Belohlávek,2011-01-01 As of 17 December 2010 the Rome I Regulation EU Regulation 593/2008 on the law applicable to contractual obligations is directly applicable in all EU Member States with the exception of Denmark The Rome I Regulation replaces the Rome Convention of 1980 in the EU Member States and will apply to all contracts concluded as of 17 December 2010 However and herein lies the utility and great importance of this work the Rome Convention and the Rome I Regulation will be applied in parallel for a significant time to come the author himself anticipates a ten to fifteen year period in the latter case to contracts made after 17 December 2010 This is why this commentary takes into account both sources of law in their mutual interaction and broader context The comprehensiveness of the Rome Convention Rome I Regulation is clearly apparent but one of the great achievements of the author is his amassing of over 1 800 judicial decisions most of which are furnished with a detailed commentary where these decisions apply national laws the latter are cited both in the original and in translation For a number of rulings the commentary include not only a case summary of the facts and an analysis of the conclusions drawn by the court but also takes them as models to hypothesize what conclusions would be reached if the Rome I Regulation were to be applied *Recueil des Cours 2001* M.A. Fitzmaurice,2002-08-30 The Academy is an institution for the study and teaching of Public and Private International Law and related subjects Its purpose is to encourage a thorough and impartial examination of the problems arising from international relations in the field of law The courses deal with the theoretical and practical aspects of the subject including legislation and case law All courses at the Academy are in principle published in the language in which they were delivered in the Collected Courses of the Hague Academy of International Law The contents of this volume consist of International Protection of the Environment by M A FITZMAURICE Professor at Queen Mary University of London To access the abstract texts for this volume please click here **Recueil Des Cours, Collected Courses, Tome/Volume 300A (Index Tomes/Volumes 2001-2002)** Académie de Droit International Law,2005-05-15 The Academy is a prestigious international institution for the study and teaching of Public and Private International Law and related subjects The work of the Hague Academy receives the support and recognition of the UN Its purpose is to encourage a thorough and impartial examination of the problems arising from international relations in the field of law The courses deal with the theoretical and practical aspects of the subject including legislation and case law All courses at the Academy are in principle published in the language in which they were delivered in the Collected Courses of the Hague Academy of International Law **Recueil des Cours** Hague Academy of International Law. Fernández Arroyo, 2019-12-27. Is Private International Law (PIL) still fit to serve its function in today's global environment? The specialization and financial demand of global business render international transactions inherently multilateral and thus best effected through arbitration agreements. However, it often happens that for various reasons, such as a debtor's failure to pay damages ordered by an arbitral tribunal, third parties who did not consent to the original arbitration enter the scene. This is the first book to examine the binding effects of international commercial arbitral awards in follow-up disputes against third parties. It comprehensively analyses arbitral awards, third-party effects under national arbitration laws, the New York Convention, and private international law. Moreover, it proposes solutions under transnational law before both courts and arbitral tribunals. Applying a continuously comparative methodology that refers to specific statutory, jurisprudential, and scholarly sources, this book explores the nature and implications of such aspects of third-party involvement as the following: the foundations of the doctrine of *res judicata* and its intrinsic connection to other tools of forum coordination; the distinction between *res judicata* before courts on the one hand and arbitral tribunals on the other; the application of non-mutual preclusion in favour of third parties; the potential for arbitral awards to constitute a *fact in follow-up* disputes; a comparison of rules and uncertainties on awards, third-party effects under various national arbitration acts; preclusion agreements; the arbitration agreement's scope and judgments; third-party effects as a shift of the participatory burden. For civil law, the author focuses on France and Switzerland as predominant arbitral seats and on Germany as a Model Law example. Among common law countries, he concentrates on England and Wales and on the United States. Statutory sources with specific wording, leading cases, and summaries of the most important scholarly discussions are all invoked. With its clear guidelines for matters currently not addressed in previous publications and likely to be raised in specific cases, this book will prove to be of immeasurable value.

for arbitration practitioners and academics in any jurisdiction Business parties that seek to prevent contradicting decisions in multilateral transactions will appreciate the practically feasible alternatives it presents in the event of follow up disputes involving third parties      **State Succession to Responsibility for Internationally Wrongful Acts** Grega

Pajnkihar,2023-08-28 Ongoing work of the International Law Commission on State succession with respect to State responsibility begs the question how does this new matter fit into the broader concept of State succession This book presents a detailed analysis of the complete codified field of State succession with new observations and the relevant elements of State responsibility Dr Grega Pajnkihar provides insight into how these two areas of international law are interlinked and why State responsibility should not be treated differently from other matters of succession      **Ethics of Human Rights A.**

**Law and the Sovereignty of the Member States in Direct Taxation** Mathieu Isenbaert,2010 In order to develop a suitable framework for the analysis of the European Court of Justice ECJ case law it is first analysed what significance if any

the concept of sovereignty has in the contemporary supranational environment of the European Union All too often tax scholars equate sovereignty with the concepts of competence or jurisdiction It will be established in this thesis that a much more specific and higher level meaning is to be attributed to the sovereignty concept which goes beyond the strictly legal concepts of competence or jurisdiction The cornerstone of this thesis however is an extensive analysis of the case law of the ECJ in direct tax matters including a comparison with its non tax case law A new kind of methodology is used in discussing the cases they are categorized according to whether a discrimination or a restriction based analysis was applied by the ECJ
