Late Modernism and the Avant-Garde British Novel Julia Jordan, 2020-03-24 In the decades following the immediately postwar period in Britain a loose grouping of experimental writers that included Alan Burns Christine Brooke-Rose B. S. Johnson and Ann Quin worked against the dominance as they saw it of the realist novel of

the literary mainstream Late Modernism and the Avant Garde British Novel reassesses the experimentalism versus realism debates of the period and finds a body of work engaged with rather than merely antagonistic towards the literary culture it sought to renovate Charting these engagements it shows how they have significance not just for our understanding of these decades but for the broader movement of the novel through the century This volume takes some of the claims made about experimental fiction that it is unreadable nonlinear elliptical errant plotless and reimagines these descriptors as historically inscribed tendencies that express the period's investment in the idea of the accidental These novels are interested in the fleeting and the fugitive in discontinuity and shock The experimental novel cultivates an interest in methods of representation that are oblique attempting to conjure the world at an angle or in the rear view mirror by ellipsis or evasion These concepts error indeterminacy uncertainty accident all bear a relation to that which evades or resists interpretation and meaning Asking what are the wider political ethical and philosophical correlates of this incommensurability Late Modernism and the Avant Garde British Novel reads experimental literature in this light as suffused with anxiety about its adequacy in the light of its status as necessarily imitative and derivative and therefore redolent of the forms of not knowing and uncertainty that mark late modernism more generally

An Every-day Heroine. (Founded on "Anne Rose"; a Domestic Story, from the Dutch of J.J. Cremer.). Jacob Jan Cremer, 1877

My Mamie Rose Owen Kildare, 1903 Many men have told the stories of their lives I shall tell you mine Not because I as they have done great and important things but because of the miracle which transformed me If lives may be measured by progress mine may have some interest to you When a man at thirty cannot read or write the simplest sentence and then eight years later is able to earn his living by his pen his story may be worth the telling Before beginning however the recital of how I found my ambition awakened let me make my position unmistakably definite I am not a self made man having only contributed a mite in the making A self made man can turn around to the road traveled by him and can point with pride to the monuments of his achievements I cannot do that I have no record of great deeds accomplished I am a man reborn and remade from an unfortunate moral condition into a life in which every atom has but the one message Strive struggle and believe and I would be the sneakiest hypocrite were I to deny that I feel within me a satisfaction at being able to respond to the call with all the possible energy of soul and body

Christine Brooke-Rose Noemi Alice Bartha, 2014-10-16 British born experimental writer Christine Brooke Rose puzzled numerous critics theoreticians and writers as she overturned opinions continuously struggling to outline her fractal identity The present book boldly outlines and settles the ambiguities of Christine Brooke Rose's split identity originating in the psychoanalytical aesthetic and authorial confusion of a writer who took delight in challenging readers with highly experimental novels This study highlights the chameleonic features of the Brooke Rosean narrative in an audaciously exhaustive and original attempt to chart the author's lipogrammic narrative discourse its unifying intertextual yet anamorphic web and its fictional characters
