Red Robert The Life Of Robert Birley:

Red Robert Arthur Hearnden, 1984 Red Robert Arthur Hearnden, 1984 Afterlife of Empire Jordanna Bailkin, 2012-11-15 This book investigates how decolonization transformed British society in the 1950s and 1960s and examines the relationship between the postwar and the postimperial **Red Round Globe Hot Burning** Peter Linebaugh, 2019-03-26 On February 21 1803 Colonel Edward Ned Marcus Despard was publicly hanged and decapitated in London before a crowd of 20 000 for organizing a revolutionary conspiracy to overthrow King George III His black Caribbean wife Catherine Kate helped to write his gallows speech in which he proclaimed that he was a friend to the poor and oppressed He expressed trust that the principles of freedom of humanity and of justice will triumph over falsehood tyranny and delusion And yet the world turned From the connected events of the American French Haitian and failed Irish Revolutions to the Anthropocene s birth amidst enclosures war making global capitalism slave labor plantations and factory machine production **Red Round Globe Hot Burning** throws readers into the pivotal moment of the last two millennia This monumental history packed with a wealth of detail presents a comprehensive chronicle of the resistance to the demise of communal regimes Peter Linebaugh s extraordinary narrative recovers the death defying heroism of extended networks of underground resisters fighting against privatization of the commons accomplished by two new political entities the U S A and the U K that we now know would dispossess people around the world through today **Red Round Globe Hot Burning** is the culmination of a lifetime of research encapsulated through an epic tale of love **Britain and Germany in Europe, 1949-1990** Jeremy Noakes, Peter Wende, Jonathan Wright, 2002 Anglo German relations since 1945 have been generally cordial but subject to bouts of acute tension This volume by leading historians from both countries examines major political issues and broader contacts between the two societies It suggests that British perceptions have remained coloured by fears of German dominance aggravated by the success of the Federal Republic and the relative decline of Britain in the post war period **A British Education Control Officer in Occupied Germany, 1945-1949** David Phillips, 2023-11-30 Edward Aitken Davies 1899 1981 served as an Education Control Officer in the British Zone of occupied Germany from the early summer of 1945 until December 1949 He thus experienced the implementation of policy in the Zone from the very beginnings of the occupation until the founding of the Federal Republic of Germany in 1949 During the period 1945 to 1947 he wrote weekly letters home to his mother Those letters together with the many speeches he gave in Germany during his time as a leading British officer in the Hanover region have not hitherto been available to researchers but can now be made accessible in edited form The letters are placed in the context of developments in British policy and with explanatory notes on the detail Taken together his letters and other documents provide insights into the day to day lives of the impressive group of individuals who oversaw the development of education in Germany from post war chaos to the reform and stability which restored the education system of the country to a pre eminent status in Europe *RAB: The Life of R.A. Butler*

Anthony Howard,2013-02-07 Richard Austin Butler remains the great enigma of post war British politics Independent indiscreet and never anything but irreverent Butler commanded the respect of both sides of the Commons and would have been on several occasions the people s choice for premier From his entry into politics in 1929 to his retirement from that arena in 1965 Butler s story is also that of British political life through almost four decades Scarred by his association with the appeasers of Munich he won the respect of the nation as the architect of the 1944 Education Act From the viewpoint of these times of Tory wets and dries Butler appears the victim of the age that divided gentlemen from players In these pages one of our most distinguished political journalists offers a revealing portrait of the best Prime Minister we never had

Making a Man of Him Christine Heward,2017-06-26 Originally published in 1988 this book analyses the effect of public boarding school it places the particular concerns of a relatively small group within the much wider contexts of education social and gender structure

Teaching a Dark Chapter Daniela R. P. Weiner,2024-07-15 Teaching a Dark Chapter explores how textbook narratives about the Fascist Nazi past in Italy East Germany and West Germany followed relatively calm undisturbed paths of little change until isolated flashpoints catalyzed the educational infrastructure into periods of rapid transformation Though these flashpoints varied among Italy and the Germanys they all roughly conformed to a chronological scheme and permanently changed how each dark past was represented Historians have often neglected textbooks as sources in their engagement with the reconstruction of postfascist states and the development of postwar memory culture But as Teaching a Dark Chapter demonstrates textbooks yield new insights and suggest a new chronology of the changes in postwar memory culture that other sources overlook Employing a methodological and temporal rethinking of the narratives surrounding the development of European Holocaust memory Daniela R P Weiner reveals how long before 1968 textbooks in these three countries served as important tools to influence public memory about Nazi Fascist atrocities As Fascism had been spread through education then education must play a key role in undoing the damage Thus to repair and shape postwar societies textbooks became an avenue to inculcate youths with desirable democratic and socialist values Teaching a Dark Chapter weds the historical study of public memory with the educational study of textbooks to ask how and why the textbooks were created what they said and how they affected the society around them

Approaches to the Study of Contemporary Germany Jonathan Grix,2002-09-30 The 10 essays of this collection are derived from a group of courses developed by the U of Birmingham s UK Institute for German Studies which is devoted to the social sciences The essays consider the British research methods used for studying issues in Germany by researchers in economics pol **Educating the Germans** David Phillips,2018-06-28 Educating the Germans examines the role of the British in the reconstruction of education in occupied Germany from 1945 to 1949 It covers war time planning for a future role in overseeing education at all levels in Germany looks at policy and its implementation describes the British personnel involved and their interaction with German authorities and assesses the lasting effects of the British effort in securing the future development of education from

Kindergarten to university in the emerging Federal Republic Thoroughly researched and employing a wide range of sources in Britain and Germany this is an important study for anyone looking to further their understanding of Germany and Britain's relationship with Germany in the immediate post war era The Church of England and the Holocaust Tom Lawson,2006 Explores the Church of England's understanding of the Third Reich and its impact on the reactions to and memory of the Holocaust in Britain Argues that the Anglican Church did not engage with the Third Reich through the prism of the persecution of the Jews English Christians commonly perceived Nazism as significant through its anti Christianity as an attack on Christian culture and not through its antisemitism In the 1930s the Church was opposed to war but when Nazi antisemitism became much more pronounced after 1938 the Church incorporated this persecution into its image of Nazism as anti Christian While there was some concern for Jewish victims especially on the part of George Bell and William Temple particular concern was expressed for the German Christian victims of totalitarianism This led the Anglican Church after the war to favor reconstruction of West Germany as a buffer against communism and anti Christianity The Church objected to war crimes trials as being opposed to Christian forgiveness vs the Jewish value of vengeance a view which sought to reduce the significance of Nazi antisemitism and the Holocaust **Dictionary of British Educationists** Richard Aldrich,Peter Gordon,2016-04-01 This dictionary provides the reader with an easily accessible guide to the biographies of approximately 450 educationists It covers the period from 1800 to the present day and includes a wide range of people who were active in promoting education at different levels *Between Two Fires* John Kane-Berman,2017-03-15 John Kane Berman is uniquely qualified to look back over the enormous political and social changes that have taken place in his lifetime in this fractious country In his career as student leader Rhodes Scholar newspaperman independent columnist commentator and Chief Executive for thirty years of the South Africa Institute of Race Relations Kane Berman has been at the coal face of political change in South Africa The breadth and depth of ideas and events covered in *Between Two Fires* are striking the disintegration of apartheid the chaos of the people's war and its contribution to the broader societal breakdown we see today the liberal slideaway the rise of an authoritarian ANC with its racial ideology and revolutionary goals to mention only a few It is a book of fizzing ideas Kane Berman's willingness to confront received wisdom is thoroughly refreshing and he is forthright about the threats to freedom democracy and growth in contemporary South Africa many of which he identified even before the ANC came to power He is equally forthright in putting forward liberal ideas to halt the country's downward slide Writing debate and reasoned argument are Kane Berman's stock in trade and his clarity of vision and personal insight have created a memoir of rare candour and absorbing interest Education and Policy in England in the Twentieth Century Richard Aldrich,Dennis Dean,Peter Gordon,2013-05-13 In the 1990s education has become one of the major social and political questions of the day This book has been written to provide an authoritative guide to the issues which underlie the formulation of educational policy It stands both as a substantial historical study in its own right and as an essential

background and introduction to the current educational debate

The Life of Learning Douglas Greenberg, Stanley Nider Katz, 1994 The American Council of Learned Societies was formed in 1919 to support humanistic learning in the United States and to represent American scholarship abroad When John William Ward became President of the ACLS in 1982 he believed that the ACLS's tradition of high caliber scholarship and teaching should be commemorated through an annual lecture delivered by a distinguished humanist on the life of learning As a result of Ward's vision each year since 1983 the American Council of Learned Societies has invited one of America's leading scholars to deliver the Haskins Lecture in honor of Charles Homer Haskins a distinguished scholar and teacher who was instrumental in the founding of the ACLS In this volume which commemorates the 75th anniversary of the ACLS Douglas Greenberg and Stanley Katz bring together the lectures presented by ten of America's most distinguished scholars Each lecture is a personal and intellectual glimpse into the life of learning of such celebrated scholars as Maynard Mack Annemarie Schimmel and John Hope Franklin The lectures focus on self reflection of lives dedicated to learning rather than on scholarship in the usual sense of the term Ranging from being forced to learn Latin to painful memories of war and racism the lecturers all recount stories from their eventful lives Each offers thoughts on the body of work he or she has produced and the forces personal and intellectual that have shaped it The scholars bring something of their disciplines to the lectures sharing not only personal anecdotes but their love of learning The range of disciplines the lecturers come from represents the diversity of the scholarship supported by the ACLS Their lectures offer a unique intellectual history of some of our most renowned scholars and will also serve as a history of the Council the role it has played in fostering scholarship and the vast contributions it has made to American letters throughout the past seventy five years

David Astor Jeremy Lewis, 2016-03-03 Few newspaper editors are remembered beyond their lifetimes but David Astor of the Observer is a great exception to the rule He converted a staid Conservative supporting Sunday paper into essential reading admired and envied for the quality of its writers and for its trenchant but fair minded views Astor grew up at Cliveden the country house on the Thames which his grandfather had bought when he turned his back on New York the source of the family fortune His liberal minded father was a constant support but his relations with his mother Nancy were always embattled At Oxford he suffered the first of the bouts of depression that were to blight his life a lost soul for much of the Thirties he became involved in attempts to put the British Government in touch with the German opposition in the months leading up to the war George Orwell had urged Astor to champion the decolonisation of Africa and Nelson Mandela always acknowledged how much he owed to the Observer's long standing support A generous benefactor to good causes he helped to set up Amnesty International and Index on Censorship A good man and a great editor he deserves to be better remembered

The Contemporary Review ,1983

The Political Re-Education of Germany and her Allies Nicholas Pronay,Keith Wilson,2019-06-26 Originally published in 1985 this book provides an important insight into the principal aspects of the history of the policy and practice of political re education from its origins to 1951 Political re education was the British alternative to the ideas put forward by the USA and the USSR in the common search for a post war policy which would permanently prevent the resurgence of Germany for a third time as a hostile military power It was adopted as Allied policy and remains one of the boldest and most imaginative policies in history for securing lasting peace This book discusses the question of the place of this policy in the preservation of peace and the integration of Germany and Japan into the community of their historical enemies
