Red Star Over Kabul:

Red Star Over the Third World Vijay Prashad, 2019-04-20 From Cuba to Vietnam from China to South Africa the October Revolution inspired millions of people beyond the territory of Russia The Revolution proved that the masses could not only overthrow autocratic governments but also form an opposing government in their own image The new idea that the working class and the peasantry could be allied combined with the clear strength and necessity of a vanguard party guided multiplying revolutions across the globe This book explains the ideological power of the October Revolution in the Global South From Ho Ch Minh to Fidel Castro to reflections on polycentric Communism and collective memories of Communism it shows how for a brief moment another world was possible It is not a comprehensive study but a small book with a large hope that a new generation will come to see the importance of this revolutionary spirit for the working class and peasantry in the parts of the world that suffered under the heel of colonial domination for centuries Red Star Over Kabul Madhav Madane, 1993 The Statesman's Year Book: 1992-93 B. Harrison, 1995-06-29 When the Soviet Union pulled its forces out of Afghanistan the American media had a simple explanation Soviet troops had been hounded out of the mountains by U S armed guerrillas the skies cleared of Soviet aircraft by Stinger missiles until the Kremlin was forced to cry uncle But Diego Cordovez and Selig S Harrison shatter this image Out of Afghanistan shows that the Red Army was securely entrenched when the Soviet Union agreed to withdraw American weaponry and Afghan bravery raised the costs for Moscow but it was six years of skillful diplomacy that gave the Russians a way out Cordovez and Harrison provide the definitive account of the Soviet blunders that led up to the invasion and the bitter struggles over the withdrawal that raged in the Soviet and Afghan Communist parties and the Reagan Administration The authors are particularly well suited to their task Cordovez was the United Nations mediator who negotiated the Soviet pullout and Harrison is a leading South Asia expert with four decades of experience in covering Afghanistan Their story of the U N negotiations is interwoven with a gripping chronicle of the war years complete with palace shootouts in Kabul turf warfare between rival Soviet intelligence agencies and the CIA role in building up Islamic fundamentalist guerrilla leaders at the expense of Afghan

moderates Cordovez opens up his diaries to take us behind the scenes in his negotiations and Harrison draws on interviews with Mikhail Gorbachev former Secretary of State George Shultz and other key actors The result is a book full of surprises For example the authors demonstrate that the Soviets intervened not out of a desire to drive to the Indian Ocean but out of a fear of a U S supported Afghan Tito Rebuffs by hardline bleeders in the Reagan Administration undermined efforts by Yuri Andropov to secure a settlement before his death in 1983 Even more startling Gorbachev resumed the search for a negotiated withdrawal more than a year before the first American supplied Stinger missiles were deployed in the war The Soviet intervention in Afghanistan was one of the pivotal events of recent history Out of Afghanistan destroys many of the myths surrounding the Afghan war and will have a profound impact on the emerging debate over how and why the Cold War ended

On Dissidents and Madness Robert van Voren,2009 The book contains the memoirs of Robert van Voren covering the period 1977 2008 and provides unique insights into the dissident movement in the Soviet Union in the 1980s both inside the country and abroad As a result of his close friendship with many of the leading dissidents and his dozens of trips to the USSR as a courier he had intimate knowledge of the ins and outs of the dissident movement and participated in many of the campaigns to obtain the release of Soviet political prisoners In the late 1980s he became involved in building a humane and ethical practice of psychiatry in Eastern Europe and the ex USSR based on respect for the human rights of persons with mental illness The book describes the dissident movement and many of the people who formed it mental health reformers in Eastern Europe and the response of the Western psychiatric community the battle with the World Psychiatric Association over Soviet and later Chinese political abuse of psychiatry his contacts with former KGB officers and problems with the KGB s successor organization the FSB It also vividly describes the emotional effects of serving as a courier for the dissident movement the fear of arrest the pain of seeing friends disappear for many years into camps and prisons sometimes never to return
