Walle, 2008-11-01 This book is written in the belief that many Native substance abusers suffer because their cultural heritage is being swept away or because they have lost contact with it While Alcoholics Anonymous and Narcotics Anonymous provide wonderful leadership to millions of people they do not deal with the pain that can arise when cultures weaken and die or when people are cut off from their heritage While not seeking to replace tools of recovery such as Alcoholics Anonymous and Narcotics Anonymous this book deals with the fact that people often lose the ability to cope when their cultures are under attack The resulting pain can lead to substance abusers If strengthened however the traditions of a people can help people regain their sobriety The example of Handsome Lake a Native leader who lived many years ago demonstrates the power of tradition Handsome Lake

was an alcoholic near death who at the last possible moment regained his sobriety and invented a method that helped the Iroquois people overcome their alcoholism and restore their culture This strategy was made up of two parts 1 reaffirming and strengthening the culture and 2 living a sober life while undoing past wrongs This book is written to how how Handsome Lake s inspirational example can help today s Native people who seek recovery from substance abuse **Culture of Recovery** Elayne Rapping,1997-04-30 A thoughtful exploration of the recovery movement and its impact on contemporary life from talk shows and self help books to Clinton s presidential campaign American Journal of Diseases of Children ,1911 **Studies** Rockefeller Institute for Medical Research,1911 **Studies from the Rockefeller Institute for Medical Research** Rockefeller University,1911 Consists chiefly of reprints from various medical journals **Studies from the Rockefeller Institute for Medical Research** Rockefeller Institute for Medical Research,1911 *Studies from the Rockefeller Institute for Medical Research* ,1911 Consists chiefly of reprints from various medical journals International Record of Medicine and General Practice Clinics Edward Swift Dunster, Frank Pierce Foster, James Bradbridge Hunter, Charles Eucharist de Medicis Sajous, Gregory Stragnell, Henry J. post purchase behaviour and attitudes The study employed a two stage research strategy The first phase of the research included an extensive literature review and exploratory research involving semi structured interviews and experiments This first stage resulted in the development of a research model establishing the links between the antecedents and outcomes of customer satisfaction judgments involving service failure and recovery encounters In the second phase the proposed conceptual model was evaluated through a self administered cross sectional survey Respondents were requested to recall a time when they complained to a travel and tourism services provider about a failed
