

Importance of Religion Essay

If we are not governed by a set of values, then our ideas and principles of right and wrong are based solely on opinion. The Nazis had not been evil. They had a set of values that does not correspond to many of today's values. Had they kept the religious promises they made to the Vatican when they came to power, they would have had a difficult time. Religion is a human creation, but we are lost without some form of faith in more than human opinion, because we only have to take account of it. Human nature is bad. We are not born with a knowledge of right or wrong. That's why people turn out so differently.

Human nature is evil. We're not born with a right or wrong understanding. People therefore turn out so differently. It is not because a person is born good or bad, but because of the way they are treated and the values they are taught, that they become the person. Religion has a number of rules people follow on the masses. These rules are more than laws with penalties and rewards, they are based on a set of values, and these are the things that help a person to adjust well. Imagine children without parents' rule. If a child could run around and do what he or she wanted unchecked, the children would accidentally kill themselves, become sociopaths and become wild. There would be no way to know what's happening. Children need a parental figure to teach rules and values. What is right and wrong is taught to us, and religion allows for a certain unification that governments cannot instill.

The law does not tell us to kill. We were not born with such knowledge. We were born to kill, which is why children are often fatal killers of insects. We have both eyes facing each other, which means that we are predators born. The law tells us not to kill or steal. Most people will never do that, and part of it is because of religion. Religion has come up with the idea that long before the law, we should not kill and steal. The law just tells us what to do, but religion tries to explain why things should be done. You can say that we don't do things because the law tells us not to, and that's a good reason for them, but for most people it's too black and white. Religion helps us to shape values so that we can decide ourselves. For example, the law may say that you don't kill, but religion (good religions) teaches us the holiness of life, so if we have to kill one person to save thousands, then religion allows us to make that choice where the law doesn't.

The law is the way the government tries to instill values, but it can not just do it with rules alone. The government hopes that if you follow the law, you will see why it works and learn your values that way— but it does everything in reverse. With peace - loving and good religions that do not tolerate killing, such as any other religion than the Arian brotherhood, Islam and Satanism, you are taught why something is wrong so that you can choose what you are doing. Good religions that do

T&T Clark Handbook of Theology and the Arts Stephen M. Garrett, Imogen Adkins, 2025-04-24 This volume presents the theology arts conversation from a distinctly Christian perspective as a witness of the Gospel of Christ to the world A widespread interest in the historical socio cultural and political embeddedness of theology and the arts permeates it This theme of embeddedness tracks through several overarching and interlocking concerns the relationship between form and content in both art and theology the intensification of the metaphysical and the theological contra materialist and positivist reductionisms the expansion of the epistemological possibilities of the theology art conversation and a robust understanding of the world as the theatre of God s glory Several chapters have been co written by theologians and artists as part of demonstrating the kind of conversation that this book commends A thorough going commitment to Scripture is also woven into the many different habits of thought represented in this volume Part I surveys different approaches to the theology arts conversation Part II focuses on how particular art forms bring theological issues to the surface and how theological and denominational traditions shape the making and receiving of the arts Part III delves into key topics in the current theology arts scene and asks how artistic and theological performance can both speak to theological and artistic knowing and help to celebrate and interrogate embodied lived reality *The Oxford Handbook of Religion and the Arts* Frank Burch Brown, 2014-02 This volume offers 37 original essays from leading scholars on the crucial topics issues methods and resources for studying and teaching religion and the arts *Novel Theology* Darren J. N. Middleton, 2000 Literature and theology constantly de construct each other Suggesting that this de constructive assignment is one that cannot but be in process itself Middleton returns to it throughout his study *On Making a Shift in the Study of Religion and Other Essays* Russell T. McCutcheon, 2021-06-08 Although many would today argue that the onetime dominance of the phenomenology of religion has receded and with it the traditional approach to studying religion as a unique and deeply felt experience that defies explanation the essays collected here take quite the opposite stand that this approach has merely been re branded and continues to characterize much work being done in the field today Offering a different way forward one that is based on experiences gained by the members of the Department of Religious Studies at the University of Alabama a program that has successfully reinvented itself over the past 20 years the book includes a variety of practical suggestions for how members of Religious Studies departments can revise their approach to studying and teaching about religion Seeing religion instead as mundane but always exemplary of basic social elements found all across cultures the volume argues that the way forward for this field lies not in the specialness of its object of study but instead the fact that thinking and acting as if something is special is itself an ordinary aspect of history and culture Making just this shift helps the scholar of religion to contribute to wide interdisciplinary conversations all across the Humanities and Social Sciences demonstrating the practical relevance of their work *Secular Steeples 2nd Edition* Conrad Ostwalt, 2012-11-29 The Scandinavian Nordic countries of Denmark

Norway Sweden and Finland experienced the effects of the German invasion in April 1940 in very different ways Collaboration resistance and co belligerency were only some of the short term consequences Each country s historiography has undergone enormous changes in the seventy years since the invasion and this collection by leading historians examines the immediate effects of Hitler s aggression as well as the long term legacies for each country s self image and national identity The Scandinavian countries war experience fundamentally changed how each nation functioned in the post war world by altering political structures the dynamics of their societies the inter relationships between the countries and the popular view of the wartime political and social responses to totalitarian threats Hitler was no respecter of the rights of the Scandinavian nations but he and his associates dealt surprisingly differently with each of them In the post war period this has caused problems of interpretation for political and cultural historians alike Drawing on the latest research this volume will be a welcome addition to the comparative histories of Scandinavia and the Second World War **Finding List of Books and**

The Redemption of Tragedy Katherine T. Brueck,1995-01-01 Simone Weil s supernaturalist interpretations of tragedy challenge not only the philosophical skepticism but also the religious rationalism characteristic of the modern age This book boldly points out a supernaturalist alternative to contemporary post structuralist literary theory This study of classical tragic drama offers a sacralizing impetus to secular discussions of literature The book s Platonic premises and its grounding in the transcendental outlook of the religious traditions furnish a sacred illumination Religious mystery and the cross of Christ both overshadow and deepen philosophical approaches to literary criticism including theories of tragedy Simone Weil s conception of tragic art rooted in a mystical Christian metaphysics offers original insight into the nature of tragedy In contradiction of the prevailing secular outlook Weil regards classical tragedy as a sacred art form Tragic masterpieces evoke not the chaotic or irrational as modernist interpreters hold but rather a good which is absolute A Companion to Scottish Literature
