New Era Value Investing Nancy Tengler, 2003-04-15 A unique guide that combines the best of traditional value theory with an innovative approach to assessing value in low or non-dividend-paying stocks. In the 1990s, America's focus on productivity and innovation led to huge gains in technology, communication, and healthcare stocks and contributed to the transformation of the U.S. stock market from a value/dividend-paying orientation to a growth/nondividend-paying bias. During this time, forward-thinking value managers began to develop analytical tools for valuing nondividend-paying stocks. These tools allowed them to evaluate and identify the best investments in both traditional and nontraditional value sectors. At the forefront of this movement was author Nancy Tengler, who along with Noel DeDora developed Relative Value Discipline, an approach which combines two proven methods for valuing growth stocks: Relative Dividend Yield and Relative to Price Sales. The combination of these approaches allows individuals to invest across the investment universe regardless of dividend policies. New Era Value Investing introduces the proven method known as Relative Value Discipline by combining the excitement of developing a new investment discipline with the lessons learned through the application of this new methodology in the real world. In addition to providing an insider's look at an investment manager's experience in adopting a new investment approach, this book creates a context for understanding the transformation of the U.S. economy and offers expert insights beyond those of traditional value theory. Nancy Tengler, San Francisco, CA, is President and Chief Investment Officer of Fremont Investment Advisors. She is coauthor of Relative Dividend Yield: Common Stock Investing for Income and Appreciation (Wiley, 0-471-53652-0). She has appeared on numerous financial radio and television programs, including CNN, and is frequently quoted in financial publications such as The Wall Street Journal.
