**The Rise of Liberal Religion** Matthew Hedstrom, 2013 Winner of the Frank S and Elizabeth D Brewer Best First Book Prize of the American Society of Church History Society for U S Intellectual History Notable Title in American Intellectual History The story of liberal religion in the twentieth century Matthew S Hedstrom contends is a story of cultural ascendancy This may come as a surprise most scholarship in American religious history after all equates the numerical decline of the Protestant mainline with the failure of religious liberalism Yet a look beyond the pews into the wider culture reveals a more complex and fascinating story one Hedstrom tells in The Rise of Liberal Religion Hedstrom attends especially to the critically important yet little studied arena of religious book culture particularly the religious middlebrow of mid century as the site where religious liberalism was most effectively popularized By looking at book weeks book clubs public libraries new publishing enterprises key authors and bestsellers wartime reading programs and fan mail among other sources Hedstrom is able to provide a rich on the ground account of the men women and organizations that drove religious liberalism's cultural rise in the 1920s 1930s and 1940s Critically by the post WWII period the religious middlebrow had expanded beyond its Protestant roots using mystical and psychological spirituality as a platform

for interreligious exchange This compelling history of religion and book culture not only shows how reading and book buying were critical twentieth century religious practices but also provides a model for thinking about the relationship of religion to consumer culture more broadly In this way The Rise of Liberal Religion offers both innovative cultural history and new ways of seeing the imprint of liberal religion in our own times     The Social Media Handbook Jeremy Hunsinger, Theresa Senft, 2013-10-30 The Social Media Handbook explores how social media are changing disciplinary understandings of the internet and our everyday lives In addition to person to person social networking services like Facebook and Twitter this volume considers a broad range of networked information services that support in depth social interaction community formation and collaboration in the Web 2 0 era Rather than considering social media in terms of specific technologies the chapters in this book engage topics across a range of research techniques practices culture and society and theories These broader topics including community gender fandom disability and journalism are entryways through which students and faculty can explore ways of thinking about social media and find new paradigms for analysis Contributors Axel Bruns Francesca Coppa Katie Ellis Gerard Goggin Alexander Halavais Andrew Herman Jeremy Hunsinger Angus Johnston Alice Marwick Safiya Umoja Noble Zizi Papacharissi Toni Sant Theresa Senft
