Regionalism Business Interests And Public Policy:

The Political Construction of Business Interests Cathie Jo Martin, Duane Swank, 2012-03-30 The Political Construction of Business Interests recounts employers struggles to define their collective social identities at turning points in capitalist development

Organized Business Interests in Changing Environments J. Grote, A. Lang, V. Schneider, 2008-11-03 A book on the path dependent and path creating structures and attitudes of business interest associations in a world of Europeanization and internationalization of markets It includes empirical data on relational information used for network analytic purposes drawn from hundreds of interviews with CEOs

Handbook of Business Interest Associations, Firm Size and Governance Franz Traxler, Gerhard Huemer, 2007-05-07 This Handbook presents a theory of Business Interest Associations and fifteen empirical country by country case studies in the EU The book is organized into three main parts Part I develops a theory of business associations which centres on firm size as the key explanatory variable Part II consists of country studies covering the EU 15 which are written along strictly comparable lines of analysis Part III contains the cross nationally comparative analysis The book will make essential reading for researchers working in organization studies industrial relations industrial sociology and political science as well as practioners in related fields

Regionalism, Business Interests and Public Policy William Donald Coleman, Henry J Jacek, 1989-12 This book explores and assesses the importance of the relationship between regional protest movements and the territorial organization of business interests Drawing on comparative research into business interest associations in nine countries in Europe and North America the authors show that regional differentiation is an important feature of systems of business associations in all countries This book includes case studies of countries where such movements are an important phenomenon Spain Switzerland France Belgium Canada and the UK It also includes contrasting studies from West Germany and the USA where regional movements have not been a prominent feature of national political life

Transnational Financial Associations and the Governance of Global Finance Heather McKeen-Edwards, Tony Porter, 2013-02-11 The role of business in global governance is now widely recognized but exploration of its role in global financial governance has been more haphazard than systematic This book provides the first comprehensive analysis of the role of transnational financial associations TFAs in the organization of global finance This book develops three theoretical themes of assemblage functionality and power as enrolment These themes challenge approaches that treat financial power as emanating from a single location or force Whilst existing approaches tend to treat TFAs as irrelevant or as merely transmitting power originating elsewhere this book argues that power must be created by painstakingly assembling actors networks and objects that are often quite autonomous and working at cross purposes to one another a process in which TFAs play a central role The book explores these themes in chapters examining the roles of TFAs in interacting with public authorities constructing global financial markets and creating financial communities The authors additionally analyse the roles of TFAs in the European Union in the Global South and in promoting goals other than

profitability including Islamic finance microfinancing savings banks and cooperatives Making a distinctive contribution to our understanding of global finance and global governance Transnational Financial Associations and the Governance of Global Finance is an important book for students and scholars of international political economy finance global governance and international relations *Breakdown and Change of Private Interest Governments* Claudius Wagemann, 2014-06-23

Examines how Private Interest Governments have changed as a form of public sector economic regulation **Remaking the Union** Howard Elcock, Dr Michael Keating, 2013-01-11 This volume addresses the issues arising from the recent devolution referenda by exploring the historical development of the proposals the importance of national and regional identities the changing policies of the political parties and the approaches of business and other major groups towards devolution It also looks at the impact on electoral reform coming from the proposal that proportional representation be used to elect the regional assemblies and how the new assemblies are to be financed Finally the book discusses the implications of a devolved British state where different countries and regions achieve different levels of autonomy at different paces

Regions in Europe Patrick Le Gales, Christian Lequesne, 2006-02-27 Regions in Europe explores the state of regional politics in an increasingly integrated Europe It argues that the predicted rise of increased political power at the regional level has failed to materialise and is fraught with paradox In doing so this study locates regions in relation to European integration globalisation the nation state local government and comparative and national perspectives Using case studies of the main players in Europe including Germany France UK Italy Spain the Netherlands Belgium the contributors show how and why European regions remain remarkably weak in European governance **Pathways to Industrialization and**

Regional Development Allen J. Scott, Michael Storper, 2005-09-27 The world has seen a shift in socio economic relations in the patterns and processes of industrialization and regional development The social regulation of the economic order flexible production organization and industrial district formation have brought periods places and pathways to the heart of economic debate Pathways to Industrialization and Regional Development provides a platform from which to address a new economic order All the major schools of thought are represented Focussing upon the interactions between economic logic and political institutions at both the local and global levels the authors set the agenda for the 1990s The Origins of National Financial Systems Douglas J. Forsyth, Daniel Verdier, 2003-08-29 This book poses a systematic challenge to Gerschenkron's 1950s thesis on universal banks With contributions from leading scholars including Ranald Michie and Jaime Reis it provides solid and intriguing arguments throughout
