provides a comprehensive account of the war's military history. An international team of leading historians charts how a war made possible by globalization and imperial expansion unfolded into catastrophe growing year by year in scale and destructive power far beyond that which anyone had anticipated in 1914. Adopting a global perspective, the volume analyses the spatial impact of the war and the subsequent ripple effects that occurred both regionally and across the world. It explores how imperial powers devoted vast reserves of manpower and material to their war efforts and how by doing so they changed the political landscape of the world order. It also charts the moral, political and legal implications of the changing character of war and in particular the collapse of the distinction between civilian and military targets. *Monthly Bulletin - League of Red Cross Societies*, 1927 Aero and Hydro Edmond Percy Noël, 1912 **Official U.
