Reich Gottes Reich Der Freiheit:

Die Religion Der Erkenntniss. Gedankenbeiträge Für Die Religiöse Gestaltung Der Zukunft Wilhelm HIERONYMI,1874 **The Implicit Theology of the Lord's Prayer** Jan Muis,2021-01-15 The postmodern and secular culture of the West requires a new reflection on God The Implicit Theology of the Lord's Prayer A Biblical and Theological Investigation reflects on God on the basis of an original and central expression of the Christian faith the Lord's Prayer First Jan Muis interprets the divine names central to this prayer in their biblical contexts Next Muis understands the divine attributes implied by these names from the biblical narrative of God's self-revealing actions and explains them in a contemporary framework God's Name indicates his particular personal presence and encounter with human beings The holiness of God's Name and the justice of his Kingship are more than just aspects of the love of the Father the Son and the Spirit The Creator is not a human blown large in his companionship with humans he remains the Exalted who lives both within and beyond created temporal reality In the context of a secular age Muis discusses in what sense this God exists

Biblical Theology of the Old and New Testaments Brevard S. Childs,1993-04 This monumental work is the first comprehensive biblical theology to appear in many years and is the culmination of Brevard Child's lifelong commitment to constructing a biblical theology that surmounts objections to the discipline raised over the past generation Childs rejects any approaches that overstress either the continuity or discontinuity between the Old and New Testaments He refuses to follow the common pattern in Christian thought of identifying biblical theology with the New Testament's interest in the Old Rather Childs maps out an approach that reflects on the whole Christian Bible with its two very different voices each of which retains continuing integrity and is heard on its own terms God and Humanity in Auschwitz Donald Dietrich,2017-07-12 God and Humanity in Auschwitz synthesizes the findings of research developed over the last thirty years on the rise of anti-Semitism in our civilization Donald J Dietrich sees the Holocaust as a case study of how prejudice has been theologically enculturated He suggests how it may be controlled by reducing aggressive energy before it becomes overwhelming Dietrich studies the recent responses of Christian theologians to the Holocaust and the Jewish theological response to questions concerning God's covenant with Israel which were provoked by Auschwitz Social science has dealt with the psychosocial dynamics that have supported genocide and helps explain how ordinary persons can produce extraordinary evil Dietrich shows how this research combined with theological analyses can help reconfigure theology itself Such an approach may serve to help dissolve anti-Semitism to aid in constructing such positive values as respect for human dignity and to point the way to restricting future outbreaks of genocide God and Humanity in Auschwitz surveys which religious factors created a climate that permitted the Holocaust It also illuminates what social science has to tell us about developing a strategy that when institutionally implemented can channel our energies away from sanctioned murder toward a more compassionate society The book has proven to be an essential resource for theologians sociologists historians and political theorists

Political Theologies in Orthodox Christianity Kristina Stoeckl, Ingeborg Gabriel, Aristotle Papanikolaou, 2017-06-15

This book gathers a wide range of theological perspectives from Orthodox European countries Russia and the United States in order to demonstrate how divergent the positions are within Orthodox Christianity. Orthodoxy is often considered to be out of sync with contemporary society set apart in a world of its own where the church intertwines with the state in order to claim power over the populace and ignore the individual voices of modern societies. As a collective, these essays present a different understanding of the relationship of Orthodoxy to secular politics, comprehensive up to date and highly relevant to politically understanding today's world. The contributors present their views and arguments by drawing lessons from the past and by elaborating visions for how Orthodox Christianity can find its place in the contemporary liberal democratic order while also drawing on the experience of the Western Churches and denominations. Touching upon aspects such as anarchism, economy and political theology, these contributions examine how Orthodox Christianity reacts to liberal democracy and explore the ways that this branch of religion can be rendered more compatible with political modernity.

System of Christian Ethics Isaak August Dorner, 1887 *Doxology: A Systematic Theology* Geoffrey Wainwright, 1984 Described by the author as A systematic theology from a liturgical perspective or a theology of worship *The Oxford History of Christian Worship* Geoffrey Wainwright, 2006 The Oxford History of Christian Worship is a comprehensive and authoritative history lavishly illustrated of the origins and development of Christian worship up to the present day. Following contemporary methods in scholarship, it attends to social and cultural contexts and examines the worship traditions from both Eastern and Western Christianity, ancient and modern. It offers a chronological account while encompassing spatial and confessional variations from Baptists in Britain to Roman Catholics in Mexico, from Orthodox in Ethiopia to Pentecostals in the United States, from Lutheran and Reformed in Europe to united churches in India and Australia. The material details of Christian worship such as music, architecture and the visual arts are considered within specific cultural contexts throughout the volume as well as studied thematically in individual chapters.

BOOK JACKET *Sprache im Leben der Zeit* Armin Burkhardt, Dieter Cherubim, 2013-02-06 Zu Ehren von Helmut Henne haben 27 Germanisten und ein Philosoph Aufsätze verfaßt. Die Themen der Beiträge reichen von der Reflexion des Dialogischen über die linguistische Analyse literarischer Texte, die Aufarbeitung der Geschichte der Sprachkritik, die kritische Diskussion lexikologischer und lexikographischer Fragestellungen, die historische, systematische und kontrastiv interkulturelle Untersuchung wichtiger Probleme der Semantik und Pragmatik bis hin zu Einzelfragen aus der Wissenschaftsgeschichte der Germanistik. Die Wortsemantische und traditionsbewußte historische Ausrichtung bildet dabei zwischen den meisten Beiträgen des einigende Band. Insofern liefert das Buch nicht nur ein kaleidoskopartiges Bild der gegenwärtigen Sprachgermanistik, sondern repräsentiert zugleich den aktuellen Diskussionsstand einer pragmatisch angereicherten lexikographisch, literarisch und sprachkritisch orientierten Semantik. Ein Verzeichnis der Schriften des Jubilars ist der Festschrift beigegeben.
