REVOLUTION OF 1917

Robert V. Daniels

Red October The Bolshevik Revolution Of

James R. Harris

Red October The Bolshevik Revolution Of:

Red October Robert Vincent Daniels,1967 The Russian Revolution is the collective term for a series of revolutions in Russia in 1917 which dismantled the Tsarist autocracy and led to the creation of the Russian SFSR The Emperor was forced to abdicate and the old regime was replaced by a provisional government during the first revolution of February 1917 March in the Gregorian calendar the older Julian calendar was in use in Russia at the time In the second revolution during October the Provisional Government was removed and replaced with a Bolshevik Communist government Wikipedia **Red October; the Bolshevik Revolution of 1917 [by] Robert V. Daniels** Daniels, Robert Vincent,1967 *Red October* Daniels Robert V.,1984-09-01 **The Bolshevik Revolution** Sylvia Engdahl,2013-11-08 This book explores the events of the Bolshevik Revolution issues surrounding Bolshevik support or oppression of the working class and the impact of Bolshevism on Russia and the world Personal narratives from people who experienced the revolution are included Narratives include the words of none other than Nikolai Podvoisky a key leader of the Bolshevik revolutionaries where he describes their takeover of the Winter Palace In another compelling personal essay an American born Russian princess describes her escape from Bolshevik violence **The Russian Revolution** Sheila Fitzpatrick,2001 The Russian Revolution had a decisive impact on the history of the twentieth century Now following the collapse of the Soviet regime and the opening of its archives it is possible to step back and see the full picture In this classic work the author incorporates data from archives that were previously inaccessible not only to Western but also to Soviet historians as well as drawing on important recent Russian publications such as the memoirs of one of the great survivors of Soviet politics Vyacheslav Molotov Impeccable in its scholarship and objectivity the book tells a gripping story of a Marxist revolution that was intended to transform the world visited enormous suffering on the Russian people and like the French Revolution before it ended up by devouring its own children In a concluding section that will be of great interest to scholars in the field as well as the general reader the author treats the Stalinist Great Purges as the last act of the drama of the Russian Revolution **Modern Revolutions** John Dunn,1989-06-22 Many political regimes today draw such legitimacy as they have from a revolution the destruction of an existing political elite and its replacement by a different group or groups drawn from inside the same society A large part of the ideological dispute in world politics has come in consequence to turn on an interpretation of the character of revolutions as political and social events It is extremely difficult to separate ideological assessments of the desirability or otherwise of what has occurred in revolutions from causal explanations of why these revolutions occurred and both major traditions in the analysis of revolutionary phenomena have been damaged by their failure to distinguish clearly between explanation and assessment In examining eight major revolutions of the twentieth century John Dunn helps readers to remedy this state of affairs by thinking for themselves *Historical Dictionary of the Russian Revolution* Jonathan Davis,2020-05-15 Historical Dictionary of the Russian Revolution focuses on the leading individuals ideas political parties and main events that were

central to the transformation of Russia during the revolution The time period runs from January 1917 through to the Treaty of Brest Litovsk that took Russia out of the First World War in March 1918 It covers the main events ideas people and parties and takes the story of the revolution from the eve of the overthrowing of Tsar Nicholas II through to the Bolshevik seizure of power the first six months of Leninist rule and the Treaty of Brest Litovsk that ended Russia's involvement in the First World War Historical Dictionary of the Russian Revolution contains a chronology an introduction and an extensive bibliography The dictionary section has over 200 cross referenced entries on the revolutions the First World War political parties ideologies and individuals and the main events that defined the course of the Russian Revolution This book is an excellent resource for students researchers and anyone wanting to know more about the Russian Revolution **The Great Fear** James R. Harris, 2016 A new and original explanation of Stalin's Terror showing how Soviet leaders developed a grossly exaggerated fear of conspiracy and foreign invasion and created a Terror that was wholly destructive not merely in terms of human life but also in terms of the interests of the Party that managed it **The Revolution Within the Revolution** Nancy G. Bermeo, 2014-07-14 In this dramatic story of the making and unmaking of Portugal's agrarian reform Nancy Bermeo probes the origins and effects of the workers' actions Originally published in 1986 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Lenin's Legacy* Robert Wesson, 1978-03-01 This concise monograph traces Russian Marxism from its beginnings to mid 1977 shows how and why the party achieved power how it has strengthened its position and how it has undertaken to remold the country and to solve its internal problems Wesson's study is the only up to date party history currently available The book opens with background material on Russian discontent and endeavors to analyze the fundamental nature of Communist Party rule taking into account new perspectives in Lenin's revolution the Stalinist period and the Khrushchev years as well as the latest period not covered in earlier accounts It treats the rise of Lenin the struggle for power after Lenin and after Stalin and the consolidation of Brezhnev's authority As the most recent history of communism in the Soviet Union it has great topical interest and is clearly written for the benefit of the student and general reader as well as the professional The Russian Secret Police Ronald Hingley, 2021-05-30 This book first published in 1970 is an important study of Russia's security services from their earliest years to the mid twentieth century Ronald Hingley demonstrates how the secret police acted both under the Tsars and under Soviet rule as a key instrument of control exercised over all fields of Russian life by an outstandingly authoritarian state He analyses the Tsarist Third Section and Okhrana and their role in countering Russian revolutionary groups and examines the Soviet agencies as they assumed the roles of policeman judge and executioner This masterly

evaluation of Russian and Soviet secret police makes extensive use of hard to find Russian documentary sources and is the first such research that studies Russian political security Muscovite Imperial and Soviet as a whole **CINFAC**

Bibliographic Review ,1967 **The Economic Organization of War Communism 1918-1921** Silvana Malle,2002-08-08

An assessment of the first Soviet economic system comparing programmes with outcomes and theory with practice

Alexander Gumberg and Soviet-American Relations James K. Libbey,2014-07-15 Born in Russia in 1887 Alexander Gumberg immigrated to the United States in 1903 He returned to Russia in 1917 as an American businessman sympathetic to the progress of Russia's Revolution After the Bolshevik seizure of power on November 7 Gumberg became a secretary translator and adviser to the American Red Cross Commission and the Committee on Public Information Through him a Soviet American dialogue formed despite the lack of official relations Gumberg advised congressmen who hoped to establish diplomatic ties between the two countries He helped American publicists publications and institutions which sought to present a favorable or at least balanced picture of Soviet Russia Gumberg did not seek to start a revolution to change the world or to alter the morality of man He did contribute quietly to a better understanding between the future superpowers when their normal ties had been broken **Culture of the Future** Lynn Mally,1990-01-01 Mally's book moves the study of

an important revolutionary cultural experiment from the realm of selective textual analysis to wide ranging social and institutional history It reveals vividly the social cultural tensions and values inherent in the Russian revolutionary period and adds authoritatively to the rapidly emerging literature on cultural revolution in Russia and in the modern world at large Richard Stites Georgetown University Mally's book moves the study of an important revolutionary cultural experiment from the realm of selective textual analysis to wide ranging social and institutional history It reveals vividly the social cultural tensions and values inherent in the Russian revolutionary period and adds authoritatively to the rapidly emerging literature on cultural revolution in Russia and in the modern world at large Richard Stites Georgetown University **Socialism in**

Marx's Capital Paresh Chattopadhyay,2021-02-05 This book explores how Marx envisaged society after capitalism by a close examination of the ideas of socialism in the texts of Capital Going beyond Marx's critique of the Gotha Programme Paresh Chattopadhyay challenges those who leave Capital aside in discussions of socialism in Marx's works on the grounds that it is uniquely preoccupied with the critical analysis of capitalism Instead Chattopadhyay shows how Marx in Capital considered capitalism as a simple transitional society preparing the advent of socialism envisioned as an association of free and equal individuals **States of Memory** Jeffrey K. Olick,2003-07-21 A journal into book collection on national memory focusing on

commemorations collective apologies and historical revisions now enhanced by the addition of 6 essays by senior historical sociologists **St. Louis and Empire** Henry W Berger,2015-04-23 At first glance St Louis Missouri or any American city for that matter seems to have little to do with foreign relations a field ostensibly conducted on a nation state level However St Louis despite its status as an inland river city frequently relegated to the backwaters of national significance has stood at the

crossroads of international matters for much of its history From its eighteenth century French fur trade origins to post Cold War business dealings with Latin America and Asia the city has never neglected nor been ignored by the world outside its borders In this pioneering study Henry W Berger analyzes St Louis s imperial engagement from its founding in 1764 to the present day revealing the intersection of local political cultural and economic interests in foreign affairs Berger uses a biographical approach to explore the individuals and institutions that played a leading role in St Louis s expansionist reach He shows how St Louis business leaders entrepreneurs politicians and investors often driven by personal and ideological motives as well as the potential betterment of the city and its people looked to the west southwest Latin America Europe Asia and the Pacific to form economic or political partnerships Among the people and companies Berger profiles are Thomas Hart Benton who envisioned a western democratic capitalist empire hosted by St Louis cotton exporters James Paramore and William Senter who were involved in empire building in the southwest and Mexico St Louis oil tycoon and railroad investor Henry Clay Pierce who became deeply involved in political intrigue and intervention in Mexican affairs entrepreneur and politician David R Francis who promoted personal and St Louis interests in Russia and McDonnell Douglas and its founder James S McDonnell Jr who were part of the transformation of St Louis s political economy during the Cold War Many of these attempted imperial activities failed but even when they succeeded Berger explains the economy and the people of St Louis did not usually benefit The vision of a democratic capitalist empire embraced by its exponents proved to be both an illusion and a contradiction By shifting the focus of foreign relations history from the traditional confines of nation state conduct to city and regional behavior this innovative study highlights the domestic foundations and content of foreign policy opening new avenues for study in the field of foreign relations The Discoursal Use of Phraseological Units Elena

Arsenteva,2021-10-22 The book is devoted to various problems of the discoursal use of phraseological units PUs It explores both core use and contextual use of such units as well as different types of PU modifications including addition deletion substitution cleft use phraseological pun and extended metaphor among others In addition the book also considers the translation of these modifications which often present a very serious issue **The Soviet Colossus** Michael G.

Kort,2015-05-18 The twentieth century was not kind to Russia Despite its great potential and remarkable achievements the country also bore the weight of two world wars a revolution and civil war totalitarian tyranny famine and ecological destruction economic ruin and imperial decline Will Russia ever be prosperous peaceful and free Seeking clues in the past Michael Kort revisits earlier turning points in Russia s history from the fall of the old regime to the establishment of the Bolshevik dictatorship and Stalinist totalitarianism from the reforms and counter reforms of Khrushchev and Brezhnev to the tumultuous years of change under Gorbachev and Yeltsin Which strands of Russia s past is their successor Vladimir Putin weaving into the fabric of the present and which are being allowed to fade for better or worse This new edition of *The Soviet Colossus* brings the story up through the first decade of the twenty first century Distinctively readable judicious and focused

on critical events and questions it integrates new revelations about the Soviet past and ongoing debates about the Soviet regime as well as its successor It is the ideal text for as one semester history course or background for a political science course

Embracing the Track of Term: An Mental Symphony within **Red October The Bolshevik Revolution Of**

In a world eaten by monitors and the ceaseless chatter of instantaneous interaction, the melodic elegance and mental symphony created by the prepared term often disappear in to the backdrop, eclipsed by the constant noise and interruptions that permeate our lives. Nevertheless, situated within the pages of **Red October The Bolshevik Revolution Of** a wonderful fictional treasure overflowing with raw emotions, lies an immersive symphony waiting to be embraced. Crafted by an elegant composer of language, that fascinating masterpiece conducts visitors on a mental journey, skillfully unraveling the concealed melodies and profound influence resonating within each cautiously crafted phrase. Within the depths with this emotional review, we shall discover the book is main harmonies, analyze its enthralling writing fashion, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
