Alexandria and Ain Shams universities joined in shaping these fields. *Contesting Antiquity in Egypt* brings all four disciplines as well as the closely related history of tourism together in a single engaging framework. Throughout this semi colonial era the British fought a prolonged rearguard action to retain control of the country while the French continued to dominate the Antiquities Service as they had since 1858. Traditional accounts highlight the role of European and American archaeologists in discovering and interpreting Egypt's long past. Donald Reid redresses the balance by also paying close attention to the lives and careers of often neglected Egyptian specialists. He draws attention not only to the contests between westerners and Egyptians over the control of antiquities but also to passionate debates among Egyptians themselves over pharaonism in relation to Islam and Arabism during a critical period of nascent nationalism. Drawing on rich archival and published sources extensive interviews and material objects ranging from statues and murals to photographs and postage stamps this comprehensive study by one of the leading scholars in the field will make fascinating reading for scholars and students of Middle East history archaeology politics and museum and heritage studies as well as for the interested lay reader.

Studien Zum Antiken Sudan Steffen Wenig, 1999 **Flinders Petrie** Margaret S. Drower, 1995-06-01

Flinders Petrie has been called the Father of Modern Egyptology and indeed he is one of the pioneers of modern archaeological methods. This fascinating biography of Petrie was first published to high acclaim in England in 1985. Margaret S. Drower, a student of Petrie's in the early 1930s, traces his life from his boyhood when he was already a budding scholar through his stunning career in the deserts of Egypt to his death in Jerusalem at the age of eighty nine. Drower combines her first hand knowledge with Petrie's own voluminous personal and professional diaries to forge a lively account of this influential and sometimes controversial figure. Drower presents Petrie as he was: an enthusiastic eccentric diligently plunging into the uncharted past of ancient Egypt. She tells not only of his spectacular finds including the tombs of the first Pharaohs, the earliest alphabetic script, a Homer manuscript and a collection of painted portraits on mummy cases but also of Petrie's important contributions to the science of modern archaeology such as orderly record keeping of the progress of a dig and the use of pottery sherds in historical dating. Petrie's careful academic methods often pitted him against such rival archaeologists as Amelineau who boasted he had smashed the stone jars he could not carry away to be sold and Maspero and Naville who mangled a pyramid at El Kula they had vainly tried to break into.

[The Twilight of Ancient Egypt](#) Karol Myśliwiec, 2000

Karol Myśliwiec surveys a turbulent time in Ancient Egyptian culture and history the eight hundred years

between the eleventh century B C E and the conquest of Egypt by Alexander the Great in 332 B C E after which Egypt became part of the Hellenistic world It was a time when Libyans Kushites Persians and Greeks ascended to the throne more frequently than did indigenous kings The history of this phase of pharaonic Egypt marked by rapid changes in rule has been relatively neglected until now Egypt had become increasingly involved in the affairs of its Near Eastern neighbors Assyria Babylon and Persia and of the Mediterranean world These many cultures greatly enriched and influenced pharaonic traditions At the same time Egyptian civilization extended far beyond the borders of Egypt itself One of the most important cultural products of this period is the Old Testament called here an inestimable source of information on daily life in pharaonic Egypt Mysliwiec perceives in recent archaeological discoveries clear evidence that the First Millennium B C E was witness to more than a slow progressive dying out of the pharaonic past new and creative elements profoundly altered the culture of Ancient Egypt Originally published in Polish The Twilight of Ancient Egypt appeared in 1998 in a German edition The Cornell edition has been updated by the author and also contains previously unpublished photographs of recently discovered treasures
