Regional Security Ethnicity And Governance:

Regionalism and Regional Security in South Asia Zahid Shahab Ahmed, 2016-04-08 Zahid Shahab Ahmed evaluates the progress of the South Asian Association for Regional Cooperation SAARC. This study goes beyond economic integration to present a detailed appraisal of cooperation under the overarching themes of economic cooperation, environmental security, human welfare, and cooperation in security matters. According to the author, SAARC is making progress in addressing the myriad of issues on its agenda. The transition from agreements to actions and frequent interactions among the member states has boosted confidence. The progress of SAARC is more evident in the less controversial areas of human security such as poverty alleviation, health and safety, human resources development, and higher education. Notwithstanding enthusiastic commitments reflected in agreements and action plans, there is a gulf between rhetoric and implementation, most notably in sensitive areas relating to traditional security. In the light of the findings of this study, the author proposes that greater cooperation in common human security areas has a potential to pave the way for a cooperation on issues of a contentious nature, particularly terrorism.

Regional Security, Ethnicity and Governance Justus Richter, Christian Wagner, 1998. The current history of a number of South Asian countries is beset with problems both with their own minorities and in some cases with their neighbours. Despite substantial economic progress, their social fabric is threatened by the common foes of widespread poverty and underdevelopment, particularly in rural areas. This volume analyses implications of this general problematic focussing on the issues of governance and the nature of the state in post-colonial societies. Collectively, it questions the conventional view of incremental development, juxtaposes traditional modes of governance with the new and innovative instruments, and seeks to strike a balance between the vision of statesmen and their follies.

Understanding Security Practices in South Asia Monika Barthwal-Datta, 2012-05-04. This book explores the ways in which non-state actors (NSAs) in South Asia are involved in securitizing non-traditional security challenges in the region at the sub-state level. South Asia is the epicentre of some of the most significant international security challenges today. Yet the complexities of the region's security dynamics remain under-researched. While traditional security issues such as inter-state war, border disputes, and the threat of nuclear devastation in South Asia remain high on the agendas of policy makers and academics, both within and beyond the region, scant attention has been paid to non-traditional or new security challenges. Drawing on various case studies, this work offers an innovative analysis of how NSAs in South Asia are shaping security discourses in the region and tackling security challenges at the sub-state level. Through its critique of securitization theory, the book calls for a new approach to studying security practices in South Asia, one which considers NSAs as legitimate security actors. This book will be of much interest to students of security studies, Asian security, Asian politics, critical security studies, and IR in general.

Living Together After Ethnic Killing Roy Licklider, Mia Bloom, 2013-10-23 This volume attempts to critically analyze Chaim Kaufman's ideas from various methodological perspectives with the view of further understanding how stable states may arise after violent ethnic conflict and to generate important debate in the area After the Cold War the West became optimistic of their ability to intervene effectively in instances of humanitarian disasters and civil war Unfortunately in the light of Bosnia Somalia and Rwanda questions of the appropriate course of action in situations of large scale violence became hotly contested A wave of analysis considered the traditional approach of third parties attempting to ensure that the nation was built on the basis of a ruling power share between the opposing sides of the conflict to be overwhelmingly problematic and perhaps impossible Within this movement Kaufman wrote a series of articles advocating separation of warring sides in order to provide stability in situations of large scale violence His theorem provoked extreme responses and polarized opinion contradicting the established position of promoting power sharing democracy and open economies to solve ethnic conflict

and had policy implications for the entire international community This book was previously published as a special issue of Security Studies
