Andrew Singleton

Religion And Global Order Religion Culture And Society:

Religion and Global Order John L. Esposito, Michael Watson, 2000 An important exploration of the role and significance of religious ideas and ideology in the field of global order in the face of the political and economic social environmental and ecological changes of the 21st century comprising eleven in depth essays by renowned scholars

Religion, Culture & Society Andrew Singleton, 2014-03-10 The reader is taken on a global exploration of the forms and diversities of religions and their social and cultural contexts It is up to the minute in research and theory and comfortably grounded in the traditions of the social explanation of things religious and spiritual Gary Bouma AM Monash University Tells how sociology of religion originated in the work of key nineteenth and twentieth century theorists and then brings the story into the present era of globalization hybrid spirituality and the Internet Students of religion will find this an engaging and informative survey of the field Robert Wuthnow Princeton University It considers the big questions What is religion How is religion changing in a modern world What is the future of religion and addresses them through tangible case studies and observations of contemporary life Its global perspective reflects the breadth diversity and vibrancy of this field Sylvia Collins Mayo Kingston University This is a rich and dynamic introduction to the varieties of religious life and the central issues in the sociology of religion today It leads the reader through the key ideas and main debates within the field as well as offering in depth descriptions and analysis of topics such as secularization fundamentalism Pentecostal Christianity Buddhism Hinduism Islam atheism The spiritual marketplace digital religion and new religions like Wicca Emphasising religion as a global phenomenon examining especially the ways in which globalization has had an impact on everyday religious life Singleton has created an illuminating text suitable for students in a wide range of courses looking at religion as a social and cultural phenomenon

Religion in Global Civil Society Mark Juergensmeyer, 2005-11-03 The extraordinary changes in world society at the beginning of the 21st century have involved religion to a degree that would have amazed earlier observers of modernity Within the past decade religion has been associated with some of the world's most strident forms of political encounter including new movements of nationalism the clerical leadership of political sects and the religiously motivated acts of terrorism Religion seems to be trying to tear the planet apart even as other cultural forces seem to be trying to pull it together The technology of the Internet film television cell phones and other forms of rapid universal communication seem to be knitting the world into a single social fabric Consumer franchises and popular culture seem to be making the world a single global city Religion seems to be at odds with all of this Is religion the natural enemy of globalization The essays in this volume explore the difficulties and possibilities of a diversity of religious groups occupying the same civil society The authors avoid simplistic generalizations Religion they show is not only identified with the culture and politics of the hostile anti urban village it is not simply the jihad that Benjamin Barber identified as the opponent of the homogenous global culture of McWorld True some religious activists have blown things up But others have tried to smooth things over Even the religious

opposition to globalization is nuanced Some violent activists like Hindu extremists in India want a new religious state Others like Christian militias or al Qaeda envision a transnational religious entity a kind of religious globalization to supplant the secular one Prophetic religious voices call for moderation justice and environmental protection Religion these essays demonstrate plays diverse and sometimes contradictory roles in the new cultural globalization In a global culture the shared values of different religious traditions can provide a collective sense of virtuous conduct in public life But religion can also support the position of enemies of global society those who see in globalization the effort to impose the values and power of one country over the others

Society and Culture Bryan S Turner,Chris Rojek,2001-04-11 Society and Culture reclaims the classical heritage provides a clear eyed assessment of the promise of sociology in the 21st century and asks whether the cultural turn has made the study of society redundant Sociologists have objected to the rise of cultural studies on the grounds that it produces cultural relativism and lacks a stable research agenda This book looks at these criticisms and illustrates the relevance of a sociological perspective in the analysis of human practice The book argues that the classical tradition must be treated as a living tradition rather than a period piece It analyzes the fundamental principles of belonging and conflict in society and provides a detailed critical survey of the principal social theories that offer solutions to the challenges of modernism

Religion and Politics in a Global Society Paul Christopher Manuel,Alynnna Lyon,Clyde Wilcox,2012-11-12 Religion and Politics in a Global Society Comparative Perspectives from the Portuguese Speaking World edited by Paul Christopher Manuel Alynnna Lyon and Clyde Wilcox explores the legacy of the Portuguese colonial experience with careful consideration of the lasting impression that this experience has had on the cultural religious and political dynamics in the former colonies Applying the insights derived from three theoretical schools religious society political institutions and cultural toolkit this volume brings together scholars from a variety of disciplines offering in depth case studies on Angola Brazil East Timor Goa Mozambique and Portugal societies connected by a shared colonial past and common cultural and sociolinguistic characteristics Each chapter examines questions on how faith and culture interrelate and how the various national experiences might resonate with one another This volume provides a deeper understanding of the Lusophone global society as well as the larger field of religion and politics

Black Theology--Essays on Global Perspectives Dwight N. Hopkins,2017-06-15 Since its start in 1966 black liberation theology in the United States has continually engaged international developments with Africa and the entire world But after Nelson Mandela was released from prison in February 1990 there has been an almost twenty year break in books on black theology and international affairs Black Theology Essays on Global Perspectives bridges that post 1990 gap and makes a vital contact with Africa again This book conceptualizes black theology to take on the global reconfigurations and opportunities brought about by the rapidly shrinking earth of fast paced worldwide contacts In other words in the specificity of the genealogy of black theology we need to reforge ties with Africa This claim is based on tradition And in the generality of the larger worldwide intertwining

of technologies and economics we need a new type of black theological leadership for the twenty first century This claim is based on today s international challenges The essays in this book draw on tradition and point forward in the midst of today s worldwide challenges and favorable possibilities given the closeness of all nations and the varieties of cultures **Studying Religion and Society** Titus Hjelm,Phil Zuckerman,2012-11-27 How do you study religion and society In this fascinating book some of the most famous names in the field explain how they go about their everyday work of studying religions in the field They explain how the ideas for their projects and books have come together how their understanding of religion has changed over the years and how their own beliefs have affected their work They also comment on the changing nature of the field the ideas which they regard as most important and those which have not stood the test of time Lastly they offer advice to young scholars and suggest what needs to be done to enable the field to grow and develop further **Religion and Society in Modern Japan** Mark Mullins,Susumu Shimazono,Paul Loren Swanson,1993 Designed for classroom study this anthology provides the students with interpretations and perspectives on the significance of religion in modern Japan Emphasis is placed on the sociocultural expressions of religion in everyday life rather than on religious texts or traditions A particular strength of this collection is the combination of current Japanese and Western scholarship **Religions/Globalizations** Dwight N. Hopkins,2001-10-03 A collection of essays demonstrating the ways diverse religious rituals symbols ethics and ideologies perform as primary planks in the construction of the public realm with particular focus on peripheral nations and politicized spiritualities of resist Glocal Religions Victor Roudometof,2018-11-07 This book is a printed edition of the Special Issue Glocal Religions that was published in Religions

Eventually, you will unquestionably discover a new experience and deed by spending more cash. nevertheless when? pull off you take that you require to get those every needs with having significantly cash?
