Reign Of The Ayatollahs:

Reign Of Ayatollahs Shaul Bakhash,1986-03-25 **The Reign of the Ayatollahs** Shaul Bakhash,1991-01-01 *Joint Report of the Task Force to Investigate Certain Allegations Concerning the Holding of American Hostages by Iran in 1980 ("October Surprise Task Force")* United States. Congress. House. Committee on Foreign Affairs. Task Force to Investigate Certain Allegations Concerning the Holding of American Hostages by Iran in 1980,1993 **The Lucifer Principle** Howard Bloom,2013-11-01 A philosophical look at the history of our species which alternated between fascinating and frightening like reading Dean Koontz or Stephen King Rocky Mountain News The Lucifer Principle is a revolutionary work that explores the intricate relationships among genetics human behavior and culture to put forth the thesis that evil is a by product of nature s strategies for creation and that it is woven into our most basic biological fabric In a sweeping narrative that moves lucidly among sophisticated scientific disciplines and covers the entire span of the earth s as well as mankind s history Howard Bloom challenges some of our most popular scientific assumptions Drawing on evidence from studies of the most primitive organisms to those on ants apes and humankind the author makes a persuasive case that it is the group or superorganism rather than the lone individual that really matters in the evolutionary struggle But biology is not destiny and human culture is not always the buffer to our most primitive instincts we would like to think it is In these complex threads of thought lies the Lucifer Principle and only through understanding its mandates will we able to avoid the nuclear crusades that await us in the twenty first century A revolutionary vision of the relationship between psychology and history The Lucifer Principle will have a profound impact on our concepts of human nature It is astonishing that a book of such importance could be such a pleasure to read Elizabeth F Loftus author of Memory **Iran's Revolutionary Guard** Steven K. O'Hern,2012 Argues that the Iranian Revolutionary Guard poses a danger to the economy and well being of the United States citing its previous operations in the Middle East and Asia **The Battle of the Ayatollahs in Iran** Alex Vatanka,2021-04-08 Understanding the foreign policy agenda and behavior of the Islamic Republic of Iran is a critical challenge for the world But where do the principal Iranian regime actors come from in terms of political background experiences and interests Which types of ambitions or policy conflicts have dominated and shaped foreign policy debates since 1979 This book explains the internal policy process in Tehran by following two regime personalities Ali Khamenei the Supreme Leader and Akbar Hashemi Rafsanjani who before his death in January 2017 held some of the most powerful political positions in Iran No two men have been more influential in dictating the regime s decision making processes since 1979 Yet little is known about how their competing worldviews and interests their key moments of dispute both personal or policy based or their personal ambitions have informed the trajectory of Iranian politics The book analyzes Khamenei and Rafsanjani s own words and writings and accounts of them given by others to reveal how the domestic policy contest has shaped Tehran s actions on the regional and international stage Comprising primary and secondary Iranian sources including untapped memoirs newspaper reports and

Iranian electronic media and personal interviews the book highlights the principal rivalries over the lifespan of the Islamic Republic and offers new insights into the present and future of Iranian foreign policy **Revolutionary Monsters** Donald T. Critchlow, 2021-10-05 Lenin Mao Castro Mugabe Khomeini All sparked movements in the name of liberating their people from their oppressors capitalists foreign imperialists or dictators in their own country These revolutionaries rallied the masses in the name of freedom only to become more tyrannical than those they replaced Much has been written about the anatomy of revolution from Edmund Burke to Crane Brinton Crane Franz Fanon and contemporary theorists of revolution found in the modern academy Yet what is missing is a dissection of the revolutionary minds that destroyed the old for the creation of a more harmful new Revolutionary Monsters presents a collective biography of five modern day revolutionaries who came into power calling for the liberation of the people only to end up killing millions of people in the name of revolution Lenin Russia Mao China Castro Cuba Mugabe Zimbabwe and Khomeini Iran Revolutionary Monsters explores basic questions about the revolutionary personality and examines how these revolutionaries came to envision themselves as prophets of a new age **Strange Rebels** Christian Caryl, 2014-03-11 Few moments in history have seen as many seismic transformations as 1979 That single year marked the emergence of revolutionary Islam as a political force on the world stage the beginning of market revolutions in China and Britain that would fuel globalization and radically alter the international economy and the first stirrings of the resistance movements in Eastern Europe and Afghanistan that ultimately led to the collapse of the Soviet Union More than any other year in the latter half of the twentieth century 1979 heralded the economic political and religious realities that define the twenty first In Strange Rebels veteran journalist Christian Caryl shows how the world we live in today and the problems that plague it began to take shape in this pivotal year 1979 he explains saw a series of counterrevolutions against the progressive consensus that had dominated the postwar era The year s epic upheavals embodied a startling conservative challenge to communist and socialist systems around the globe fundamentally transforming politics and economics worldwide In China 1979 marked the start of sweeping market oriented reforms that have made the country the economic powerhouse it is today 1979 was also the year that Pope John Paul II traveled to Poland confronting communism in Eastern Europe by reigniting its people s suppressed Catholic faith In Iran meanwhile an Islamic Revolution transformed the nation into a theocracy almost overnight overthrowing the Shah s modernizing monarchy Further west Margaret Thatcher became prime minister of Britain returning it to a purer form of free market capitalism and opening the way for Ronald Reagan to do the same in the US And in Afghanistan a Soviet invasion fueled an Islamic holy war with global consequences the Afghan mujahedin presaged the rise of al Qaeda and served as a key factor along with John Paul s journey to Poland in the fall of communism Weaving the story of each of these counterrevolutions into a brisk gripping narrative Strange Rebels is a groundbreaking account of how these far flung events and disparate actors and movements gave birth to our modern age State, Power and Politics in the Making of the Modern Middle East Roger Owen, 2013-01-11

Islam and the Post-Revolutionary State in Iran Homa Omid, 2016-07-27 her short analysis of the Iranian armed forces in the 1980s is first rate so too is her much more substantial section on women and the state in Iran As well as offering useful insights into the workings of the Islamic state in Iran this readable book also provides a warning of the struggles ahead in many other Muslim societies Anoushiravan Ehteshami Times Higher Education Supplement Islam has been the driving force shaping the ideology and the power base of the Iranian revolution This volume engages critically with the Islamic perspective and promises offered by the revolution Looking at the rise of the religious institution as a revolutionary force the author observes their post revolutionary policies in the domains of politics economics education the armed forces and women s status In the event the volume demonstrates that the Iranian government has failed to deliver on most if not all of its Islamic pledges

The Complete Infidel's Guide to Iran Robert Spencer, 2016-07-11 Our Most Dangerous Enemy Think it's ISIS Think again Iran is the terrorist powerhouse of the world made all the more dangerous by the disastrous nuclear deal that restricts Iran's nuclear ambitions hardly at all The Iranian government is an open enemy of the United States and of anyone who dissents from Shia Islam Iran confronts U S Navy ships in the Persian Gulf on a near daily basis It executes more of its citizens than any other nation It is a country torn by hypocrisy lectured by mullahs and with brutally enforced Islamic religious laws but rife with alcoholism Once America's ally Iran now claims leadership of the global jihad and the ayatollahs aim is nothing less than world conquest for Islam In his extraordinary new book *The Complete Infidel's Guide to Iran* New York Times bestselling author Robert Spencer reveals How the Iranian nuclear deal is sheer capitulation to the mullahs allowing Iran to inspect its own facilities and pursue nuclear weapons Iran's long standing support for terrorists including shocking evidence that Iran helped plan the 9 11 attacks Why Iran wants nuclear weapons clue it's not about deterrence American diplomatic folly why the Obama administration has grossly underestimated the Iranian threat A new grand strategy

how Iran's Shi'ite terrorism might be contained and its threat to the United States reduced. The Islamic Republic is already at war with America. If we refuse to recognize that fact we are only falling prey to the mullahs' campaign of duplicity. The Complete Infidel's Guide to Iran exposes the true nature of the threat, lays out what America must do to defeat it, and gives you all the information you need about America's least understood yet potentially most lethal foe. — *Democracy in Iran* Ali Gheissari, 2009-07-24. In this book Ali Gheissari and Vali Nasr look at the political history of Iran in the modern era and offer an in-depth analysis of the prospects for democracy to flourish there. After having produced the only successful Islamist challenge to the state, a revolution, and an Islamic Republic, Iran is now poised to produce a genuine and indigenous democratic movement in the Muslim world. Democracy in Iran is neither a sudden development nor a western import, and Gheissari and Nasr seek to understand why democracy failed to grow roots and lost ground to an autocratic Iranian state.

Iran's Unresolved Revolution Mark Downes, 2018-02-05. This title was first published in 2002. As Iran enters into the third decade since the 1979 revolution, the prospect of socio-political unrest remains ever present. Iran's political structure, its version of Islamic governance, and the role of pluralism across all aspects of Iranian society are being questioned openly and defiantly. What this will mean for the future of Iran's theological system of governance and its current social structure remains to be seen. This work examines the roots of Iran's current unrest in the context of the post-revolutionary social and political structure and the goals and aspirations of the 1979 revolutionaries. It provides in-depth commentary on contemporary Iranian society and the Islamic movement emerging from Khomeini's interpretation of Islamic governance and gauges the response of Iran to the pragmatic realities of the international system. Readers in Islamic studies, international studies, and Middle Eastern politics, both at undergraduate and postgraduate levels, will find this book an invaluable tool.

Stopping Wars James D. D. Smith, 2018-03-13. This is an attempt to catalogue the reasons why some wars are so difficult to stop, even when both sides want the fighting to end. Through detailed case studies, the book assesses the obstacles and points toward solutions for ending wars more quickly. Each chapter is devoted to a specific obstacle which the author analyzes and then illustrates with case studies drawing on such conflicts as the Iran-Iraq War, the Gulf War, and the Yugoslav wars. He assesses the role of third parties in trying to persuade people to stop fighting and examines what happens when obstacles to a cease-fire cannot be overcome. — **A Century of Revolution** John Foran, 1994. Provides insight into the political currents that led to the Iranian revolution. Before late 1978, Iran did not occupy a large place in the public mind, mass media, or academic pursuits. With the massive upheaval of the next few months, all this changed, and the world is still trying to catch up with the dramatic events that brought Iran to its attention. This volume offers a much-needed look into the historical, social, and political developments leading up to the Iranian revolution. Bringing together a group of scholars, historians, and social scientists, most of them Iranian in origin, the book documents an extraordinary revolutionary heritage that predates this century. Each contributor examines a critical moment in Iranian social history on its own terms as well as within a larger

theoretical and comparative context The topics they take up include the Tobacco Rebellion of 1890-91 the Constitutional Revolution of 1905-11 the rise of Reza Khan between 1921 and 1925 the autonomy movement in Azerbaijan and Kurdistan after World War II the oil nationalization movement under Musaddiq between 1951 and 1953 the unrest of the 1960-63 period the Iranian revolution of 1977-79 the state of Iran since the revolution Throughout common themes emerge especially the heterogeneous bases of Iranian social movements with respect to class gender and ethnicity as well as the diverse discourses nationalist Islamic socialist populist and radical that have animated these movements Representing a wide variety of perspectives and approaches this volume provides crucial insight into the widely watched but poorly understood phenomenon of present day Iran Contributors Janet Afary Purdue University John Foran University of California Santa Barbara Amir Hassanpour Uppsala University Mansoor Moaddel Eastern Michigan University Val Moghadam United Nations University Misgah Parsa Dartmouth College Sussan Siavoshi Trinity University Michael Zirinsky Boise State University
