Reconstructing Mental Health Law And Policy:

Reconstructing Mental Health Law and Policy Nicola Glover-Thomas, 2002-07 A critical in depth analysis of the development of contemporary mental health law in its social and political contexts **Reconstructing Mental Health Law and Policy** Nicola Glover-Thomas, 2002 *Mental Health Law: Policy and Practice* Peter Bartlett, Ralph Sandland, 2013-10 This text provides a detailed overview of mental health law and the socio legal historical sociological and cultural issues related to them The role of the law and medical treatments in regulating and controlling deviance are explored alongside the fundamental rights and liberties of some of society s most vulnerable people *Rethinking Rights-Based Mental Health Laws* Bernadette McSherry, Penny Weller, 2010-08-16 Mental health laws exist in many countries to regulate the involuntary detention and treatment of individuals with serious mental illnesses Rights based legalism is a term used to describe mental health laws that refer to the rights of individuals with mental illnesses somewhere in their provisions The advent of the United Nations Convention on the Rights of Persons with Disabilities makes it timely to rethink the way in which the rights of individuals to autonomy and liberty are balanced against state interests in protecting individuals from harm to self or others This collection addresses some of the current issues and problems arising from rights based mental health laws The chapters have been grouped in five parts as follows Historical Foundations The International Human Rights Framework and the United Nations Convention on the Rights of Persons with Disabilities Gaps Between Law and Practice Review Processes and the Role of Tribunals Access to Mental Health Services Many of the chapters in this collection emphasise the importance of moving away from the limitations of a negative rights approach to mental health laws towards more positive rights of social participation While the law may not always be the best way through which to alleviate social and personal predicaments legislation is paramount for the functioning of the mental health system The aim of this collection is to encourage the enactment of legal provisions governing treatment detention and care that are workable and conform to international human rights documents **Housing Law and Policy** David Cowan, 2011-09-29 An innovative and timely guide to housing law that integrates the disciplines of law and public policy so that readers see how the subject fits together both the letter of the law and the way it is practised The innovative three part structure covers all the topics of a typical Housing Law module and it is written in a clear and conversational style with a wide range of source material to show how the law is created interpreted and used in real life Students are expertly guided through the complexities of housing law by a leading academic who has taught the subject for more than 20 years Where relevant chapters end with a section on the future that discusses proposed changes to the law and the impact of those changes It also discusses the conceptual issues raised by the Human Rights Act **New Medicalism and the Mental Health Act** John Fanning, 2018-08-09 Ten years have passed since the Mental Health Act MHA 2007 came into force in England An amending statute the Act reformed the MHA 1983 and reshaped the law governing the compulsory care and treatment of people suffering from mental disorders Primarily driven by concerns about

risk it sought to remove legalistic obstacles to civil commitment and extend the law's coercive reach into the community. At the time of its introduction the 2007 Act was written off as a retrograde step and a missed opportunity for radical rights focused reform. Despite this little attention has been paid to its impact in the years since. Published to coincide with the tenth anniversary of the 2007 Act this book offers a timely evaluation of mental health law and policy in England. It argues that the current MHA defies easy categorisation within any of the descriptive models which have customarily narrated the mechanics of civil commitment namely legalism, new legalism and medicalism. It therefore makes the case for a new model, new medicalism, to account for the 2007 Act's enhancement of the discretion of mental health professionals for the express purposes of facilitating the management of situations of risk. In doing so the book critically examines the problems inherent in civil commitment frameworks organised around the concept of risk, explores the theoretical foundations of new medicalism, considers the challenges facing proponents of future reform in the era of the UN Convention on the Rights of Persons with Disabilities and reflects on the 2007 Act's practical impact.

Medical Law and Ethics Jonathan Herring, 2020. Medical Law and Ethics covers the core legal principles, key cases and statutes that govern medical law alongside the key ethical debates and dilemmas that exist in the field. Carefully constructed features highlight these debates, drawing out the European angles, religious beliefs and feminist perspectives which influence legal regulations. Other features such as a shock to the system, public opinion and reality check introduce further socio-legal discussion and contribute to the lively and engaging manner in which the subject is approached.

Online resources This book is accompanied by the following online resources: Complete bibliography and list of further reading; Links to the key cases mentioned in the book; A video from the author which introduces the book and sets the scene for your studies; Links to key sites with information on medical law and ethics; Answer guidance to one question per chapter.

Medical Law Emily Jackson, 2022. Providing a clear and accessible guide to medical law, this work contains extracts from a wide variety of academic materials so that students can acquire a good understanding of a range of different perspectives.

Dispute Processes Michael Palmer, Simon Roberts, 2020-07-09. This wide ranging study considers the primary forms of decision making: negotiation, mediation, umpiring as well as the processes of avoidance and violence in the context of rapidly changing discourses and practices of civil justice across a range of jurisdictions. Many contemporary discussions in this field and associated projects of institutional design are taking place under the broad but imprecise label of Alternative Dispute Resolution (ADR). The book brings together and analyses a wide range of materials dealing with dispute processes and the current debates on and developments in civil justice. With the help of analysis of materials beyond those ordinarily found in the ADR literature it provides a comprehensive and comparative perspective on modes of handling civil disputes. The new edition is thoroughly revised and is extended to include new chapters on avoidance and self-help, the ombudsman, Online Dispute Resolution and pressures of institutionalisation.

Tax and Government in the 21st Century Miranda Stewart, 2022-09-08. A broad, accessible, evidence-based analysis of tax law and how democratic tax

states are confronting today's global digital challenges Caring for Cultural Heritage Charlotte Woodhead, 2023-11-23 This book explores how cultural heritage and its care are translated in UK law and non law instruments It analyses how communities of care look after cultural heritage because they care about it These communities include the international and national community national and local governments courts professional bodies institutions such as museums as well as community groups Care refers to the varied ways in which communities engage with cultural heritage to maintain it sustain relationships about it and with it use it and provide access to it with a view to passing it on to future generations The book also assesses how far these nested practices of care assist communities of care in providing respectful empathetic and dialogical care to navigate harm to cultural heritage It will be of interest to scholars of cultural heritage studies across disciplines including law sociology and anthropology as well as policymakers and practitioners in cultural heritage management

A Philosophical Introduction to Human Rights Thomas Mertens, 2020-09-24 While almost everyone has heard of human rights few will have reflected in depth on what human rights are where they originate from and what they mean A Philosophical Introduction to Human Rights accessibly written without being superficial addresses these questions and provides a multifaceted introduction to legal philosophy The point of departure is the famous 1948 Universal Declaration of Human Rights which provides a frame for engagement with western legal philosophy Thomas Mertens sketches the philosophical and historical background of the Declaration discusses the ten most important human rights with the help of key philosophers and ends by reflecting on the relationship between rights and duties The basso continuo of the book is a particular world view derived from Immanuel Kant Unsocial sociability is what characterises humans i.e. the tension between man's individual and social nature Some human rights emphasize the first others the second aspect The tension between these two aspects plays a fundamental role in how human rights are interpreted and applied **Jurisdictional**

Exceptionalisms Anver M. Emon, Urfan Khaliq, 2021-08-12 Examines a complex global legal problem to demonstrate a compelling method for comparative legal cultural and social understanding *The Reasonable Person* Valentin Jeutner, 2024-05-31 Jeutner argues that the reasonable person is at heart an empathetic perspective taking device by tracing the standard of the reasonable person across time legal fields and countries Beginning with a review of imaginary legal figures in the legal systems of ancient Egypt Greece and Rome the book explains why the common law's reasonable person emerged amidst the British industrialisation under the influence of Scottish Enlightenment thinking Following the figure into colonial courts onto battlefields and into self driving cars the book contends that the reasonable person invites judges jury members and lawyers to take another person's perspective when assessing their own or another person's conduct The perspective of another is taken by means of empathy by feeling what others might feel in a particular situation Thus construed the figure of the reasonable person can help us make more accurate judgments in a diverse world Electrified Democracy Andrew Blick, 2021-07-01 The story of how the UK Parliament came to use the Internet from the 1960s onwards

has never been told Electrified Democracy places the impact of technology on parliamentary workings in its longer term historical context The author identifies repeating patterns of perception and analysis and cultural tendencies in the perception of inventions dating back over centuries that have reasserted themselves in connection with the parliamentary response to networked computers He uncovers evidence and makes new connections while situating all this within the wider global debates on connections between communication and democracy in the age of the Internet constitutional law and history and law and technology This book will be of interest to a wide readership including policy makers researchers and all those interested in contemporary controversies about the role of the Internet in modern societies Self, Others and the State Arlie Loughnan,2019-12-12 An original analysis and in depth historical examination of criminal responsibility in the context of Australian criminal law **Law's Families** Alison Diduck,2003-07 Examining the diversity of perspectives and approaches in family law scholarship and drawing upon this work this book provides an analysis of recent trends in family law from a socio legal and feminist perspective and questions the nature of the nuclear family The Law of Contract Hugh Collins,2003-07 This volume provides an advanced analysis of the law of contract for undergraduate courses covering the law of contract and the law of obligations An Introduction to Law Phil Harris,2016 An extensively updated introduction to law through a law in context perspective **Law and Administration** Carol Harlow,Richard Rawlings,2021-07-22 Contains a full account of administrative law in the context of social political and economic forces shaping the law
