Re-Inventing Organic Metaphors for the Social Sciences Marc Antoine Campill, 2023-04-25 The Re Inventing Organic Metaphors for the Social Sciences is a volume with the specific goal to challenge psychological understandings by connecting psychological approaches with multidimensional perspectives of various other scientific streams meanwhile imbedding the generated knowledge in metaphors that allows researchers to follow phenomena into a deeper and more w holistic understanding of its appearance This is particularly important when the humankind faces challenges due to systemic biological changes as the phenomenological dynamics bonded to those challenges can be conserved in appropriated context For this purpose the organic metaphors are introduced A tool that has central advantage over mechanical metaphors as it can capture the complex and open systemic nature of biological psychological and social phenomena For example the widely used notion mind as a computer may be more productively replaced by mind as a membrane with implications e g focus on borders in between or in systems in themselves exosystemic realities in our world There are many other fertile opportunities not yet explored in the realms of psychology and other sciences Furthermore the contributors operated also as cross reviewers for each other s In this occasion a new dimension in chapter construction will be introduced Beside the traditional reviewing of another paper the reviewer has been asked to add a small list of extending questions toward the reviewed paper These added questions have been introduced as potential questions that the authors were demanded to add into a final sub chapter of their contribution The subchapter has been titled as Dialogue the author was free to select between the questions and ideas on those they believe could inhabit an especially worth for the future readers

Imagine the Life You'd Love to

Live, Then Live It Peg Conley, 2014-11-17 Peg Conley has been an artist all her life but like many of us took a long detour into the working world where she was a corporate sales queen in Seattle with a lot of success and a happy busy family Art became the thing she did on vacations weekends and when she could carve time out of her busy life Something gnawed at her a nagging feeling that life might hold something else for her in the midst of it all Then came the big aha moment Peg heard a still small voice inside Imagine the life you want to live then live it It's that simple Her family encouraged Peg to pursue her passion Despite a great deal of fear Peg Conley did the thing she thought she could not do and dropped her big job big house and big life and moved to San Francisco to start a business based on her artisan stationery From a handful of handpainted cards calendars and posters her company Words Watercolors was born and has been inspiring people winning awards and raking in the sales ever since Peg's intention with her work is to inspire and her art and writing all speak to life's great truths and those aha moments for which we all need reminders What do you imagine your Ideal Life to be It may take some time for it to unveil itself You will need to have an idea of what it is you are looking to create Spend some time in contemplation For some that means a quiet meditation where images might come to you For others you might write about something you've always had a longing to create or a dream that seemed far away and not attainable yet it doesn't go away The dream nudges at you asking you to pay attention Where words work for some people pictures work for others You may want to create a vision board Gather your old magazines and begin ripping out the pictures that appeal to you or draw your own images Your Ideal Life will come alive via the images that resonate with you Don't hesitate to pick up a pen pencil or crayons even and fill the blank pages with doodles of any kind Do you still think of becoming a nurse Don't be disheartened go online and research classes you can take at your local college to start the process As someone once said if you don't start now 5 years from now you still will be where you are but if you begin with baby steps in 5 years you could be in a completely different place So ask yourself the question What does the life I long to live look like Imagine it Draw it write it collage it and just plain dream it Believe you can have it and then go about creating it as you take daily steps towards becoming an enhanced version of yourself All successful people are big dreamers They imagine what their future could be ideal in every respect and then they work every day toward their distant vision that goal or purpose
