YOURSELF AFTER 50 14 Day Challenge One thing that many people are starting to recognize is the unfair structure of their lives We say many instead of all because there are some people who live a life of purpose from the beginning We want to address the fact that you went to school and got an education that you or your parents chose After that was done you went into the workforce and may still be working at a job that will have you retiring in 10 or 15 years Many people stop working at ages 65 or 67 and then pass the time until that final bell rings Perhaps they may regret their choices and spend a lot of their retirement playing the what if I had done this different game Many things can happen when you choose to reinvent yourself after age 50 You can reinvent how you exercise and eat You might change the negative mindset you have had for many years All three changes can add many more years to your life If you are not sure of how a negative mindset can affect your lifespan remember that stress can be a killer and it comes from carrying a negative mindset It is essential to stop looking back on your past and getting upset because you went to work instead of writing that novel that would have propelled you to fame and fortune You should look back but only to look at your story and the times you turned a so called failure into a success This will show you common threads that happened throughout your life that will help you in the idea of reinventing yourself An idea that many people do not consider is making sure to do the things you need to do to live until you are 100 or beyond Ask yourself what you could accomplish if you did this As you reinvent yourself you will constantly be learning which will improve your brain health and help to ward off cognitive decline We know that reinventing yourself after age 50 means making significant changes in your health and mindset The goal of this challenge is to get you on the right track to reinventing yourself One central idea crucial to your success is the idea of purpose You will discover your purpose and when you hit age 100 you will be able to reflect on having lived many of your years with a clear and definite purpose Note The idea of living to 100 may seem out of the question but if you look at different cultures you will see some where people live a very purposeful life to 100 and beyond It can happen if you do the right things like reinventing yourself We will start the challenge by having you decide on your life priorities This will engage your mind and help you to be creative during the entire challenge *Thriving at 50+* Wendy Marx,2020-04-06 At age 50 when many people confront the challenges of supporting families and saving enough for retirement rebranding and career reinvention become more important than ever Thriving at 50 is branding authority Wendy Marx s guide on doing just that in a society that isn t always kind to older people Providing a framework for rebranding and reinvention the book reveals how to find purpose and revitalize your career and life for your next act It also offers the means to confront ageism in the workplace especially for those who may feel they have nothing left

Re-Invent Yourself! Cheryl Garrison,2016-08-12 Cheryl Garrison wrote Re Invent Yourself after meeting numerous women over 50 who were struggling with the reality of growing older Career change including downsizing or layoff empty nest syndrome failed retirement failed business failed relationships and a lack of confidence in the future are just some of the issues facing women over 50 Cheryl begins the book sharing with the reader her personal journey from a bold and fearless 20 year old to a 50something woman who has been defeated by life altering changes Re Invent Yourself is a working guide that chronicles the steps Chery took to re vitalize her life Why do we stop dreaming after 50something Why do we think we are too old to start a business or run a marathon This book answers these questions and then provides resources to help

women live out their dreams and aspirations The book is filled with personal experiences and is divided into 5 chapters each designed to move the reader closer to creating a Re Invention Plan which is the objective of the book Know Yourself Helps the reader answer the question Who are You and What do you Want Cheryl believes that at the core of many of the problems women over 50 have is a lack of true identify or an identity that has been lost in the years of giving to others and spending very little time taking care of ourselves The exercises in this chapter lead women through an assessment of their self esteem right now and gives techniques for helping them find their true identity Women completing this chapter will also be able to take a hard look at what they are currently accomplishing in their personal and professional life and begin the process of identifying what they desire to be and do Heal Yourself How do we overcome the beliefs that have kept us from succeeding Cheryl carries the reader through extensive exercises that will help them identify the thoughts that have kept them standing in cement blocks and then break through to a life of accomplishment Re Invent Yourself Readers are given the tools needed to take the wants they have identified as important to them and create a lifestyle plan for re invention The plan includes goal creation identifying timelines budgeting and accountability in order to ensure that goals become a reality The reader will create long term short term and immediate goals that support their overall plan Commit Yourself The final part of Cheryl s re invention plan is for the reader to be committed to change Without making the commitment and being open to change nothing will change This chapter encourages the reader to get a digital calendar and keep track of daily progress The next important part of change is getting an accountability partner who will make the journey with the reader Finally surrounding oneself with positive affirmations is an important part in creating lasting and sustained change Cheryl s goal for the reader after they have completed the book is to celebrate a new life just as she has done She went from near depression to now writing books creating training programs coaching and speaking to women over 50 about living a life of passion and purpose
