Religion And Mythology Married Of Necessity:

Religion and Mythology Louis Hammann, 1998-06-11 Argues that throughout the histories of culture religion and myth have always been tightly bonded and always are by necessity Considers whether the time has come to redefine religion mythmaking as a habit of mind history imagined as truth mythologies as alternative visions and surrogate myths No index Annotation copyrighted by Book News Inc Portland OR

The Mirages of Marriage William J. Lederer, Don De Avila Jackson, 1968 This helpful incisive analysis of marriage in America discusses the false assumptions of modern marriage and how to make a marriage work It is imperative to realize the authors argue that the marital relationship is an interlocked system in itself not a function of individual partners They offer techniques for appraising one's own marriage discuss the use of counselors and the dangers of unilateral therapy and outline the major elements of a satisfactory marriage

Maori Religion and Mythology Elsdon Best, 1924

Sister Wives, Surrogates and Sex Workers Angela Campbell, 2016-04-01 Did she choose that Or more normatively Why would she choose that This book critiques and offers an alternative to these questions which have traditionally framed law and policy discussions circulating around controversial genderized practices It examines the simplicity and incompleteness of choice based rhetoric and of presumptions that women's conduct is shaped in an absolute way either by choice or by coercion This book develops an analytical framework that aims to discern the meaning and value that women may ascribe to morally ambiguous practices An analysis of law's approach to polygamy surrogacy and sex work particularly in Canada the United Kingdom and Australia provides a basis for evaluating the choice coercion binary and for contemplating alternate modes for assessing from a law and policy standpoint the palatability of social practices that appear pernicious to women Weaving together interdisciplinary research an innovative analytical framework for assessing choices ostensibly harmful to women and a critique of the legal rules governing such choices this book bears relevance for students scholars practicing jurists and policymakers seeking a richer understanding of conduct that moves women to the margins of law and society

Marriage, Totemism and Religion Sir John Lubbock, 1911

Intersections of Multiple Identities Miguel E. Gallardo, Brian W. McNeill, 2011-02-11 Over the past two decades there has been an increase in the need to prepare and train mental health personnel in working with diverse populations In order to fully understand individuals from different cultures and ethnic backgrounds practitioners need to begin to examine conceptualize and treat individuals according to the multiple ways in which they identify themselves The purpose of this casebook is to bridge the gap between the current practice of counseling with the newest theories and research on working with diverse clientele Each chapter is written by leading experts in the field of multicultural counseling and includes a case presentation with a detailed analysis of each session a discussion of their theoretical orientation and how they have modified it to provide more culturally appropriate treatment and an explanation of how their own dimensions of diversity and worldviews enhance or potentially impede treatment This text is a significant contribution to the evolving area of multicultural counseling and will be a valuable

resource to mental health practitioners working with diverse populations *Myths and Symbols in Hindu Religion* Bhagwat Rana, 2009 Family Law, Gender and the State Alison Diduck, Felicity Kaganas, 2012-02-07

The third edition of this work on family law comprising text cases and materials provides not only an explication of legal principle but also explores primarily from a feminist perspective some of the assumptions about and constructions of gender sexual orientation class and culture that underlie the law. It examines the ideology of the family and in particular the role of the law in contributing to and reproducing that ideology. Structured around the themes of equality welfare and family privacy the book aims to offer the benefits of a textbook while also giving students a wide ranging set of materials for classroom discussion. As well as providing a firm grounding in family law the text sets the law in its social and historical context and encourages a critical approach by students to the subject. It provides an ideal introduction to family law for undergraduates but will be equally helpful for postgraduate students of family law for whom it provides a challenging selection of materials set within a theoretical framework rich in ideas and arguments.

Review of the second edition Diduck and Kaganas examine legal developments to shed light on society principally by investigating the ways in which family law constructs and regulates family life and responsibilities. This is an important and ambitious book that aims ultimately at a feminist restatement of family law. The book is written and referenced in such depth that it is a useful resource for legal as well as social science researchers at all levels whether looking for theoretical inspiration or drawing up a literature review. The range of diverse sources that Diduck and Kaganas draw on is impressive they seem to have included every bit of material that helps feminists make sense of family law. There is a well pitched selection of further reading of such material at the end of each chapter. What's more they undersell themselves by describing their book as Text Cases and Materials because they have woven by far the largest proportion of the cases and materials into the text.

Helen Reece *Times Higher Education* May 2007

Reviews of first edition A stimulating work which attempts to situate family law in its social historical and political context. Its appeal should not be confined to family law students as its commitment to a critical and analytical approach offers insights and ideas with broader significance.

Mary Childs *Child and Family Law Quarterly* September 2002

The arguments are provocative the analysis is stimulating and the materials amassed strongly support the authors aim to question the axiomatic status of what is traditionally designated as the family.

Fiona E Raitt *Infant and Child Development* September 2002

It is not often that one can say of a textbook in Law that it makes interesting reading with quite the enthusiasm that can be expressed for this text. This new publication offers something that few textbooks seem to offer a book you CAN open up virtually anywhere and find an interesting piece on almost any aspect of the broad family law spectrum.

Penny Booth *The Law Teacher* September 2002

All the major themes in feminist and constructionist perspectives in family law are presented together with a wealth of readings and extensive references. As a teaching manual it is excellent a coherent feminist perspective across the entire range of family law.

Marty Slaughter *Feminist Legal Studies* July 2003 Theory of Women in Religions Catherine

Wessinger,2020-12-01 An introduction to the study of women in diverse religious cultures While women have made gains in equality over the past two centuries equality for women in many religious traditions remains contested throughout the world In the Roman Catholic Church and the Church of Jesus Christ of Latter day Saints women are not ordained as priests In areas of Pakistan and Afghanistan under Taliban occupation girls and women students and their teachers risk their lives to go to school And in Sri Lanka fully ordained Buddhist nuns are denied the government identity cards that recognize them as citizens Is it possible to create families societies and religions in which women and men are equal And if so what are the factors that promote equality Theory of Women in Religions offers an economic model to shed light on the forces that have impacted the respective statuses of women and men from the earliest developmental stages of society through the present day Catherine Wessinger integrates data and theories from anthropology archaeology sociology history gender studies and psychology into a concise history of religions introduction to the complex relationship between gender and religion She argues that socio economic factors that support specific gender roles in conjunction with religious norms and ideals have created a gendered division of labor that both directly and indirectly reinforces gender inequality Yet she also highlights how as the socio economic situation is changing religion is being utilized to support the transition toward women s equality noting the ways in which many religious representations of gender change over time

A Tale of Boxes Robert T. Latham,2009

Every one of us lives in a box This box determines what we see and what we do not see It tells us who to love and hate What to fight for How to live Who we are Our boxes the collection of stories we tell about ourselves and the world create the human drama Whether you become a pawn in this drama or take control of your destiny depends on the ability to answer two questions Why is my box the way it is How can I transform it By examining the forces that have shaped your most deeply held beliefs this book challenges you to think outside the box that society has provided for you and begin writing your own story
