Relativism Refuted H. Siegel, 2013-06-29 Relativism: A Guide for the Perplexed Timothy M. Mosteller, 2008-05-23

Relativism is a philosophical topic that has many dimensions and can mean many things. It is the view that one thing owes existence, truth, goodness, or beauty to something else and is central to an understanding of any of the four traditional divisions of philosophy: ontology, epistemology, ethics, and aesthetics. *Relativism: A Guide for the Perplexed* offers a concise introduction to relativism and how it applies to the different parts of the basic foundational areas of philosophy and indeed to every area of human enquiry. Timothy Mosteller provides an overview of the topic across the discipline of philosophy, examining it in detail in its primary forms: ontological relativism, epistemological relativism, moral relativism, and aesthetic relativism. The book concludes with a summary of the role of relativism in three other key academic disciplines: science, politics, and religion.

The Logic of Relativism Mark Ressler, 2013-08-03. This in-depth study aims to develop a rigorous analysis of the nature and the logic of relativism in general as a basis for evaluating the charge of self-refutation against relativism. It develops a general definition of relativism that distinguishes relativism from structurally similar notions such as conventionalism and contextualism. On the basis of this definition, it formulates a series of logical systems that each might be presented as candidates for the logic of relativism. Each system is evaluated to see whether it can sustain the charge of self-refutation. The result is that one of these systems can be proven not to be self-refuting even under increasingly stronger challenges. Consequently, this study argues that even global relativism can be demonstrated not to refute itself despite the long history of arguments to the contrary.

The Heresy of Heresies Timothy M. Mosteller, 2021-10-14. The heresy of heresies was common sense. George Orwell, 1984. This book is a defense of common sense realism, which is the greatest heresy of our time. Following common sense philosophers like Thomas Aquinas, G. K. Chesterton, C. S. Lewis, Dallas Willard, and J. P. Moreland, this book defends a common sense vision of reality within the Christian tradition. Mosteller shows how common sense realism is more reasonable than the materialist, idealist, pragmatist, existentialist, and relativist spirits of our age. It maintains that we can know the nature of reality through common sense experience and that this knowledge has profound implication for living the good life and being a good person.

A Refutation of Moral Relativism Peter Kreeft, 2009-12-04. No issue is more fateful for civilization than moral relativism. History knows not one example of a successful society which repudiated moral absolutes. Yet most attacks on relativism have been either pragmatic (looking at its social consequences) or exhorting/preaching rather than proving, and philosophers' arguments against it have been specialized, technical, and scholarly. In his typical unique writing style, Peter Kreeft lets an attractive, honest, and funny relativist interview a Muslim fundamentalist absolutist so as not to stack the dice personally for absolutism. In an engaging series of personal interviews, every conceivable argument the sassy Black feminist reporter Libby gives against absolutism is simply and clearly refuted, and none of the many arguments for moral absolutism is refuted.

Foucault's Strata and Fields Maren Kusch,2012-12-06 In recent years a large number of books and articles on Foucault has been published Almost all of the book size studies are expository and introductory Indeed there seems to be no other modern philosopher with reference to whom a comparable number of introductions have been produced in such a short period Most of the articles too provide overviews rather than critical assessments or rational reconstructions even though there exists by now a small number of fine papers also in the two latter genres Moreover more often than not writers on Foucault approach his work as part and parcel of so called postmodern philosophy They concentrate on topics like the death of the subject the relation of Foucault's work to Derrida or Habermas or its significance for postmodern art and culture Without wanting to deny the merits either of introductory expositions or of studies that read Foucault as a postmodern thinker it seems to me that these received perspectives have tended to leave central areas and aspects of Foucault's work somewhat underexposed As I see it the most important of these areas are such as would suggest reading Foucault from the vantage point of recent developments in the philosophy sociology and history of science

Philosophical Historicism and the Betrayal of First Philosophy Carl Page,2010-11-01 [The Routledge Handbook of Philosophy of Relativism](#) Martin Kusch,2019-12-06 Relativism can be found in all philosophical traditions and subfields of philosophy It is also a central idea in the social sciences the humanities religion and politics This is the first volume to map relativistic motifs in all areas of philosophy synchronically and diachronically It thereby provides essential intellectual tools for thinking about contemporary issues like cultural diversity the plurality of the sciences or the scope of moral values The Routledge Handbook of Philosophy of Relativism is an outstanding major reference source on this fundamental topic The 57 chapters by a team of international contributors are divided into nine parts Relativism in non Western philosophical traditions Relativism in Western philosophical traditions Relativism in ethics Relativism in political and legal philosophy Relativism in epistemology Relativism in metaphysics Relativism in philosophy of science Relativism in philosophy of language and mind Relativism in other areas of philosophy Essential reading for students and researchers in all branches of philosophy this handbook will also be of interest to those in related subjects such as politics religion sociology cultural studies and literature
