**Reconceptualising Governance**, 1997 *The Ombudsman, Good Governance, and the International Human Rights System* Linda C. Reif, 2004-01-01 In addition to the ombudsman community this book will be of interest to practitioners academics students and others in the fields of international law international and domestic human rights law comparative law political science and public administration

**Migration and Inequality** Tanja Bastia, 2013-03-05 The migration development nexus has emerged as an important area of both research and policy over the last ten years However most of the interest has focused on the potential that migration holds for poverty alleviation Relatively little attention has been paid to the relationship between migration and inequality particularly on inequality as a consequence of migration This is unfortunate given that inequality is emerging as an important area of inquiry within development studies This edited collection explores the relationship between migration and inequality in Africa Asia and Latin America by taking into account economic and social inequalities While the focus on inequality as opposed to poverty is in itself original the book offers additional points of interest First it combines chapters on internal and international migration thereby challenging the current focus in the migration literature that focuses almost exclusively on cross border migration Internal migration greatly outnumbers cross border moves Yet policy makers as well as most studies focus on cross border international migration We are only just beginning to unravel the relationship between internal and cross border migration Second the theme of inequality complements the existing focus in the migration development nexus on issues of poverty Third the chapters focus on both economic and social inequalities often combining an analysis of different types of inequalities The book also covers governance and migrants rights gender and intersectionality and health The chapters in this edited volume make an original contribution to debates on the migration development nexus as well as the literature on inequality which often tends to focus on economic measurements of inequality at the expense of including a thorough analysis of social inequality

*The United Nations Democracy Agenda* Kirsten Haack, 2013-07-19 The United Nations Democracy Agenda is a critical conceptual historical analysis of democracy at the United Nations detailed in four visions of democracy civilization elections governance and developmental democracy I know it when I see it were the famous words of US Supreme Court Justice Potter Stewart on defining obscenity It is with the same conviction and un certainty with which liberal peacebuilders and democracy promoters have used democracy to achieve both the immediate goals of peacekeeping and the broader global mission of the United Nations Today democracy may have gained an international dimension yet its success as an organizational practice depends on how democracy has been defined Drawing on political theory and democratization scholarship The United Nations Democracy Agenda questions the meaning of this well known idea The book analyses the way in which the UN through its Secretary General relevant agencies and organizational practices have thought about conceptualized and used democracy The United Nations Democracy Agenda shows that while the idea of democracy s civilizing nature has played a prominent

part in its use by the UN an early focus on sovereignty and self determination delayed the emergence of the democracy agenda until the 1990s Today a comprehensive democracy agenda incorporates not only elections but a broad range of liberal democratic institutions Despite this the democracy agenda is at an impasse both practically and philosophically The United Nations Democracy Agenda questions whether an extension of the UN democracy agenda to include developmental democracy is feasible

**Political Dynamics of Grassroots Democracy in Vietnam** Hai Hong Nguyen,2017-07-20 In Political Dynamics of Grassroots Democracy in Vietnam Hai Hong Nguyen investigates the correlation between independent variables and grassroots democracy to demonstrate that grassroots democracy has created a mutually empowering mechanism for both the party state and the peasantry

**The Information Game in Democracy** Dipankar Sinha,2018-03-07 This book examines democracy and governance from the unconventional and largely under researched vantage point of information It looks at the exclusionary informational dynamics in democracy and analyses the role of information capitalism new technology virtual networks cyberspace and media While emphasizing the foundational value of information as the source code of modern societies the book explains how it is strategically maneuvered in technologies of governance in so called established and credible democracies It studies the neutralization and subversion as well as the complex nuanced and multidimensional act of othering of people who are supposed to be the repository of power in democracy and in whose interest the business of governance is expected to be conducted The work highlights the challenges of technocratic interpretations stunted public policy communication hyped information society cooption through the state of the art capitalism rhetoric of virtual networks and the often unilateral agenda of mainstream media A major intervention in understanding the nature of contemporary democracy and polity this volume will be of great interest to scholars and researchers of politics media political communication and technology studies

and coherent package of democratization      **Chinese Hydropower Development in Africa and Asia** Giuseppina Siciliano, Frauke Urban, 2017-08-17 In recent years both Chinese overseas investment and hydropower development have been topics of increasing interest and research with Chinese actors acting as financiers developers builders and sub contractors Chinese Hydropower Development in Africa and Asia explores the governance and socio economic implications of large Chinese dams development in low and middle income countries in Asia and Africa and asks how these big infrastructure projects promote sustainable local and national development in the recipient countries The book first discusses general aspects of Chinese involvement in hydropower development in Africa and Asia looking at political and economic aspects before presenting selected case studies from large dams built and financed by Chinese actors in Asia and Africa Based on these results the book further makes recommendations on how to improve the planning implementation and governance of large dams for sustainable global dam building This volume is a valuable resource for academics researchers and scholars in the areas of Development Environmental Studies Politics and Economics      Citizen Participation and Democratic Governance, in Our Hands Rajesh Tandon, Mohini Kak, 2007 Contributed articles with special reference to India

**Governance and Public Sector Reform in Asia** Anthony Cheung, Ian Scott, 2003-08-29 Based on new field research this book assesses the current state of governance and public sector reforms in eleven Asian countries and jurisdictions especially in the wake of the recent regional financial crisis that seriously affected some of them It analyses reform efforts comparatively against a backdrop of governance problems and seeks to establish whether these efforts represent a substantive shift in attitudes towards reform or whether they serve simply to reinforce existing practices The authors explore a number of important themes that are central to governance and public sector reform issues These include the role of the state the success or failure of organizational reforms corruption the applicability of the new public management model in the Asian context and the governance values and reform models promoted by regional and international agencies      **Assessing University Governance and Policies in Relation to the COVID-19 Pandemic** Alaali, Mansoor A., 2021-09-10 In response to the COVID 19 pandemic universities around the globe have taken numerous extraordinary measures and implemented many changes to their strategic operational and academic activities Currently there is a transformation taking place from the emergency decision making in the early stages of the pandemic towards reflection and resolution on how the past months can shape governance and strategy Higher education institutions have been facing challenges with the alignment of their university governance for their strategic and operational plans Presently university leaders have prioritized risk management and financial management over all else Unfortunately due to these priorities university responses to the pandemic took the top down approach of management rejecting the shared governance structures and collegial practices of the institutions The pandemic has accelerated the openness to change by creating an emergency or steering response team led by university presidents and provosts with sub teams focusing on operations and other academic advisory groups working together to deal

with the fast rising scenarios The consequence is a clear flow of information and strong communication across the institution which sequentially builds on mechanisms to respond to the secondary effects of the pandemic Moreover higher education institutions are continuously facing challenges with their strategic alignment of business objectives in order to have a diverse educational system in response to the pandemic Assessing University Governance and Policies in Relation to the COVID 19 Pandemic presents the latest research and studies investigating information on university governance and adapting previous existing and proposed models for the current pandemic This book is comprised of chapters contributed by various leading international authors to discuss and analyze all aspects of university governance in relation to their impact on strategies in finance sustainability academic issues research faculty and students leadership campus employment and recruitments and more This is an essential text for university presidents strategic planning authorities in universities college deans and academic department chairpersons government authorities and policymakers researchers students and academicians

**Governing Biobanks** Jane Kaye,Susan Gibbons,Catherine Heeney,Andrew Smart,2012-02-03 Biobanks are proliferating rapidly worldwide because they are powerful tools and organisational structures for undertaking medical research By linking samples to data on the health of individuals it is anticipated that biobanks will be used to explore the relationship between genes environment and lifestyle for many diseases as well as the potential of individually tailored drug treatments based on genetic predisposition However they also raise considerable challenges for existing legal frameworks and research governance structures This book critically examines the current governance structures in place for biobanks in England and Wales It shows that the technologies techniques and practices involved in biobanking do not always conform neatly to existing legal principles and frameworks that apply to other areas of medical research Using a socio legal approach including interview data gathered from the scientific community this book provides unique insights and makes recommendations about appropriate governance mechanisms for biobanking in the future It also explores the issues around the secondary use of information such as consent and how to protect privacy when biobanks are accessed by a number of different third parties These issues have relevance both within England and Wales and to a wide international audience as well as for other areas where large datasets are used

Urban Governance Voice and Poverty in the Developing World Nick Devas, 2014-10-14 Poverty and governance are both issues high on the agenda of international agencies and governments in the South With urban areas accounting for a steadily growing share of the world s poor people an international team of researchers focused their attention on the hitherto little studied relationship between urban governance and urban poverty In their timely and in depth examination of ten cities in Africa Asia and Latin America they demonstrate that in many countries the global trends towards decentralization and democratization offer new opportunities for the poor to have an influence on the decisions that affect them They also show how that influence depends on the nature of those democratic arrangements and decision making processes at the local level as well as on the ability of the poor to organize The study involved interviews with key actors within and outside city governments discussions with poverty groups community organizations and non governmental organizations NGOs as well as analyses of data on poverty services and finance This book presents insights conclusions and practical examples that are of relevance for other cities It outlines policy implications for national and local governments NGOs and donor agencies and highlights ways in which poor people can use their voice to influence the various institutions of city governance

Urban Water Supply and Governance in India Satyapriya Rout, Ruth Kattumuri, 2022-05-15 This book investigates institutional dimensions of urban water supply in India with a specific focus on institutional capabilities to provide drinking water to urban households in an efficient equitable and sustainable manner This book has been developed through empirical research within the context of growing urbanisation and increasing water needs of Indian cities and the

wider developmental goal of achieving universal and equitable access to safe and affordable water for all as envisaged in goal 6 of the SDGs This study revolves around three important aspects of urban water supply and governance Firstly it attempts to understand household water service delivery scenarios in urban India drawing from case studies based on our household survey in four cities Ahmedabad Bangalore Kochi and Hyderabad Secondly it examines the question of existing socio economic inequality and access to water in an urban context in India While dealing with the issue of inequality and access to water it attempts to explore the question of whether access to water and water scarcity is socially neutral whilst also analysing the mechanisms employed by the urban poor to manage their daily water needs Thirdly this book explores the role of institutions for efficient and effective delivery of water in urban India The institutional analysis from a comparative perspective provides important insights to guide current reforms in domestic water supply in India especially in a neo liberal context The book is a valuable resource for academicians policy makers and practitioners involved in water governance in general and domestic drinking water supply in particular Besides it is of great interest to those working in the area of urban development urban planning and household water management The book is an outcome of a collaborative research project by the authors sponsored jointly by University Grants Commission UGC New Delhi and UK India Education and Research Initiative UKIERI
