Reconstructing The Criminal Culture Law And Policy In England 1830 1914:

Reconstructing the Criminal Martin J. Wiener, 1990 This ambitious and imaginative work interprets criminal justice history by relating it to intellectual and cultural history Starting from the assumption that policies and statutes originate in a society's values and norms the author skilfully and persuasively demonstrates how changes in criminal law and penal practice were related to the changing values of early mid and late Victorian and Edwardian society Wiener traces changes in the criminal justice system by examining the treatment of offenders During the Victorian period the system became more punitive and was then reformed in line with welfarist thinking Wiener's wide ranging discussion of issues most notably of free will versus determinism sheds light on a broad range of Victorian history beyond crime and punishment

Reconstructing the Criminal Martin Joel Wiener, 1994 **Reconstructing the Criminal** Martin Joel Wiener, 1994 Reconstructing the Criminal Martin J. Wiener, 1990 *The Law of Evidence in Victorian England* C. J. W. Allen, 1997-09-04 In *The Law of Evidence in Victorian England* which was originally published in 1997 Christopher Allen provides a fascinating account of the political social and intellectual influences on the development of evidence law during the Victorian period His book sets out to challenge the traditional view of the significance of Jeremy Bentham's critique of the state of contemporary evidence law and shows how statutory reforms were achieved for reasons that had little to do with Bentham's radical programme and how evidence law was developed by common law judges in a way diametrically opposed to that advocated by Bentham Dr Allen's meticulous account provides a wealth of detail into the functioning of courts in Victorian England and will appeal to everyone interested in the English legal system during this period

Wayward Girls in Victorian and Edwardian England Tahaney Alghrani, 2024-04-04 Exploring the reform and regulation of juvenile females in the Victorian and early Edwardian era this book presents the first hand experiences of incarcerated girls to shed new light on youth criminalisation in the past and the present Focusing on three industrial schools in Bristol and Manchester Wayward

Girls in Victorian Era pays particular attention to gender age and class to understand how these factors impacted an individual's passage through the Victorian juvenile system Using both qualitative and quantitative data it examines representations of deviance and immorality as well as behaviour regulation to bring girls into a field of study previously dominated by male and adult offenders Asking questions about how to reform delinquent juveniles this book also uses history to rethink the present and contribute to current debates about juvenile delinquency and reform Masculinity, Crime and Self-Defence in Victorian Literature E. Godfrey, 2010-12-03 Now in paperback this book considers crime fighting from the perspective of the civilian city goer from the mid Victorian garrotting panics to 1914 It charts the shift from the use of body armour to the adoption of exotic martial arts through the works of popular playwrights and novelists examining changing ideals of urban middle class heroism **A New England?** G. R. Searle, 2005-07-29 G R Searle's absorbing narrative history breaks conventional chronological barriers to carry the reader from England in 1886 the apogee of the Victorian era with the nation poised to celebrate the empress queen's golden jubilee to 1918 as the war to end all wars drew to a close leaving England to come to term with its price above all in terms of human life but also in the general sense that things would never be the same again This was an age of extremes a period of imperial pomp and circumstance with a political elite preoccupied with display and ceremony alongside the growing cult of the simple life the zenith of imperialism with its idealization of war on the one hand the start of the Labour Party a socialist renaissance and welfare politics on the other and a radical challenging of traditional gender stereotypes in the face of the prevailing cult of masculinity Under Professor Searle's historical microscope all the details of daily life spring into sharp relief Half forgotten figures such as Edward Carpenter Vesta Tilley and Sir Henry Campbell Bannerman take their place on stage beside Oscar Wilde the Pankhursts and Lloyd George Motoring and aviation to become such an intrinsic part of life within the next decades had their beginnings in this period as pastimes for the rich From the wretched slums of England's great cities to their bustling docks and factories from the grand portals of Westminster to the violent political challenges of the Ulster Unionists and the militant suffrage movement from Blackpool's tower and beach packed with holidaymakers to the trenches of the Western Front the energy creativity and often destructive turmoil of the years 1886-1918 are brought into focus in this magisterial history **THE NEW OXFORD HISTORY OF ENGLAND** The aim of the New Oxford History of England is to give an account of the development of the country over time It is hard to treat that development as just the history which unfolds within the precise boundaries of England and a mistake to suggest that this implies a neglect of the histories of the Scots Irish and Welsh Yet the institutional core of the story which runs from Anglo Saxon times to our own is the story of a state structure built round the English monarchy and its effective successor the Crown in Parliament While the emphasis of individual volumes in the series will vary the ultimate outcome is intended to be a set of standard and authoritative histories embodying the scholarship of a generation A New England? G. R. Searle, 2005 G R Searle's narrative history breaks conventional chronological barriers

to carry the reader from England in 1886 the apogee of the Victorian era with the nation poised to celebrate the empress queen s golden jubilee to 1918 as the war to end all wars drew to a close

Resisting the Rule of Law in Nineteenth-Century Ceylon James S. Duncan,2020-06-09 This book offers in depth insights on the struggles implementing the rule of law in nineteenth century Ceylon introduced into the colonies by the

British as their greatest gift The book argues that resistance can be understood as a form of negotiation to lessen oppressive colonial conditions and that the cumulative impact caused continual adjustments to the criminal justice system weighing it down and distorting it The tactical use of rule of law is explored within the three bureaucracies the police the courts and the prisons Policing was often governed at a distance due to fiscal constraints and economic priorities and the enforcement of law was often delegated to underpaid Ceylonese Spaces of resistance opened up as Ceylon was largely left to manage its own affairs Villagers minor officials as well as senior British government officials alternately used or subverted the rule of law to achieve their own goals In the courts the imported system lacked political legitimacy and consequently the Ceylonese undermined it by embracing it with false cases and information in the interests of achieving justice as they saw it In the prisons administrators developed numerous biopolitical techniques and medical experiments in order to punish prisoners bodies to their absolute lawful limit This limit was one which prison officials prisoners and doctors negotiated continuously over the decades The book argues that the struggles around rule of law can best be understood not in terms of a dualism of bureaucrats versus the public but rather as a set of shifting alliances across permeable bureaucratic boundaries It offers innovative perspectives comparing the Ceylonese experiences to those of Britain and India and where appropriate to other European colonies This book will appeal to those interested in law history postcolonial studies cultural studies cultural and political geography

Nineteenth-Century Female Poisoners V. Nagy, 2015-02-18 Nineteenth Century Female Poisoners investigates the Essex poisoning trials of 1846 to 1851 where three women were charged with using arsenic to kill children their husbands and brothers Using newspapers archival sources including petitions and witness depositions and records from parliamentary debates the focus is not on whether the women were guilty or innocent but rather on what English society during this period made of their trials and what stereotypes and stock stories were used to describe women who used arsenic to kill All three women were initially presented as bad women but as the book illustrates there was no clear consensus on what exactly constituted bad womanhood
