Regulating Health Facilities Construction Proceedings

Thomas R. Oliver

Regulating Health Facilities Construction Proceedings:

Regulating Health Facilities Construction Clark C. Havighurst, 1974-01-01 **Regulating Health Facilities Construction** Clark C. Havighurst, 1974 **Grow and Hide** Colleen M. Grogan, 2023 In *Grow and Hide* Colleen M. Grogan details the history of the American health care state and argues that the public has been intentionally misled about the true role of government. The US created a publicly financed system while framing it as the opposite in what Grogan terms the grow and hide regime. Today the state's role is larger than ever yet it remains largely hidden because stakeholders have repeatedly and successfully presented the illusion of minimal government involvement. As Grogan reveals, if we want to fix care in America, we need to reimagine the way it is organized, prioritized, funded, and perhaps most importantly, discussed. This book shows us a way forward. *Guide to U.S. Health and Health Care Policy* Thomas R. Oliver, 2014-09-03 *Guide to U.S. Health and Health Care Policy* provides the analytical connections showing students how issues and actions are translated into public policies and institutions for resolving or managing health care issues and crises such as the recent attempt to reform the national health care system. The Guide highlights the decision-making cycle that requires the cooperation of government, business, and an informed citizenry in order to achieve a comprehensive approach to advancing the nation's health care policies. Through 30 topical, operational, and relational essays, the book addresses the development of the U.S. health care system and policies, the federal agencies and public and private organizations that frame and administer those policies, and the challenges of balancing the nation's health care needs with the rising costs of medical research, cost-effective treatment, and adequate health insurance. **Key Features:** The 30 topical essays investigate the fundamental political, social, economic, and procedural initiatives that drive health and health care policy decisions affecting Americans at the local, regional, and national levels. **Essential themes** traced throughout the chapters include providing access to health care, national and international intervention, nutrition and health, human and financial resource allocation, freedom of religion versus public policy discrimination, and health care policy, universal health care coverage, private health care versus publicly funded health care, and the immediate and long-term costs associated with disease prevention, treatment, and health maintenance. **A Glossary of Key Health Care Policy Terms and Events**, a selected Master Bibliography, and a thorough Index are included. This must-have reference for political science and public policy students who seek to understand the issues affecting health care policy in the U.S. is suitable for academic, public, high school, government, and professional libraries. **Competition in the Health Services Market** United States. Congress. Senate. Committee on the Judiciary, 1974 *Competition in the Health Services Market* United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Antitrust and Monopoly, 1974 *Hearing on H.R. 1415, the Patient Access to Responsible Care Act (PARCA)* United States. Congress. House. Committee on Education and the Workforce. Subcommittee on Employer-Employee Relations, 1998 *Regulating Health Facilities Construction* Clark C. Havighurst, 1974 *National Library of Medicine Current Catalog* National Library
