Seth Abrutyn, Jonathan Turner

Reconfiguration Heroes From Outerspace:

The Heroes Of The World Michael Gevas, The world looks very different in the year 4056 The line between spaceship and neighborhood cruiser barely exists Robots and holographic consciousnesses with no physical bodies live alongside human beings Virtual reality is omnipresent in movie posters Scientists are pop celebrities with hordes of screaming fans The Eiffel Tower has been painstakingly restored to the way it looked the year it was built but it s surrounded by three taller computer constructed copies Food can be created from thin air with the snap of a finger but a burger that came from an actual cow runs you a week s pay State of the art telecommunications lets you watch the world but you never know who or what is watching you Only two things haven t changed War is hell and everybody loves a show Professor Rico Jeffries cashes in on some of his reputation to score front row tickets to the military extravaganza The Heroes of the World opening tonight at the Crown Royal in New York Little does he know he s in for the ride of his life as the technology he helped invent brings the stories of war up a little too close and personal

From Mouse to Mermaid Elizabeth Bell,1995-11 From Mouse to Mermaid an interdisciplinary collection of original essays is the first comprehensive critical treatment of Disney cinema Addressing children s classics as well as the Disney affiliates more recent attempts to capture adult audiences the contributors respond to the Disney film legacy from feminist marxist poststructuralist and cultural studies perspectives The volume contemplates Disney s duality as an American icon and as an industry of cultural production created in and through fifty years of filmmaking The contributors treat a range of topics at issue in contemporary cultural studies the performance of gender race and class the engendered images of science nature technology family and business The compilation of voices in From Mouse to Mermaid creates a persuasive cultural critique of Disney s ideology The contributors are Bryan Attebery Elizabeth Bell Claudia Card Chris Cuomo Ramona Fernandez Henry A Giroux Robert Haas Lynda Haas Susan Jeffords N Soyini Madison Susan Miller Patrick Murphy David Payne Greg Rode Laura Sells and Jack Zipes

The Last American Hero Alice L. George,2020-11-10 On February 20 1962 John Glenn became a national star That morning at Cape Canaveral the small town boy from Ohio took his place atop a rocket and soared into space He became celebrated in all corners of the world as not just the first American to orbit the Earth but as the first space traveler to take the human race with him Refusing to let that dramatic day define his life he went on to become a four term US senator and returned to space at the age of seventy seven The Last American Hero is a stunning examination of the layers that formed the man a hero of the Cold War a two time astronaut a veteran senator a devoted husband and father and much more At a time when an increasingly cynical world needs heroes John Glenn s aura burns brightly in American memory

The Hero Building Johnny Rodger,2016-03-09 Why was it that across Scotland over the last two and a half centuries architectural monuments were raised to national heroes Were hero buildings commissioned as manifestations of certain social beliefs or as a built environmental form of social advocacy And if so then how and why were social aims and intentions translated into

architectural form and how effective were they A tradition of building architectural monuments to commemorate national heroes developed as a distinctive feature of the Scottish built environment As concrete manifestations of powerful social and political currents of thought and opinion these hero buildings make important statements about identity the nation and social history The book examines this architectural culture by studying a prominent selection of buildings such as the Burns monuments in Alloway Edinburgh and Kilmarnock the Edinburgh Scott Monument the Glenfinnan Monument and the Wallace Monument in Stirling They give testimony to how a variety of architectural forms and styles can be adapted through time to bear particular social messages of symbolic weight This tradition which literally allows us to dwell on important social issues of the past has been somewhat neglected in serious architectural history and heritage and indeed one of the main monuments has already been destroyed By raising awareness of this rich architectural and social heritage while analysing and interpreting the buildings in their historical context this book makes an exciting and original scholarly contribution to the current debates on identity and nationality taking place in Scotland and the wider UK *The Returning Hero* Simon

Hornblower, Giulia Biffis, 2018-09-13 A recurring and significant theme in ancient Greek literature is that of returns and returning chiefly but by no means only of mythical Greek heroes from Troy One main and certainly the most marked ancient Greek word for return is nostos plural nostoi from which is derived the English nostalgia Nostos related traditions were important ingredients of colonial foundation myths and the theme runs through both ancient Greek prose and poetry from Homer's *Odyssey* to Lykophron's *Alexandra* also leaving traces in the historical record through the archaeological and epigraphical commemoration of nostoi which played a central part in defining Greek ethnicity and crystallizing personal and communal identities This volume offers a truly interdisciplinary exploration of the concept of nostos in ancient Greek culture which draws on its contributors' expertise in ancient Greek and Roman history literature archaeology and religion The chapters examine both literary and material evidence in order to achieve a better understanding of the nature of Greek settlement in the Mediterranean zone and of sometimes equivocal Greek and Roman perceptions of home displacement and returning The special problems and vocabulary of exile are explored in the long Introduction which offers an incisive yet accessible overview of the volume's key themes and sets its range of contributions clearly in context while two chapters are concerned in different ways with emotions and personal identity making use of the theoretical tool of place attachment another demonstrates that failed nostoi can be more interesting than successful examples Evidential absence can be as important and illuminating as presence and mythical women underrepresented in this regard feature extensively in several chapters which open up a range of new perspectives on nostos **Limiting Outer Space** Alexander C.T.

Geppert, 2018-04-18 *Limiting Outer Space* propels the historicization of outer space by focusing on the Post Apollo period After the moon landings disillusionment set in Outer space no longer considered the inevitable destination of human expansion lost much of its popular appeal cultural significance and political urgency With the rapid waning of the worldwide

Apollo frenzy the optimism of the Space Age gave way to an era of space fatigue and planetized limits Bringing together the history of European astroculture and American Soviet spaceflight with scholarship on the 1970s this cutting edge volume examines the reconfiguration of space imaginaries from a multiplicity of disciplinary perspectives Rather than invoking oft repeated narratives of Cold War rivalry and an escalating Space Race Limiting Outer Space breaks new ground by exploring a hitherto underrated and understudied decade the Post Apollo period Columbia, Heroes Called Home L. H. Griffiths, 2003-05-29 This book honors the crew of Columbia STS 107 With seventy original poems written for the families and friends of STS 107 And a time line and event calendar so the rest of world will never forget the Heroes of Columbia

Cinema as a Worldbuilding Machine in the Digital Era Alain Boillat, 2022-08-09 This essay examines the primacy of worldbuilding in the age of CGI transmedia practices and high concept fiction by studying the principles that govern the creation of a multiverse in a wide range of film and TV productions Emphasis is placed on Hollywood sci fi movies and their on screen representation of imaginary machines that mirror the film medium following in the tradition of Philip K Dick s writings and the cyberpunk culture A typology of worlds is established as well as a number of analytical tools for assessing the impact of the coexistence of two or more worlds on the narrative structure the style uses of color editing practices the generic affiliation or hybridity the seriality and the discourse produced by a given film particularly in fictions linked to post 9 11 fantasies Among the various titles examined the reader is offered a detailed analysis of the Resident Evil film series Total Recall and its remake Dark City the Matrix trilogy Avatar Source Code and other time loop films TRON and its sequel Christopher Nolan s Tenet and several TV shows most notably HBO s Westworld but also Sliders Lost Fringe and Counterpart

Into the Extreme Valerie Olson, 2018-05-22 The first book length in depth ethnography of U S human spaceflight What if outer space is not outside the human environment but rather defines it This is the unusual starting point of Valerie Olson s Into the Extreme revealing how outer space contributes to making what counts as the scope and scale of today s natural and social environments With unprecedented access to spaceflight worksites ranging from astronaut training programs to life science labs and architecture studios Olson examines how U S experts work within the solar system as the container of life and as a vast site for new forms of technical and political environmental control Olson s book shifts our attention from space s political geography to its political ecology showing how scientists physicians and engineers across North America collaborate to build the conceptual and nuts and bolts systems that connect Earth to a specifically ecosystemic cosmos This cosmos is being redefined as a competitive space for potential economic resources social relations and political strategies Showing how contemporary U S environmental power is bound up with the production of national technical and scientific access to outer space Into the Extreme brings important new insights to our understanding of modern environmental history and politics At a time when the boundaries of global ecologies and economies extend far below and above Earth s surface Olson s new analytic frameworks help us understand how varieties of outlying spaces are known made and organized as

kinds of environments whether terrestrial or beyond **Euhemerism and Its Uses** Syrithe Pugh, 2021-03-17 Euhemerism and Its Uses offers the first interdisciplinary focussed and all round view of the long history of an important but understudied phenomenon in European intellectual and cultural history Euhemerism the claim that the Greek gods were historically mortal men and women originated in the early third century BCE in an enigmatic and now fragmentary text by the otherwise unknown author Euhemeros This work the Sacred Inscription has been read variously as a theory of religion an atheist s manifesto as justifying or satirizing ruler worship as a fantasy travel narrative and as an early utopia Influencing Hellenistic and Roman literature and religious and political thought and appropriated by early Christians to debunk polytheism while simultaneously justifying the continued study of classical literature euhemerism was widespread in the middle ages and Renaissance and its reverberations continue to be felt in modern myth theory Yet though frequently invoked as a powerful and pervasive tradition across several disciplines it is still under examined and poorly understood Filling an important gap in the history of ideas this volume will appeal to scholars and students of classical reception mediaeval and Renaissance literature historiography and theories of myth and religion **The Warcraft Civilization** William Sims Bainbridge, 2012-09-21 A FASCINATING DEEP DIVE FOR FANS OF WoW Exploring the popular online role playing game World of Warcraft as a virtual prototype of the real human future World of Warcraft is more than a game There is no ultimate goal no winning hand no princess to be rescued WoW is an immersive virtual world in which characters must cope in a dangerous environment assume identities struggle to understand and communicate learn to use technology and compete for dwindling resources Beyond the fantasy and science fiction details as many have noted it s not entirely unlike today s world In The Warcraft Civilization sociologist William Sims Bainbridge goes further arguing that WoW can be seen not only as an allegory of today but also as a virtual prototype of tomorrow of a real human future in which tribe like groups will engage in combat over declining natural resources build temporary alliances on the basis of mutual self interest and seek a set of values that transcend the need for war What makes WoW an especially good place to look for insights about Western civilization Bainbridge says is that it bridges past and future It is founded on Western cultural tradition yet aimed toward the virtual worlds we could create in times to come **Star Trek and the British Age of Sail** Stefan Rabitsch, 2018-12-06 Clear all moorings one half impulse power and set course for a mare incognitum A popular culture artifact of the New Frontier Space Race era Star Trek is often mistakenly viewed as a Space Western However the Western format is not what governs the worldbuilding of Star Trek which was after all also pitched as Hornblower in space Star Trek is modeled on the world of the British Golden Age of Sail as it is commonly found in the genre of sea fiction This book re historicizes and remaps the origins of the franchise and subsequently the entirety of its fictional world the Star Trek continuum on an as yet uncharted transatlantic bearing **Uncanny Cinema** Murray Pomerance, 2022-10-20 Murray Pomerance s latest book explores an encyclopedic range of films and television shows to demonstrate the difficulty of conveying the experience of

viewing cinema through words and the medium of text *From On the Waterfront to Marriage Story* Uncanny Cinema illuminates that words and writing are in perilous waters when applied to cinema similar to ungestured talk The book begins with this problem using Julian Jaynes's thoughts on vocality and imagination before delving into three exploratory movements arranged to alternately challenge inspire and confound the reader to question if we know what we think we know or even see what we think we see The viewer is faced with disturbances ruptures and surprises that occur during the viewing experience which Pomerance analyzes to stretch the sense of what we do and do not or possibly cannot know particularly as we think talk and write about cinema

David Bowie and the Art of Music Video Lisa Perrott, 2023-07-27 The first in depth study of David Bowie's music videos across a sustained period takes on interweaving storyworlds of an iconic career Remarkable for their capacity to conjure elaborate imagery Bowie's videos provide fascinating exemplars of the artistry and remediation of music video When their construction is examined across several years they appear as time travelling vessels transporting kooky characters and strange story world components across time and space By charting Bowie's creative and collaborative process across five distinct phases *David Bowie and the Art of Music Video* shows how he played a vital role in establishing music video as an artform Filling a gap in the existing literature this book shines a light on the significant contributions of directors such as Mick Rock Stanley Dorfman and David Mallet each of whom taught Bowie much about how to use the form By examining Bowie's collaborative process his use of surrealist strategies and his integration of avant garde art with popular music and media the book provides a history of music video in relation to the broader fields of audiovisual media visual music and art

Rethinking the City Maria Filomena Molder, Nélío Conceição, Nuno Fonseca, 2024-12-12 Interdisciplinary in approach this book employs the key concepts of fragmentation and reconfiguration to consider the ways in which human experience and artistic practice can engage with and respond to the disintegration that characterises modern cities Asking how we might unsettle and decrypt the homogeneous images of cities created by processes linked to capitalism and globalisation it invites us to consider the possibility of reimagining and rethinking the urban spaces we inhabit An exploration of the complex relationship between aesthetics the arts and the city *Rethinking the City* Reconfiguration and Fragmentation will appeal to scholars across various disciplines including philosophy urban sociology and geography anthropology political theory and visual and media studies

Modernist Fiction R.W. Stevenson, 2014-09-11 In the revised edition of this popular text Randall Stevenson has expanded re-emphasised and amended his work to make it even more relevant to today's student studying the Modernist period in literature The book covers a wide range of modernist novelists and novels and also provides an invaluable guide to key developments in the genre Stevenson has developed his text by adding a discussion of Conrad's *Heart of Darkness* which is now taught more regularly than *Lord Jim* In addition he takes a fresh look at the politics of the Modernists in conjunction with the politics of their texts pointing out the drawbacks of politically progressive readings of many modernist novels Finally in the section on gender Stevenson includes discussions of such significant figures as Djuna

Barnes HD Katherine Mansfield and Rebecca West as well as expanding the reference to Gertrude Stein throughout The revisions in this updated text serve to make the authors arguments sharper and allow the text to remain central to the discussion of modernism modernity and the novel **June Cleaver Was a Feminist!** Cary O'Dell,2013-05-11 Long dismissed as ciphers sycophants and Stepford Wives women characters of primetime television during the 1950s through the 1980s are overdue for this careful reassessment From smart savvy wives and resilient mothers including the much maligned June Cleaver and Donna Reed to talented working women long before the debut of Mary Tyler Moore to crimebusters and even criminals American women on television emerge as a diverse empowered individualistic and capable lot highly worthy of emulation and appreciation The First Institutional Spheres in Human Societies Seth Abrutyn,Jonathan Turner,2022-03-15 Few concepts are as central to sociology as institutions Yet like so many sociological concepts institutions remain vaguely defined This book expands a foundational definition of the institution one which locates them as the basic building blocks of human societies as structural and cultural machines for survival that make it possible to pass precious knowledge from one generation to the next ensuring the survival of our species The book extends this classic tradition by first applying advances in biological evolution neuroscience and primatology to explain the origins of human societies and in particular the first institutional sphere kinship The authors incorporate insights from natural sciences often marginalized in sociology while highlighting the limitations of purely biogenetic Darwinian explanations Secondly they build a vivid conceptual model of institutions and their central dynamics as the book charts the chronological evolution of kinship polity religion law and economy discussing the biological evidence for the ubiquity of these institutions as evolutionary adaptations themselves **Beastly Questions** Naomi Sykes,2014-08-28 Zooarchaeology or the study of ancient animals is a frequently side lined subject in archaeology This is bizarre given that the archaeological record is composed largely of debris from human animal relationships be they in the form of animal bones individual artifacts or entire landscapes and that many disciplines including anthropology sociology and geography recognise human animal interactions as a key source of information for understanding cultural ideology By integrating knowledge from archaeological remains with evidence from texts iconography social anthropology and cultural geography **Beastly Questions Animal Answers to Archaeological Issues** seeks to encourage archaeological students researchers and those working in the commercial sector to offer more engaging interpretations of the evidence at their disposal Going beyond the simple confines of what people ate this accessible but in depth study covers a variety of high profile topics in European archaeology and provides novel interpretations of mainstream archaeological questions This includes cultural responses to wild animals the domestication of animals and its implications on human daily practice experience and ideology the transportation of species and the value of incorporating animals into landscape research the importance of the study of foodways for understanding past societies and how animal studies can help us to comprehend issues of human identity and ideology past present and future Electronica, Dance and Club Music

Mark J. Butler, 2017-07-05 Discos clubs and raves have been focal points for the development of new and distinctive musical and cultural practices over the past four decades This volume presents the rich array of scholarship that has sprung up in response Cutting edge perspectives from a broad range of academic disciplines reveal the complex questions provoked by this musical tradition Issues considered include aesthetics agency the body in dance movement and space composition identity including gender sexuality race and other constructs musical design place pleasure policing and moral panics production techniques such as sampling spirituality and religion sub cultural affiliations and distinctions and technology The essays are contributed by an international group of scholars and cover a geographically and culturally diverse array of musical scenes
