of Self Discovery is a free verse poem about a young mixed blood European and Indigenous male who during a solo canoe trip discovers hundreds of petroglyphs and pictographs By accident he incites the petroglyphs to dance He commits a grave error by making a rubbing and taking it home It won't dance He returns to the native community of his youth and asks his elders for help He returns to the petroglyph site to make amends and almost dies in the process With the aid of his grandmother's spirit he communicates with many powerful petroglyph and pictograph spirits His native spirit is rekindled as each imparts their particular wisdom The spirits lead him to previously unknown historical sites around the Great Lakes as he unravels his band's history of culture and war This story will attract the attention of native and non native readers It will generate interest into native petroglyphs and pictographs at home and around the world The story will enhance and rekindle interest and education into native spiritual beliefs

Traveling through Time M Gerard Fromm, 2022-02-16 Bullets don't just travel through skin and bone They travel through time These words were tattooed onto the shoulder of a young woman whose father was shot during The Troubles in Northern Ireland This wrenching volatile but also binding truth is the subject of this book It's a truth about traumatic experiences that happen to a family but also to a society and to the organizations that link these intimate units with the larger context of history and culture It's also a truth about the way trauma plays out over time including between generations Grounded in Erik Erikson's way of looking at things the book is a journal of encounters between clinical psychoanalysis and other disciplines and an inquiry into what might be learned there for both Sometimes that learning has to do with trauma the way in which what can't be emotionally contained thought about or spoken in one part of a system is passed along with disorganizing sometimes heartbreaking consequences to another After a reflection on dignity the book examines intergenerational trauma in families including Erikson's It then illustrates how trauma to organizations slips below the threshold of awareness and yet continues to wear down its members The final section examines aspects of the larger society including radicalization war trauma the pandemic and cultural healing What emerges is the sober yet hopeful truth that what people discover by taking their own emotional experiences seriously though that might markedly differ from what is accepted in the everyday world is a primary path toward recovery from trauma

Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and
