Recreating Democracy Breathing New Life Into American Communities:

Recreating Democracy Lloyd P. Wells, 1998 Ellen LaConte, 2010-10-01 LaConte's book offers a compelling answer To The now universal question suggested by her subtitle The global economy has gone viral it is ravaging Earth's equivalent of an immune system the way HIV ravages the human immune system triggering a Critical Mass of AIDS like mutually reinforcing environmental economic social and political crises that are undermining the ability of human and natural communities to support protect and heal themselves LaConte's prognosis Since Life rules we don't Life will last but Life as we know it and a lot of us won't LaConte shows that Life learned two billion years ago how to deal with pathological economies it put them out of business it encoded in other than human species a set of Economic Rules for Survival that allow them to live within Earth's means long term In accessible prose LaConte explains how those rules can work for humans too Recommended as a tool for community transition and cultural transformation Life Rules offers a solution to our global crisis the publishers call authentically conserve alive deeply Green and profoundly liberating **Life Rules** Ellen LaConte, 2012-09-01 Corporate capitalism has ravaged the planet the way HIV ravages the human body triggering a Critical Mass of cascading environmental economic social and political crises Economic and climate instability collapsing ecosystems peak fossil fuels and devastating resource wars if Earth were a patient her condition would be critical Life Rules offers a comprehensive analysis of our present circumstances combined with a holistic treatment protocol for restoring health to vulnerable human and natural communities Predicting that Life will last but if we don't make some fundamental changes life as we know it and a lot of us won't Life Rules identifies natural laws that have allowed non human communities to thrive and prosper for several billion years including Local self reliance Mutual interdependence Reliance on non fossil sources of energy Resource conservation sharing and recycling Co operation and co intelligence Radically democratic self organization and governance This sobering yet essentially optimistic manifesto is required reading for anyone concerned about our ability to live well and also within Earth's means A powerful tool for community transition and cultural transformation Life Rules offers a solution to our global challenges that is at once authentically hopeful deeply inspiring and profoundly liberating

Community Matters Margot Kempers, 2001 Community Matters is unique in its use of a contextualized interactionist approach to analyze the nature and extent of community Its theoretical discussion of community as process is expanded through the inclusion of arguments raised in political science and philosophy and is balanced by descriptive analyses of a diverse selection of communities This book helps bridge the divide between works of academic argument concerning civil society and community life and books explicitly focused on presenting practical information on what is and is not effective in community work Community Matters shifts attention away from a conceptualization of community as a fixed evolutionary stage identified with specific types of settings and instead provides numerous illustrations of the dynamic quality of social ties and community life This book convinces readers that they can and should study community and community matters A

Burnham Publishers book **Turning the Page** Lily Ann Polo, 2004 *Democratic Places Through Democratic Means with Participatory Evaluative Action Research (PEAR), a Model of Inquiry for Habits and Habitats where Public Life Matters*

Annalisa Lewis Raymer, 2007 How the lack of public space diminishes our democratic society isn't always apparent to people who've not experienced a vital pedestrian public realm When we no longer traverse any ground other than commercial private territory in the course of our daily rounds what happens to public life and our sense of people as human beings and citizens The loss of public space the destruction of our civic habitat holds dire consequences for not only the Homo Civitas but also our ability to enact the wide range of humanity's quirky messy erratic gifted ways of being beyond the narrow sliver of those behaviors readily accommodated in environments engineered to increase consumption How can a society be democratic without places for being persons rather than consumers Overview **The Vermont Papers** Frank M. Bryan, John McClaughry, 1989 *When Democracy Isn't All that Democratic* Philip Oxhorn, 2001 **Europe Without Borders** Isaac Stanley-Becker, 2025-01-14 The contested creation of free movement for people and goods in the Schengen area of Europe Europe is a place of free movement among nations or is it The Schengen area established in 1985 and today encompassing twenty nine European countries allows people goods and capital to cross borders without restraint Schengen transformed European life advancing both a democratic project of transnational citizenship and a neoliberal project of international free trade But the right of free movement always excluded non Europeans especially migrants of color from former colonies of the Schengen states In Europe without Borders Isaac Stanley Becker explores the contested creation of free movement in Schengen from treaty-making at European summits and disputes in international courts to the street protests of undocumented immigrants who claimed free movement as a human right Schengen laid the groundwork for the making of a single market and the founding of the European Union Yet its emergence is one of the great untold stories of modern European history one hidden in archives long embargoed Stanley Becker is among the first to have access to records of the treaty-making such as letters between France's François Mitterrand and West Germany's Helmut Kohl and Europe without Borders offers a pathbreaking account of Schengen's creation Stanley Becker argues that Schengen gave a humanist cast to a market paradigm but even in pairing the border crossing of human beings with the principles of free market exchange this vision of free movement was hedged by alarm about foreign migrants Meanwhile these migrants the sans papiers saw in the promise of a borderless Europe only a neocolonial enterprise *The T.P.A. Magazine*, 1918 **Harper's Bazaar**, 1920 [The Coffin of James Genius](#) Jeff Petrill, 2008-03 James Genius is a traveler hiding a secret While trying to fit into a community that thrives off death James begins building a new life that quickly turns into a personal hell in futuristic America A new Civil War brews in America while James simultaneously fights his own internal demons and hallucinations as he attempts to locate the survivors of his hidden family While the government promises to protect and separate citizens from one another obsessive political control and suspicious behavior begins to confuse and upset the public As a result survival

groups start preparing for the collapse of the government while a news organization The Zoo Trials tries to explain and solve the country's seemingly inevitable demise James holds the key to a major change but in a futile attempt to protect himself he pretends he doesn't recall his past Meanwhile others encourage James to reveal his true self but he waits for the right moment to fuel his transformation Only time will tell if James finds the real life he's been desperately seeking and if the citizens of this revolutionary community will pull together and plant the seeds of positive change *Lincoln Herald* ,1994
