Uncanny Fairy Tales Francesca Arnavas, 2024-05-31 There are fairy tales that surprise destabilise or even shock us these are uncanny fairy tales that manipulate familiar stories in creative and bewildering ways in order to express new meanings This work analyses these tales basing its approach on a reformulation of Freud's concept of the uncanny Through a cognitive outlook the employed theoretical framework provides new perspectives on the study of experimental literary fairy tales Considering English language literature complex and unsettling reinterpretations of the fairy tale discourse began to appear during the Victorian Age later resurfacing as a postmodern trend This research individuates uncanny related narrative techniques and cognitive responses as means to decodify and explore these tales and as ways to discover unseen connections between Victorian and postmodern texts The new theorisation of the uncanny is linked with three subconcepts mirror hybridity and wonder which function as tools to describe and investigate the cognitive and emotional entanglements characterising enigmatic and disorienting fairy tales

literary fairy tales a metamorphosis that often diminished the ideology of the original narrative Zipes also looks at how folk tales influence our popular beliefs and the ways they have been exploited by a corporate media network intent on regulating the mystical elements of the stories He examines a range of authors including the Brothers Grimm Hans Christian Anderson Ernst Bloch Tolkien Bettelheim and J K Rowling to demonstrate the continuing symbiotic relationship between folklore and literature The name Jack Zipes is synonymous with highly regarded and widely read anthologies and critiques of fairy tales Choice Fairy Tales are a highly fashionable study today for literary scholars as well as folklorists and another new book shows what a range of interest can be evoked by them This time in Jack Zipes interesting and vigorous study Encounter Places traditional tales in their socio political economic and cultural contexts Teacher Librarian Zipes reveals the extraordinary breadth of his acquaintance with both recent and classic literature in the field of folk and fairytale research Fabula Zipes manages the impressive trick of communicating both detail and overview without simplifying either the serious folklorist should definitely have this on his bookshelf Fortean Times      **Literature for Young Adults** Joan L.

**Young Adult Resources Today** Don Latham,Melissa Gross,2014-05-21 Young Adult Resources Today Connecting Teens

with Books Music Games Movies and More is the first comprehensive young adult library services textbook specifically written for today's multidimensional information landscape. The authors integrate a research focused information behavior approach with a literature focused resources approach and bring together in one volume key issues related to research theory and practice in the provision of information services to young adults. Currently no single book addresses both YA information behaviors and information resources in any detail; instead, books tend to focus on one and give only cursory attention to the other. Key features of this revolutionary book include its success in integrating theory, research, and practice; integrating implications for practice throughout the book; integrating knowledge of resources with professional practice as informed by research; integrating both print and electronic formats throughout within the resource chapters, including websites and social media. Latham and Gross accomplish all this while paying particular attention to the socially constructed nature of young adulthood, diversity, YA development, and multiple literacies. Their coverage of information landscapes covers literature with detailed coverage of both genres and subgenres, movies, magazines, web sites, social media, and gaming. The final chapter covers navigating information landscapes, focusing on real and virtual YA spaces, readers advisory, programming, and collaboration. Special attention is paid to program planning and evaluation.
