Reinventing Ourselves Barbara Leigh Smith, John McCann, 2001-01-15 *Reinventing Ourselves* examines the experiences and lessons from over 20 different institutions pioneering new approaches for more effective teaching and learning. Many of the colleges included in this volume began as both educational and social experiments representing new ways of thinking about educational goals, curricular organization, institutional governance, and faculty roles and rewards. With new calls for both rethinking our approaches to teaching and learning and for reviewing the traditional boundaries within institutions and between disciplines, *Reinventing Ourselves* offers a rich store of ideas from which to draw. *The Oxford Handbook of Interdisciplinarity* Robert Frodeman, 2010-06-24 This title provides a synoptic overview of the current state of interdisciplinary research, education, administration, and management and includes problem-solving knowledge that spans the disciplines and interdisciplinary fields and crosses the space between the academic community and society at large.

Interdisciplinary Research Allen F. Repko, Rick Szostak, 2020-01-21 *Interdisciplinary Research: Process and Theory* offers a comprehensive systematic presentation of the interdisciplinary decision-making process by drawing on student and professional work from the natural sciences, social sciences, humanities, and applied fields. Designed for active learning and problem-based approaches, the Fourth Edition includes expanded discussion of epistemology, creativity within the interdisciplinary research process, confirmation bias, and social media; the philosophy of integration and student work patterns; mapping and the importance of performing independent research while working through this book. An Instructor website for the book includes a test bank, PowerPoint slides, and tables and figures from the book. *Mentoring in Formal and Informal Contexts* Kathy Peno, Elaine M. Silva, Mangiante, Rita A. Kenahan, 2016-03-01 *Mentoring in Formal and Informal Contexts* is a collection of invited works on mentoring in the many contexts in which it exists. Working with AHEA, the editors identified authors that have demonstrated experience and/or have published in this area. The book is arranged thematically: health care, education, the workplace, etc., and further sub-themed as appropriate. *Mentoring in Formal and Informal Contexts* is important because it fills a unique niche in the field of adult education, extends the scope of AHEA to a larger audience, and offers a current volume for scholars and practitioners based on both research and practice-based research. The audience: This collection is appropriate for a wide variety of professors, researchers, practitioners, and students in the field of adult education.
