Reign Of Virtue Mobilizing Gender In Vichy France:

Reign of Virtue Miranda Pollard, 1998-12-01 In *Reign of Virtue* Miranda Pollard explores the effects of military defeat and Nazi occupation on French articulations of gender in wartime France Drawing on governmental archives historical texts and propaganda Pollard explores what most historians have ignored the many ways in which Vichy's politicians used gendered images of work family and sexuality to restore and maintain political and social order She argues that Vichy wanted to return France to an illustrious and largely mythical past of harmony where citizens all knew their places and fulfilled their responsibilities where order prevailed The National Revolution according to Pollard replaced the ideals of liberty equality and fraternity with work family and fatherland making the acceptance of traditional masculine and feminine roles a key priority Pollard shows how Vichy's policies promoted the family as the most important social unit of a new France and elevated married mothers to a new social status even as their educational employment and reproductive rights were strictly curtailed

Psychoanalysis and the family in twentieth-century France Richard Bates, 2022-02-08 In the last quarter of the twentieth century if French people had a parenting problem or dilemma there was one person they consulted above all Françoise Dolto 1908-88 But who was Dolto How did she achieve a position of such influence What ideas did she communicate to the French public This book connects the story of Dolto's rise to two broader histories the dramatic growth of psychoanalysis in postwar France and the long running debate over the family and the proper role of women in society It shows that Dolto's continued reputation in France as a liberal and enlightened educational thinker is at best only partially deserved and that conservative and anti feminist ideas often underpinned her prominent public interventions While Dolto retains the status of a national treasure her career has had far reaching and sometimes harmful repercussions for French society particularly in the treatment of autism

The Interpreter Alice Kaplan, 2005-09-12 No story of World War II is more triumphant than the liberation of France made famous in countless photos of Parisians waving American flags and kissing GIs as columns of troops paraded down the Champs-Élysées Yet liberation is a messy complex affair in which cultural understanding can be as elusive as the search for justice by both the liberators and the liberated Occupying powers import their own injustices and often even magnify them away from the prying eyes of home One of the least known stories of the American liberation of France from 1944 to 1946 is also one of the ugliest and least understood chapters in the history of Jim Crow The first man to grapple with this failure of justice was an eyewitness the interpreter Louis Guilloux Now in *The Interpreter* prize winning author Alice Kaplan combines extraordinary research and brilliant writing to recover the story both as Guilloux first saw it and as it still haunts us today When the Americans helped to free Brittany in the summer of 1944 they were determined to treat the French differently than had the Nazi occupiers of the previous four years Crimes committed against the locals were not to be tolerated General Patton issued an order that any accused criminals would be tried by court martial and that severe sentences including the death penalty would be imposed for the crime of rape Mostly represented among service troops

African Americans made up a small fraction of the Army Yet they were tried for the majority of capital cases and they were found guilty with devastating frequency 55 of 70 men executed by the Army in Europe were African American or 79 percent in an Army that was only 8.5 percent black Alice Kaplan's towering achievement in *The Interpreter* is to recall this outrage through a single very human story Louis Guilloux was one of France's most prominent novelists even before he was asked to act as an interpreter at a few courts martial Through his eyes Kaplan narrates two mirror image trials and introduces us to the men and women in the courtrooms James Hendricks fired a shot through a door after many drinks and killed a man George Whittington shot and killed a man in an open courtyard after an argument and many drinks Hendricks was black Whittington was white Both were court martialed by the Army VIII Corps and tried in the same room with some of the same officers participating Yet the outcomes could not have been more different Guilloux instinctively liked the Americans with whom he worked but he could not get over seeing African Americans condemned to hang Hendricks among them while whites went free He wrote about what he had observed in his diary and years later in a novel Other witnesses have survived to talk to Kaplan in person In Kaplan's hands the two crimes and trials are searing events The lawyers judges and accused are all sympathetic their actions understandable Yet despite their best intentions heartbreak and injustice result In an epilogue Kaplan introduces us to the family of James Hendricks who were never informed of his fate and who still hope that his remains will be transferred back home James Hendricks rests with 95 other men in a U.S. military cemetery in France filled with anonymous graves

France in an Era of Global War, 1914-1945 A. Carroll, L. Broch, 2014-09-30 In *France in an Era of Global War* scholars re-examine experiences of French politics occupation empire and entanglements with the Anglophone world between 1914 and 1945 In doing so they question the long standing myths and assumptions which continue to surround this period and offer new avenues of enquiry

Reproductive Citizens Nimisha Barton, 2020-09-15 In the familiar

tale of mass migration to France from 1880 onward we know very little about the hundreds of thousands of women who formed a critical part of those migration waves In *Reproductive Citizens* Nimisha Barton argues that their relative absence in the historical record hints at a larger and more problematic oversight the role of sex and gender in shaping the experiences of migrants to France before the Second World War Barton's compelling history of social citizenship demonstrates how through the routine application of social policies state and social actors worked separately toward a shared goal repopulating France with immigrant families Filled with voices gleaned from census reports municipal statistics naturalization dossiers court cases police files and social worker registers *Reproductive Citizens* shows how France welcomed foreign born men and women mobilizing naturalization family law social policy and welfare assistance to ensure they would procreate bearing French assimilated children Immigrants often embraced these policies because they too stood to gain from pensions family allowances unemployment benefits and French nationality By striking this bargain they were also guaranteed safety and stability on a tumultuous continent Barton concludes that in return for generous social provisions and refuge in dark times immigrants joined the French nation through marriage and reproduction breadwinning and child rearing in short through families and family making which made them more French than even formal citizenship status could

Desiring Whiteness Caroline Séquin, 2024-10-15 *Desiring Whiteness* uncovers the intertwined histories of commercial sex and racial politics in France and the French Empire Since the French Revolution of 1789 the absence of laws banning interracial marriages has served to reinforce two myths about modern France first that it is a sexual democracy and second it is a color blind nation where all French citizens can freely marry whomever they wish regardless of their race Caroline Séquin challenges the narrative of French exceptionalism by revealing the role of prostitution regulation in policing intimate relationships across racial and colonial boundaries in the century following the abolition of slavery *Desiring Whiteness* traces the rise and fall of the French model of prostitution policing in the contact zones of port cities and garrison towns across France and in Dakar Senegal the main maritime entry point of French West Africa Séquin describes how the regulation of prostitution covertly policed racial relations and contributed to the making of white French identity in an imperial nation state that claimed to be race blind She also examines how sex industry workers exploited reinforced or transgressed the racial boundaries of colonial rule Brothels served as gatekeepers of whiteness in two arenas In colonial Senegal white only brothels helped deter French colonists from entering unions with African women and producing mixed race children thus consolidating white minority rule In the metropole brothels condoned interracial sex with white sex workers while dissuading colonial men from forming long term attachments with white French women Ultimately brothels followed a similar racial logic that contributed to upholding white supremacy

The Colonial Politics of Global Health Jessica Lynne Pearson, 2018-09-10 Jessica Lynne Pearson explores the collision between imperial and international visions of health and development in French Africa as postwar decolonization movements gained strength The consequences of putting politics

above public health continue to play out in constraints placed on international health organizations half a century later

Contested Paternity Rachel G. Fuchs, 2008-07-25 Focusing on paternity as a category of family history Contested Paternity emphasizes the importance of fatherhood the family and the law within the greater context of changing attitudes toward parental responsibility

The Phantom Train: Deporting Prisoners from Occupied France Martin Sorrell, Ludivine Broch, 2025-11-30 On 3 July 1944 a train of cattle wagons set out from Toulouse heading for Germany Crammed inside eventually were 724 souls of various nationalities and backgrounds all of whom the German occupiers had held captive in concentration camps and prisons across south western France Among them was Francesco Fausto Nitti an Italian antifascist activist who had survived Mussolini's gaols and the Spanish Civil War The journey to Dachau was expected to take three days Instead bombed re routed and often immobilised it lasted for two months making it the longest of all deportation journeys out of France during the Second World War Nitti kept a daily log of the odyssey of the Phantom Train as it has become known and the document was in his pocket when on 25 August he and some fellow captives made a perilous last minute escape by removing some of their wagon's floorboards and lowering themselves onto the track as the train sped through the night Once back with his family and the Resistance Nitti turned his log into a book which was published at the end of 1944 by a small press run by a Resistance member Now with this first English translation of The Phantom Train and an extended introduction a whole new readership can learn about that never ending journey to Dachau and everything that led up to it and marvel at the determination and endurance of some courageous people notably the remarkable Francesco Fausto Nitti
