Red Flag/black Flag; French Revolution, 1968 Patrick Seale, Maureen McConville, 1968 **Red Flag/black Flag** Patrick Seale, Maureen McConville, 1968 **Decolonizing 1968** Burleigh Hendrickson, 2022-11-15 Decolonizing 1968 explores how activists in 1968 transformed university campuses across Europe and North Africa into sites of contestation where students administrators and state officials collided over definitions of modernity and nationhood after empire Burleigh Hendrickson details protesters versions of events to counterbalance more visible narratives that emerged from state controlled media centers and ultimately describes how the very education systems put in place to serve the French state during the colonial period ended up functioning as the crucible of postcolonial revolt Hendrickson not only unearths complex connections among activists and their transnational networks across Tunis Paris and Dakar but also weaves together their overlapping stories and participation in France s May 68 Using global protest to demonstrate the enduring links between France and its former colonies Decolonizing 1968 traces the historical relationships between colonialism and 1968 activism examining transnational networks that emerged and new human and immigrants rights initiatives that directly followed As a result Hendrickson reveals that 1968 is not merely a flashpoint in the history of left wing protest but a key turning point in the history of decolonization Thanks to generous funding from Penn State and its participation in TOME Toward an Open Monograph Ecosystem the ebook editions of this book are available as Open Access volumes from Cornell Open cornellpress.cornell.edu/cornell-open and other repositories **Militant Minority** Benjamin Isitt, 2011-01-01 Militant Minority tells the compelling story of British Columbia workers who sustained a left tradition during the bleakest days of the Cold War Through their continuing activism on issues from the politics of timber licenses to global questions of war and peace these workers bridged the transition from an Old to a New Left In the late 1950s half of B C s workers belonged to unions but the promise of postwar collective bargaining spawned disillusionment tied to inflation and automation A new working class that was educated white collar and increasingly rebellious shifted the locus of activism from the Communist Party and Co operative Commonwealth Federation to the newly formed New Democratic Party which was elected in 1972 Grounded in archival research and oral history Militant Minority provides a valuable case study of one of the most organized and independent working classes in North America during a period of ideological tension and unprecedented material advance **High-Rise Living in Asian Cities** Belinda Yuen, Anthony G.O. Yeh, 2011-02-02 This book is intended to fill a knowledge gap in the study of contemporary high rise living While there has been much documentation on the engineering and technological aspects of tall buildings relatively little has been written about the social and livability of high rise Much less is written about Asian cities even though Asia is the current hotbed of high rise development Even though traditional discourse of high rise housing is not always positive new forces are redefining its place in 21st century urbanity Many cities around the world are reembracing high rise in urban agenda under current narrative of sustainable development High rise is fast becoming a priority area in

international research agenda The quest is for livable and sustainable high rise development Against the background of current trends globalization urbanization mixed use development and new built taller buildings in inner city areas in both developed and developing countries this book examines the software design economics estate management legal and property rights physical environment planning community development and social dimensions of high rise living Analysis is with the widely acclaimed successful high rise public housing in Hong Kong and Singapore to understand the advantages and worries of high rise living and to distill the key points and lessons in the making of a good highrise living environment Hong Kong and Singapore have been constructing high rise for more than four decades each The majority of their population has moved to live in high rise selecting to live high rise and registering consistently high residential satisfaction The height of apartment buildings in both cities continues to rise The tallest is anticipated to be 70 storey It is the contention of this book that contrary to earlier common negative discourses on public high rise living the high rise environment may yet offer urban residents a satisfying dwelling experience Leading housing academics researchers and practitioners in the two cities have contributed to this book This book presents a timely contribution to our understanding of a widening urban phenomenon that will affect a growing number of the world s population The Most Radical Gesture Sadie Plant,2002-01-22 This book is the first major study of the Situationist International Tracing the history ideas and influences of this radical and inspiring movement from dada to postmodernism it argues that situationist ideas of art revolution everyday life and the spectacle continue to inform a variety of the most urgent political events cultural movements and theoretical debates of our times

The Figural Jew Sarah Hammerschlag,2010-05-15 The rootless Jew wandering disconnected from history homeland and nature was often the target of early twentieth century nationalist rhetoric aimed against modern culture But following World War II a number of prominent French philosophers recast this maligned figure in positive terms and in so doing transformed postwar conceptions of politics and identity Sarah Hammerschlag explores this figure of the Jew from its prewar usage to its resuscitation by Jean Paul Sartre Emmanuel Levinas Maurice Blanchot and Jacques Derrida Sartre and Levinas idealized the Jew s rootlessness in order to rethink the foundations of political identity Blanchot and Derrida in turn used the figure of the Jew to call into question the very nature of group identification By chronicling this evolution in thinking Hammerschlag ultimately reveals how the figural Jew can function as a critical mechanism that exposes the political dangers of mythic allegiance whether couched in universalizing or particularizing terms Both an intellectual history and a philosophical argument *The Figural Jew* will set the agenda for all further consideration of Jewish identity modern Jewish thought and continental philosophy **Organicity** Dobereiner David Dobereiner,2019-10-15 Nature is endlessly reinventing itself in a constant flux of movement and diversity Yet the advancement of modern civilization has engendered extreme inequality social division and an imbalance between society and nature Our technological proficiency has given our species the illusion of omnipotence in our efforts to build robots more like us we have not noticed how robotic we ourselves have become To deal

with this profound crisis we must understand this problem at its roots Could the origins of social domination and ecological exploitation be related Is it possible for us to transform these dynamics and design society in a way that is cognizant of and harmonious with the Earth In this visionary book David Dobereiner lucidly delves into the present urban and ecological impasse and examines the prospects for our future Laced with insights into social and political ecology and written with a lifetime's experience of innovating in ecological design *Organicity* shows that there is still hope to build a more humane egalitarian and sustainable system but it requires a fundamental shift in the way we do civilization At the crossroads of creation and destruction will evolution or entropy triumph **Alternative and Activist New Media** Leah A.

Lievrouw, 2013-05-06 *Alternative and Activist New Media* provides a rich and accessible overview of the ways in which activists artists and citizen groups around the world use new media and information technologies to gain visibility and voice present alternative or marginal views share their own DIY information systems and content and otherwise resist talk back to or confront dominant media culture Today a lively and contentious cycle of capture cooptation and subversion of information content and system design marks the relationship between the mainstream center and the interactive participatory edges of media culture Five principal forms of alternative and activist new media projects are introduced including the characteristics that make them different from more conventional media forms and content The book traces the historical roots of these projects in alternative media social movements and activist art including analyses of key case studies and links to relevant electronic resources *Alternative and Activist New Media* will be a useful addition to any course on new media and society and essential for readers interested in new media activism **The Imaginary Revolution** Michael Seidman, 2004-07-01

The events of 1968 have been seen as a decisive turning point in the Western world The author takes a critical look at May 1968 and questions whether the events were in fact as revolutionary as French and foreign commentators have indicated He concludes the student movement changed little that had not already been challenged and altered in the late fifties and early sixties The workers strikes led to fewer working hours and higher wages but these reforms reflected the secular demands of the French labor movement May 1968 was remarkable not because of the actual transformations it wrought but rather by virtue of the revolutionary power that much of the media and most scholars have attributed to it and which turned it into a symbol of a youthful renewed and freer society in France and beyond *Covering for the Bosses* Joseph B. Atkins, 2008 *Covering for the Bosses* Labor and the Southern Press probes the difficult relationship between the press and organized labor in the South from the past to the present day Written by a veteran journalist and first hand observer of the labor movement and its treatment in the region's newspapers and other media the text focuses on the modern South that has evolved since World War II In gathering materials for this book Joseph B Atkins crisscrossed the region interviewing workers managers labor organizers immigrants activists and journalists and canvassing labor archives Using individual events to reveal the broad picture *Covering for the Bosses* is a personal journey by a textile worker's son who grew up in North

Carolina worked on tobacco farms and in textile plants as a young man and went on to cover as a reporter many of the developments described in this book Atkins details the fall of the once dominant textile industry and the region's emergence as the Sunbelt South He explores the advent of Detroit South with the arrival of foreign automakers from Japan Germany and South Korea And finally he relates the effects of the influx of millions of workers from Mexico and elsewhere Covering for the Bosses shows how with few exceptions the press has been a key partner in the powerful alliance of business and political interests that keep the South the nation's least unionized region Joseph B Atkins is a widely published journalist professor of journalism at the University of Mississippi and editor of The Mission Journalism Ethics and the World Stanley Aronowitz is professor of sociology and cultural studies at the Graduate Center of the City University of New York He is the author most recently of Left Turn Forging a New Political Future The Knowledge Factory and How Class Works *The Wind From the East* Richard Wolin, 2017-11-14 How Maoism captured the imagination of French intellectuals during the 1960s Michel Foucault Jean Paul Sartre Julia Kristeva Phillipe Sollers and Jean Luc Godard During the 1960s a who's who of French thinkers writers and artists spurred by China's Cultural Revolution were seized with a fascination for Maoism Combining a merciless exposé of left wing political folly and cross cultural misunderstanding with a spirited defense of the 1960s *The Wind from the East* tells the colorful story of this legendary period in France Richard Wolin shows how French students and intellectuals inspired by their perceptions of the Cultural Revolution and motivated by utopian hopes incited grassroots social movements and reinvigorated French civic and cultural life Wolin's riveting narrative reveals that Maoism's allure among France's best and brightest actually had little to do with a real understanding of Chinese politics Instead it paradoxically served as a vehicle for an emancipatory transformation of French society Recounting the cultural and political odyssey of French students and intellectuals in the 1960s *The Wind from the East* illustrates how the Maoist phenomenon unexpectedly sparked a democratic political sea change in France *The Disobedient Generation* Alan Sica, Stephen P. Turner, 2005-12-15 *The Disobedient Generation* collects newly written autobiographies by an international cross section of well known sociologists all of them children of the 60s It illuminates the human experience of living through that decade as apprentice scholars and activists encountering the issues of class race the Establishment the decline of traditional religion feminism war and the sexual revolution In each case the interlinked crises of young adulthood rapid change and nascent professional careers shaped this generation's private and public selves *The Comparative Policy Process* T. Alexander Smith, 1975 *Global Imagination of 1968* George Katsiaficas, 2018-07-01 This book brings to life social movements of the 1960s a period of world historical struggles With discussions of more than fifty countries Katsiaficas articulates an understanding that is neither bounded by national and continental divides nor focused on Great Men and Women Millions of people went into the streets and their aspirations were remarkably similar From the Prague revolt against Soviet communism to the French May uprising the Vietnam Tet offensive African anticolonial insurgencies the civil rights movement and campus

eruptions in Latin America Yugoslavia the United States and beyond this book portrays the movements of the 1960s as intuitively tied together Student movements challenged authorities in almost every country giving the insurgency a global character and contemporary feminist Latino and gay liberation movements all came to life A focus on the French general strike of May 1968 and the U S movement s high point in 1970 from the May campus strike to the revolt in the military workers wildcat strikes the national women s strike the Chicano Moratorium and the Black Panther Party s Revolutionary Peoples Constitutional Convention in September reveals the revolutionary aspirations of the insurgencies in the core of the world system Despite the apparent failure of the movements of 1968 their profound influence on politics culture and social movements continues to be felt today As globally synchronized uprisings occur with increasing frequency in the twenty first century the lessons of 1968 provide useful insights for future struggles

The American Politics of French Theory Jason Demers,2019-01-01 Working from the premise that May 68 is a shorthand that delimits an intensive decade of global revolt Jason Demers documents the cross pollination of French philosophy international activist movements and American countercultures From the assassinations of Martin Luther King Jr and George Jackson to the revolt at Columbia University the 1968 Democratic National Convention Woodstock and the Weather Underground Demers writes French theory into a constellation of American events and icons uncontained by national borders More than a compelling new take on the history of theory The American Politics of French Theory develops concepts gleaned from the work of Derrida Deleuze Guattari and Foucault providing new tools for thinking about translation theory and politics By recontextualizing French theory within a complex fabric of mass communication and global revolt Demers demonstrates why it is politically potent and methodologically necessary to think of translation associatively

The Booklist and Subscription Books Bulletin,1969-03 *The Foundations of Modern Terrorism* Martin A. Miller,2013 A groundbreaking history of the roots of modern terrorism ranging from early modern Europe to the contemporary Middle East

1968 Wilber W. Caldwell,2009 For the two generations who have grown up since Lyndon Johnson was president the events as well as the thinking behind the revolutionary and romantic pretensions of the 1960s are almost equally unclear This was the era of the Beatles the Rolling Stones and the Summer of Love it was also at the heart of the civil rights and anti War movements The year 1968 saw the assassination of Martin Luther King Jr and Robert F Kennedy the ascendance of the hippies and Yuppies Black Power Neo Marxism and the beginnings of Postmodernism When student radicals occupied Columbia University in 1968 they were showing solidarity with student uprisings in Paris and in Frankfurt This unique novel explores the tensions that were manifest in the student riots in West Germany following the shooting of the student leader Rudi Dutschke the student revolt at Columbia University and the tumultuous French May uprising all of which took place in the spring of 1968 At the heart of the book lie timely concerns regarding the impotence of liberalism within a self perpetuating system that is fluid enough to contain the forces that would bring about real change Technically a novel 1968 walks a fine line between fiction and

nonfiction Through its historically faithful storyline its biographical portrayals of historical figures and its authentic and accurate intellectual grounding 1968 follows an entirely documentary agenda Well researched historical characters include Tom Hayden founder of the U S Students for a Democratic Society SDS Mark Rudd SDS chairman at Columbia Red Rudi Daniel Cohn Bendit Danny the Red now a member of the European Parliament Ted Gold of the explosive Weathermen Karl Wolff of the German SDS Herbert Marcuse father of the New Left Theodor Adorno father of modern Critical Theory Hannah Arendt and the ghosts of Walter Benjamin Charles Baudelaire and Karl Marx They interact with a cast of fictional characters in a real life story of militant politics cultural upheaval and intellectual radicalism Penetrating questions concerning civil disobedience and cultural hegemony run through the book Does revolutionary social change spring from a shift in culture as the hippies saw it Or does a new culture evolve out of revolutionary action as posited by Marx and the New Left What is the proper relationship between theory and practice Is this the revolutionary moment Who will lead the revolution now that working people have been seduced into the very fabric of late capitalism The Capture of Speech and Other Political Writings Michel de Certeau, 1997-01-01 In this foundational exploration of political expression and participation de Certeau examines who has the right to speak how this right is acquired and what happens when this right is denied or inhibited He emphasizes that all too often free speech is upheld in the abstract while social institutions work in such a way to deny access to effective communication
