Red Army Resurgent World War II Series:

Red Army Resurgent John Shaw, 1979 Tells the suffering of the Russians and how they turned the tide **The Organization and Order of Battle of Militaries in World War II** D. Pettibone Charles D. Pettibone, Charles D. Pettibone, 2009-11 THE ORGANIZATION AND ORDER OF BATTLE OF MILITARIES IN WORLD WAR II CHARLES D. PETTIBONE, 2013-05-31 There are numerous order of battle books on the market So what makes this one so special Why should one decide on this particular book Most order of battle books usually deal only at the division and corps level of a country's army Most higher commands are not covered This book deals with all the branches of a country's military giving a breakdown of all the major echelons of command from theater down to brigade under each component army groups armies corps divisions and brigades and the equivalent command structure for the other military branches are included Second it attempts to give an overall command structure of the country's military showing the central headquarters command structure as well as the major components army groups armies corps etc Third most order of battle books list the commander and their dates of tenure This book includes those but also lists their next duty assignments or where they went after leaving the post One can literally trace a general officer's career through the upper echelons of command making this completely different from all the other books on order of battle in the market The Organization and Order of Battle of Militaries in World War II Charles D. Pettibone, 2012-01-16 There are numerous Order of Battle books on the market So what makes this one so special Why should one decide on this particular book Most Order of Battle books usually deal only at the division and corps level of a country's army Most higher commands are not covered This book deals with all the branches of a country's military giving a breakdown of all the major echelons of command from theater down to brigade under each component army group armies corps division and brigade and the equivalent command for the other military branches are included Second it attempts to give an overall command structure of the country's military showing the central headquarters command structure as well as the major components army groups armies corps etc Third most Order of Battle books list the commander and their dates of tenure This one includes those but also lists their next duty assignments or where they went after leaving the post One can literally trace a general officer's career through the upper echelons of command making this series completely different from all the others on the market *Eagles of the Third Reich* Samuel W. Mitcham, 2007-07-25 Character based study of why the German air force was defeated Recounts the Luftwaffe in combat from the blitzkrieg of 1939-40 and the Battle of Britain to the Eastern Front and the Normandy campaign *Fighting for Freedom*, 1990 **Special Bibliography Series**, 1957 **Revolution, Counterrevolution and Assassination After World War II** Robert C. Cottrell, 2024-12-13 In response to the upheavals engendered by World War II revolutions broke out or loomed throughout the world Nationalist aspirations proved global in nature ironically empowered by the Cold War In Asia the Middle East Latin America and Africa revolutions and counterrevolutions proliferated and similar disruptions threatened to unfold in Europe

and North America Social upheavals began to occur in Vietnam Mandatory Palestine China Algeria Ghana and Cuba Conservative and reactionary forces frequently pushed back quashing hopeful developments like the Guatemalan Spring the Hungarian Revolution and the Prague Spring while also readily resorting to the murder of leading progressive figures from Gandhi to Navalny The second volume of this detailed history explores the rippling effects of World War II across the globe including countries experiencing colonial or neocolonial relationships This book examines the interplay between modern revolutionary movements and campaigns seeking to prevent such movements or to reestablish a history and time that never really existed It also traces the deadly resort to politically motivated killings which cut short the lives of so many distinguished sometimes beloved figures whose loss is still felt decades later

Democide R. J. Rummel, 2022-01-26 This volume is part of a comprehensive effort by Professor Rummel to understand and place in historical perspective the entire subject of genocide and mass murder what is herein called Democide It is the third in a series of volumes in which Rummel offers a comprehensive analysis of the 120 000 000 people killed as a result of government action or direct intervention Curiously while we have a considerable body of literature on the Nazi Holocaust we do not have a total accounting at least not until now with the issuance of Democide In addition to the quantitative lacunae there remains a paucity of theoretical information distinguishing the historical descriptive and the anecdotal accounts This study of Nazi killings in cold blood is a path finding effort in political psychology While Rummel does not claim to give a definitive accounting his explanation for the numbers reached and they are high is compelling In addition we now have a correlation of information on the murder of diverse groups Jews Gypsies Poles Ukrainians and even Germans themselves It is now possible to fathom the Nazi genocidal policies which were collective and which were selective Rummel's volume is a clear guide to a murky past It offers the first systematic effort to ascertain the nature and the extent of the Nazi genocide from the point of view of the perpetrator's aims rather than the victims consequences This is not a pretty picture but it is not a partisan one either The materials are presented in a clinical as well as a systemic fashion Rummel has a deep sense of the life saving instincts of individuals and the life taking propensities of impersonal state machinery It is thus a humanistic effort one that plumbs the effects of the Nazi war machine on innocents in order to better understand present conditions Professionals ranging from social scientists to demographers will find this a quintessential effort at political reconstruction

Men of the Luftwaffe Samuel W. Mitcham, 1988
