Register Of Thomas Rotherham Archbishop Of York 14801500 I:

The Register of Thomas Rotherham, Archbishop of York, 1480-1500 Eric Ernest Barker, 1976 The Heads of Religious Houses David M. Smith, Vera C. M. London, 2001-08-09 This book is a continuation of The Heads of Religious Houses England and Wales 940 1216 edited by David Knowles C N L Brooke and Vera London which itself is reissued with substantial addenda by Professor Brooke This present volume continues the lists from 1216 to 1377 In this period further record sources have been provided by episcopal registers governmental enrolments court records and so on Full references are given for establishing the dates and outline of the career of each abbot or prior abbess or prioress when known The lists are arranged by order the Benedictine houses independent dependencies and alien priories the Cluniacs the Grandmontines the Cistercians the Carthusians the Augustinian canons the Premonstratensians the Gilbertine order the Trinitarian houses the Bonhommes and the nuns An introduction discusses the nature use and history of the lists and examines critically the sources on which they are based **Calendar of Entries in the Papal Registers Relating to Great Britain and Ireland** Catholic Church. Pope, Great Britain. Public Record Office, 1986 **Christian Names in Local and Family History** George Redmonds, 2004-04-13 Surnames have long provided key links in historical research This ground breaking work shows that English christian names are also significant for those researching local communities and family history and that they are a fascinating topic in their own right Did you know for instance that the names Philip and Thomas were once used for girls Or that there was a woman called Diot Coke in 1379 When George Redmonds became interested in christian names he found that the information on his own name in dictionaries was contradicted by local records and that the standard works emphasis on etymology only gave part of the story Half a lifetime s research has convinced him that every christian name has a pedigree which can be regional local or even centered on one family Here he explores the implications of this for both amateur and academic historians Drawing on examples from Anne to Zaccheus he covers a wealth of topics including the stabilisation of first names as surnames the influence of individuals parents godparents and communities on naming the popularity of names over the last 700 years and more recent changes in naming practice He challenges many published assumptions and offers new insights into the customs and attitudes of our ancestors from the Middle Ages to the present day

Music in North-east England, 1500-1800 Stephanie Carter, Kirsten Gibson, Roz Southey, 2020 This collection situates the North East within a developing nationwide account of British musical culture **Seeking Sanctuary** Shannon McSheffrey, 2017-06-30 Seeking Sanctuary explores a curious aspect of premodern English law the right of felons to shelter in a church or ecclesiastical precinct remaining safe from arrest and trial in the king s courts This is the first volume in more than a century to examine sanctuary in England in the fifteenth and sixteenth centuries Looking anew at this subject challenges the prevailing assumptions in the scholarship that this medieval practice had become outmoded and little used by the fifteenth and sixteenth centuries Although for decades after 1400 sanctuary seeking was indeed fairly rare the evidence

in the legal records shows the numbers of felons seeking refuge in churches began to climb again in the late fifteenth century and reached its peak in the period between 1525 and 1535. Sanctuary was not so much a medieval practice accidentally surviving into the early modern era as it was an organism that had continued to evolve and adapt to new environments and indeed flourished in its adapted state. Sanctuary suited the early Tudor regime; it intersected with rapidly developing ideas about jurisdiction and provided a means of mitigating the harsh capital penalties of the English law of felony that was useful not only to felons but also to the crown and the political elite. Sanctuary's resurgence after 1480 means we need to rethink how sanctuary worked and to reconsider more broadly the intersections of culture, law, politics, and religion in the years between 1400 and 1550.

The King's Felons Margaret McGlynn, 2023-03-03. *The King's Felons* examines the subtle but intentional development of criminal confinement as an alternative to capital punishment in early Tudor England. As the judicial establishment looked for ways to enhance law and order without provoking political opposition, they increasingly turned to two traditional mitigations of criminal punishment: benefit of clergy and sanctuary. Often reviled as corrupt clerical rights which served to undermine secular authority and the rule of law, benefit of clergy and sanctuary in fact provided the justices with room to manoeuvre, allowing them to punish a larger number of felons less harshly while avoiding political scrutiny. *The King's Felons* explores the evolution of this approach over a period of sixty years, allowing us to see not only the internal development of both law and process but the ways in which the judicial system responded to external pressures. The dissolution of the monasteries between 1536 and 1540, together with the steady erosion of the wealth and power of the bishops, meant that the institutional and financial foundations on which the justices built this system began to crumble as it was reaching fruition. Over the next two decades, they scrambled with limited success to secure some small vestiges of the system they had built. The epilogue connects the state of the system in the aftermath of this collapse to our existing understanding of the system in the later part of the century. Providing the first detailed study of criminal justice in the early Tudor period, *The King's Felons* highlights the role of the Church in the administration of criminal justice and reframes our understanding of many significant acts of the Reformation parliament. This book is a must-read for students and scholars of Tudor history, legal historians, and those interested in the role of the church with regard to politics, law, and crime.

The English People at War in the Age of Henry VIII Steven J. Gunn, 2018. War should be recognised as one of the defining features of life in the England of Henry VIII. Henry fought many wars throughout his reign, and this book explores how this came to dominate English culture and shape attitudes to the king and to national history, with people talking and reading about war and spending money on weaponry and defence.

Death and Burial in Medieval England 1066-1550 Christopher Daniell, 2005-06-20. Bringing together knowledge accumulated from historical, archaeological, and literary sources, Daniell paints a vivid picture of the entire phenomenon of medieval death and burial. A big contribution to medieval and early modern studies.

Love Spells and Lost Treasure Tabitha Stanmore, 2022-12-22. A ground-breaking book which introduces the

concept of service magic while re evaluating magic in medieval and early modern English society
